

At Other Schools

It's great to see The Daily Texan around the office this year. Last year during all the controversy between Ed- to Willis Morris and the Board of Regents it was conspicuously absent from our files. This year's coed editor evidently hasn't stirred up the hornets nest yet.

Please stay out of trouble, Miss Editor. We enjoy musing through your paper in our spare time.

Don Bott, writer for The Texan has gotten the paper off to a bad start already. In a letter to The Texan a reader sharply criticized the writer on a story, "Student Biochemists Study Schizophrenics". The letter accuses Bott of several gross misstatements of facts in the story besides misspelling the names of two men connected with the project.

The writer in the future had better remember some of the basic rules of journalism. He also might remember the cardinal journalistic sin, taking things for granted.

Texas Tech

Our newest member of the Southwest Conference is having trouble with its freshman program this year. It seems that they can't get their freshman to wear slime caps. Besides this they say that the freshman think that they are

veteran upperclassmen. They can't get the freshmen to enter into the annual shoe race at the homecoming game because they refuse to act like freshman. A Toreador editorial says that Tech has a long row to hoe before they have freshman programs like A&M, TU and Rice.

You have a longer row to hoe than you think if you even want to measure up to the program at A&M. Who could blame the freshmen at Tech for not wanting to wear those kiddish slime caps? Is a boy or girl going to college to return to his or her childhood days or to be made into mature men and women?

Baylor

Up Baylor way Joe Harrell writes about the Aggies football team in the Lariat. He says, "The Aggies can be had. Sure they were big, bold and bad Saturday night as they mauled Texas Tech 40-7 at the Cotton Bowl, but Bryant's '56 edition doesn't have the polish and precision of a great club."

Later in the column he says, "Jack Pardee, senior fullback, who was a defensive demon in the first half. . . . had three passes completed in his zone on one series late in the third period." He feels that any Conference club can keep the Aggies honest with a few off tackle punches and then pass us to death.

This is typical of the propaganda our bare (ooops) Bear friends put out from time to time. One wonders to what radio station he listened to the game.

SMU

It seems that there has been a foamy substance on the surface of the water in the fountain at SMU. Some upperclassmen attributed it to the fact that some freshmen have taken dips in the fountain during to week. Scientists say that it is a frothy concentration of Sodium Chloride caused by the water supply.

The upperclassmen are probably right. The situation makes one wonder if the 'slime' ever left the water.

Student Publications at A&M is one of the most comprehensive in the nation, it includes five student publications published free from censorship by the student editors.

ONE CALL SERVICE When You Call DOCTOR FIXIT For Home Repairs

Contracting a carpenter here, a paper hanger there, a brick layer elsewhere is the hard way . . . and generally more costly. One call to Doctor Fixit does it all. He is a qualified specialist in house repair. He is courteous and competent and offers easy monthly payments. Free estimates—no job too small or too large.

The Battalion

The Editorial Policy of The Battalion Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A&M College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Laverty, Chairman; Prof. Donald D. Burchard, Prof. Tom Leland and Mr. Bennie Zinn, Student members are John W. Gossett, Murray Milner, Jr., and Leighton E. Sheppard, Jr. Ex-officio members are Mr. Charles Koehler, and Ross Strader, Secretary. The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. The Battalion is not published on the Wednesday immediately preceding Easter or Thanksgiving. Subscription rates are \$3.50 per semester, \$6.00 per school year, \$9.00 per full year, or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.

Job Interviews

The following job interviews will be held next week, according to W. R. Horsley, director of the Placement Office:

Monday

THE UPJOHN COMPANY will interview men majoring in veterinary medicine, biology, animal husbandry, dairy science, poultry science, biochemistry and nutrition, business administration and economics for positions as Pharmaceutical salesmen.

THE TRANE COMPANY will interview aeronautical engineers, civil engineers, electrical engineers, industrial engineers and mechanical engineers for technical sales; electrical engineers and mechanical engineers for product engineering and research; industrial engineers and mechanical engineers for industrial engineering or production.

Trane interviews will continue meeting with men in the above majors Tuesday.

HUMBLE OIL AND REFINING COMPANY will conduct a group interview at 7:30 p. m. in the Memorial Student Center, room 3-D. Anyone interested in interviewing this company should attend this meeting.

Tuesday

GEOPHYSICAL SERVICE, INC. will interview geological engineers, geophysicists, mathematics, and physicists for employment in oil field exploration. Single men are preferred; no objection to men having military obligation.

HUMBLE OIL AND REFINING

DON'T DELAY You may win \$5,000

In The Reader's Digest \$41,000 College Contest. You can match wits, too, with other students in colleges across the country. Just list, in order, the six articles in October Reader's Digest you think readers will like best! That's all there is to it—and you can win a big cash prize for yourself plus scholarship money for your college.

Better act fast, though . . . the contest closes at midnight, Oct. 25. Get an entry blank now at your college bookstore.

Letters to the Editor

Editor, The Battalion
 Your unconsidered idea which was placed in The Battalion only shows what an incomplete person you are. Apparently you have let your job become an obsession. Is the military so important that no man can be without it and be first class?

Being a good student and a good Aggie is my job right now just as being a good officer is yours.

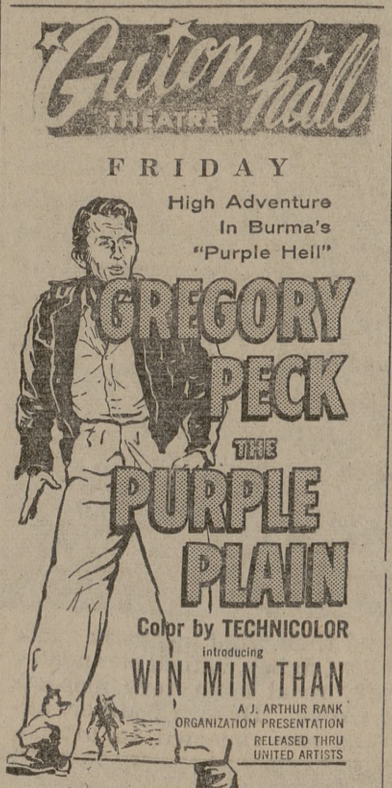

Acknowledging the fact that you are a high-ranking officer I'd say you don't have much right to call anyone second raters when you don't even keep the junior officers squared away enough to present a

fitting example for the cadets in this command.

Seldom will you see such a bunch of sloppy leaders as these and never have I seen Navy or Marine officers with so little pride in their outfit as to de-rate it the way you have yours.

Will Chapman '59

Take a 2-minute preview of your path to RCA engineering

Specialized training program

Earn a regular professional engineering salary as you work on carefully rotated assignments giving you a comprehensive view of RCA engineering. Your individual interests are considered and you have every chance for permanent assignment in the area you prefer. Your work gets careful review under RCA's advancement plan and you benefit from guidance of experienced engineers and interested management. Following training, you will enter development and design engineering in such fields as Radar, Airborne Electronics, Computers, Missile Electronics. For manufacturing engineers, there are positions in quality, material or production control, test equipment design, methods. You may also enter development, design or manufacture of electron tubes, semiconductor components or television.

Direct hire

If you are qualified by experience or advanced education, your interests may point to a direct assignment. The RCA management representative will be glad to help you. Many fields are open . . . from research, systems, design and development to manufacturing engineering . . . in aviation and missile electronics, as well as radar, electron tubes, computers, and many other challenging fields.

. . . and you advance

Small engineering groups mean recognition for initiative and ability, leading on to advancement that's professional as well as financial. RCA further helps your development through reimbursement for graduate study under a liberal tuition refund plan.

Now . . . for a longer look at RCA

See your placement director about an appointment with an RCA engineering management representative who will be on campus . . .

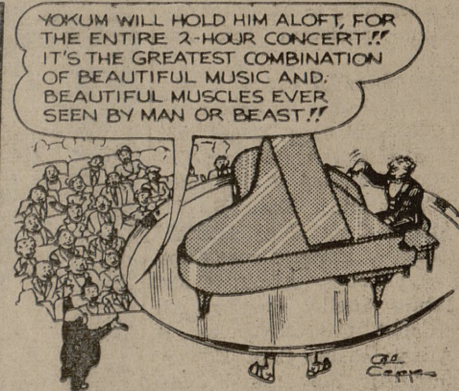

WEDNESDAY, OCTOBER 17, 1956

Talk to your placement officer today . . . ask for literature about your RCA engineering future! If you are unable to see RCA's representative, send your resume to:

Mr. Robert Haklisch, Manager College Relations Dept., CR5-64 Radio Corporation of America Camden 2, New Jersey

RCA RADIO CORPORATION OF AMERICA
