**Garbage Can Used To Haul Old Money**

FRESNO, Calif. (AP)—Authorities counted \$18,878 yesterday out of a garbage can they used to haul away money found hidden in a two-room Fresno home where the John Domke family lived in near poverty.

The money, some of it in gold coins, was discovered Monday after authorities removed the body of John Domke, 87, from a bed where he had lain dead for eight days.

The widow, Mary, 78, was taken to Fresno General Hospital for observation on court orders. Paper bills sticking out of a lard can led to the search. Money was found secreted in scattered receptacles and was dumped into the garbage can for transportation to a bank.
