Dewey Attacks Adlai's Speech

WASHINGTON, (AP)—Thomas E. Dewey last night accused Adlai Stevenson of the "most dangerously irresponsible scaremongering by any political candidate" in presenting his H-bomb proposal. The former New York governor, in a CBS radio-television interview—"pick the winner"—said Stevenson used "half-truths" in present-

ing matters which Dewey termed too "delicate and dangerous" to inject into politics. Dewey said Stevenson made a number of "unsupported" statements in urging Monday night that the United States take the lead in arranging a halt to H-bomb testing.

Family Favorites

By Mrs. Jack M. Palmer

Bunty and Jack Palmer reside at 802 A Inlow with their 3 1/2 year old son Bruce. Capt. Palmer is beginning his second year with the Air Science Department here at the College. Listed below are some of their favorite recipes.

They say the lazy person is the most efficient person. In entertaining at dinner, my husband and I must be about as efficient as a host and hostess can be. We are strong believers in enjoying our own parties as much as possible, so we serve food that can be prepared long before the day of the party and with little effort on our part when the guests have arrived. Most of these recipes can be prepared from one to two days ahead.

HAWAIIAN BOLA GAI

One 2 1/2-3 lb. fryer salt, pepper
flour 1 t. celery salt
Preheat your oven to 350 degrees. Coat chicken with flour, salt, pepper, celery salt, and brown in hot grease. Place in a lightly greased casserole and pour over it this mixture of:
1/2 cup soy sauce 1 T. sugar
1/2 cup pineapple juice

Bake for one hour basting every fifteen minutes. Serve with sauteed pineapple slices. Will serve 4 persons.

CHICKEN SPAGHETTI AND SAUCE

The sauce for chicken spaghetti can be made and frozen two or three weeks ahead.

1 large hen 2 small cans mushroom,
4 strips of chopped bacon chopped
1 T. minced onion 3 hard-boiled eggs
2 T. butter 1 pint can tomatoes, strained
2 small packages spaghetti

First boil the hen slowly until tender. Remove bones and skin and cut into small pieces. Fry finely chopped bacon until crisp. Remove from grease and put with chicken. Fry 1 T. minced onion in remaining bacon grease until tender. Add 2 small cans mushroom, chopped, and saute for a few minutes. To onions and mushroom add 3 hard-boiled eggs, chopped, 1 pint can of strained tomatoes, 2 T. butter, chicken broth, and mushroom juice.

Add all ingredients to chicken, salt and pepper to taste, simmer gently for 15 to 20 minutes. Then cook 2 small packages or one large package spaghetti in salted water until tender and drain. Twenty minutes before serving, pour chicken sauce over spaghetti. Do not stir until just before serving, then mix lightly. Will serve 8 to 10.

BANANA BREAD

3 very ripe bananas pinch of salt
1/4 cup sugar 1 beaten egg
1/4 cup butter (melted) 1 T. water
1 t. soda 2 cups pastry flour, sifted

Mash with a fork the bananas and blend in sugar, salt and beaten egg. Stir in melted butter. Dissolve 1 t. soda in 1 T. water and add to a cup of sifted pastry flour. Mix and bake in ungreased loaf pan 45 minutes in 350 degree oven. Will make one loaf. Excellent as tea sandwiches spread with butter, cream cheese softened with milk, or serve plain.

WHISKEY BALLS

For mailing purposes or for the holidays I cannot think of a better cookie than Whiskey Balls. The longer they are allowed to mellow the better they are.

2 jiggers (3 ozs.) whiskey 1 cup vanilla crushed or
2 t. Karo ground*
3/4 cups powdered sugar 1 cup pecans, finely ground*

*An electric blender is excellent for grinding ingredients. Do not overfill, however. Mix thoroughly with hands vanilla wafers, Karo, whiskey, and pecans. Form into ball the size of marbles. Roll in powdered sugar. Let mellow.

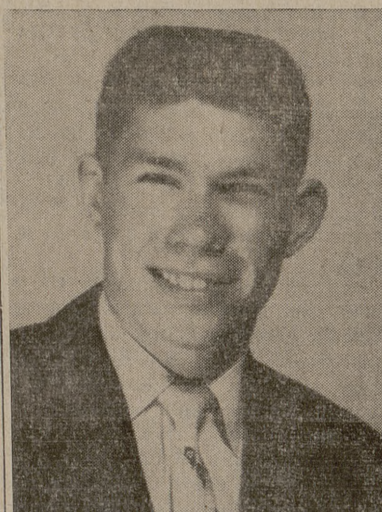

HAMBURGER CASSEROLE

A great favorite of all men I've fed is this hamburger casserole.
3/4 lb. hamburger 1 small pkg. med. width
1/2 med. onion noodles
1 can tomato sauce, paste or 1 can condensed tomato soup
puree salt, pepper to taste
1 small can mushrooms Parmesan cheese
savory salt to taste

Brown hamburger and onion. Boil small package of noodles. Put into lightly greased casserole, browned hamburger and onion, cooked noodles, can tomato soup, can tomato sauce, can mushrooms. Season to taste. Sprinkle top with Parmesan cheese and bake casserole for 20 to 30 minutes at 350 degrees. Will serve 5.

TCU Student Talks At Baptist Vespers

Jerry Muse, a junior pre-med student at TCU, will speak and show slides at Baptist Student Center Vespers Friday night at 7. He is one of six summer missionaries to Hawaii and will share some of the past summer's missionary experiences and blessings. In the summer of 1955 Muse worked with the Texas "Invincibles" and has since been active in Christian work.

Noted Feminine Traveler to Address Wives Council Monday; Public Invited

Carol Lane, a woman who knows more about travel than most men, will be guest speaker at the Monday meeting of the AGGIE WIVES COUNCIL, Lucile Prior announced today.

Miss Lane, often called "America's First Lady of Touring" will tell more than 100 wives club members how to get "Travel Profits by the Carload" at the meeting scheduled for the MSC Assembly Room. This meeting is open to the public. Traveling more than 60,000 miles each year for Shell Oil Company, Miss Lane is constantly studying better ways for Americans to travel by automobile. Her reputation as a feminine authority on motoring is largely due to her many original ideas for car comfort, ranging from ways to unclog radiators to amusement of children on long trips.

The four major profits to be found in traveling: pleasure, education, comfort, and economy, will be related by Miss Lane.

She will give her famous demonstration of how to pack a complete two-week wardrobe into a single 26-inch suitcase, Mrs. Prior revealed.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

 T-28 Worthy successor to the world famous AT-6	 B-45 America's first four engine jet bomber
 F-86 The Sabre Jet that turned the tide in the Korean War	 F-86D America's first all-weather, one-man interceptor
 F-100 America's first operational supersonic fighter	

Engineers, scientists, physicists, mathematicians...

LIKE TO HELP WITH THE NEXT ONE?

The North American airplanes of the future will come from the creative potential of today's young men. Possibly you—or members of your graduating class—will help to engineer them. One thing is certain. They will have to be the best to merit the space reserved alongside the famous North American planes pictured in this ad.

Designing the best airplanes to meet the demands of the future is the challenging work North American offers to graduate

engineers and to specialists in other sciences. If you want to work on advanced projects right from the start... enjoy recognition and personal rewards... live and work in Southern California... then join North American's outstanding engineering team.

See your Placement Officer today to arrange for an appointment with North American Engineering representatives... they will be on campus on:

OCTOBER 23

If you are not available at this time, please write:
