

Brig. Gen. William L. (Jerry) Lee

## General Jerry Lee Is Weekend Guest

Brig. Gen. William L. (Jerry) Lee, class of '27 and the man who taught President Eisenhower to fly, will be one of the special guests of President David H. Morgan for the weekend and the A&M-TCU football game.

Gen. Lee was graduated from A&M with a degree in animal husbandry and is a well-known supporter of the College and Aggies. Last year he flew all the Aggies and their families under his command to the Aggie Muster in his private plane, a C-54.

The Corps Staff has invited him to be their guest for the noon meal tomorrow in Duncan Hall. Mrs. Lee is accompanying her husband. He and his wife will attend the A&M-TCU football game that afternoon with President and Mrs. Morgan.

Gen. Lee was born in Weatherford, Tex. and has served in the Texas National Guard for six and one half years before going into the Air Force.

Known as the father of the

Philippine Air Force, he served there for seven and one half years, three of which were served on Gen. Douglas MacArthur's staff. President Eisenhower was then a major and chief of staff under MacArthur. Gen. Lee is said to speak with affection of both MacArthur and Eisenhower.

Gen. Lee has more than 7,500 flying hours behind him and 34 years of service counting the years he served in the national guard and the reserves. He has been awarded the Distinguished Service Medal, Distinguished Flying Cross, Air Medal with Oak Leaf Clusters, Commendation Medal and several medals from the Philippines, Thailand, Italy and France.

He is past commander of the 13th Air Force in the Philippines and is a personal friend of Philippine President Magsaysay. He is presently on his way to Amarillo Air Force Base to take command there.

## SCONA II Plans To Invite Top Men To Annual Meeting

SCONA II, at a recent planning committee meeting, set up a tentative list of men who are to be invited to attend the conference, which begins Dec. 12.

On the speakers list men invited include Senator William Knowland, Dillon Anderson, Gen. John Gruenther, Joseph Johnson, Gen. Walter B. Smith, Justice William O. Douglas, Chief Justice Earl Warren, Ambassador Charles Malik, Henry Cabot Lodge, Ogden R. Reid, and George F. Kennan.

Members of the panel invited are Robert Anderson, Dillon Anderson, Walter Lippman, Henry Holland, James Barrett Reston, Joseph Johnson, Brig. Gen. Sidney Griffin, Henry Tanner, Dr. Frederick O. Nolde, Col. Pate, Richard Rubottom, and Frank Pace.

Men invited to serve as chairmen and advisors include Chester Bowles, Congressman Walter Judd, John S. Cooper, Dr. Norman T. Ness, Thomas R. Bailey, Dr. W. R. Hogan, Dr. Lewis Hanke, Dr. John M. Claunch, Dr. Paul Geren, Glen Costin, Dr. Frederick Nolde and Joseph Alsop.

Other plans completed at the meeting included setting the method for selecting the 65 colleges and universities invited to attend SCONA II. All senior accredited colleges in Texas with a minimum enrollment of 1,000 students were invited. Twenty-two Texas colleges qualified and have been invited to send two delegates.

All senior accredited colleges with a minimum enrollment of 3,000 students in states touched by a 600 mile radius drawn from College Station, and all land-grant colleges and universities in these

states regardless of size are invited. Twenty-five colleges and universities qualified in this category and have been invited.

Several exceptions were made and 17 schools not in either category were invited to attend. Five alternates were invited also.

A total of 65 colleges have been invited and the total number of student conferees invited totals

129. Three principal speakers will attend the convention from the list of men invited. Five panelists from the men invited will be chosen, and 14 Round-table chairmen and roving observers round out the list of leaders of the conference.

### Chest Goal

(Continued from Page 1)  
explained that the facilities are used by students, churches, scout and other civic groups.

The recently-reorganized College Station Youth Facilities Council requested \$1,000 to be distributed at their discretion. \$250 was marked for Girl Scout camp improvements, \$250 for improvements on the Lincoln School softball field and \$500 to use on a project of their choosing.

The Board of Directors granted President Bob Cherry, who represented the Council, \$500.

Community House, Inc., which runs a day nursery for colored children, received its request of \$1,000 to complete funds for a first payment on a new building. F. R. Brison represented the House.

Vic Ehlers, director of the Brazos County Youth Development Counseling Service, requested \$400 as the Chest's contribution to the sociological experiment being carried on in Brazos County by that group. The Board granted the amount.

A field worker representing the Texas United Defense Fund, received \$400 of the \$626 requested by the group, which contributes support to the USO and other similar organizations.

The local chest charity fund, a fund to care for unforeseen emergencies in the city, was allotted \$1,050 to bring the drive's total goal to \$14,000.

In addition to the co-chairmen, Reed and Milliff, board members attending the meeting were H. G. Thompson, L. E. McCall, Jack Thipit, K. F. Robinson, R. R. Shrode, W. A. Tarrow, Mrs. W. M. Heritage, Mrs. R. L. Elkins and Mrs. F. R. Brison.

## Graduate Study Scholarships Given By CPC

Graduate students, or those scheduled to graduate in June, interested in doing graduate study in Venezuela are offered an opportunity to apply for scholarships offered by the Creole Petroleum Company.

The scholarships are administered through the Cordell Hull Foundation in New Orleans, La., and are open to students who fit the requirements.

Interested people should possess an A.B. or B.S. degree from a recognized college or university, or submit proof that he will receive the degree no later than June, '57; sufficient knowledge of Spanish to follow courses in that language; good academic purpose; good health and desire to become acquainted with people and customs of another country.

The scholarships are for one year of graduate study in one of the five universities in Venezuela, they carry pay of \$5,000 per year and have the choice of one of the following fields of study: engineering (including petroleum) economics, international studies, sociology, anthropology, public health, forestry and tropical agriculture.

Applications may be obtained from the Cordell Hull Foundation, 611 Gravier St., New Orleans, La. Deadline for the applications is Dec. 1.

## DATELINE AYRSHIRE

By Ken George

Randy Guggenheimer writes a column called "Down The Field" for the Yale Daily News. Randy quotes Bill Dayton, Yale trainer, as having said, "I saw more coaching at Yale in a week than I did in a year at my old job at Texas A&M". Wonder if Dayton was one of the gents Bear ran off three years ago?

Oh yes fellows you might be interested to know that Yale's assistant Coach, Fritz Barzilaukas, was a top lineman on the 1946 Eli team. With a name like that he should have played for Notre Dame.

Charles Davis lost his thermometer in plant physiology lab last Thursday. If you know where Charlie's thermometer is please notify him, everyone knows you can't take a plant's temperature without a thermometer.

Doc, Hamilton, Business Administration Prof. says, "Communism is where you have two cows: you milk both of them, and give the milk to the government, and the government sells it back to you. Fascism is where you have two cows: The government kills you and takes the cows. New Dealism is where you have two cows; you kill one and milk the other and then pour the milk down the drain. Capitalism is where you have two cows, you sell one and buy a bull, that's free enterprise."

## A&M's Singing Cadets Plan Active Schedule

A&M's Singing Cadets have planned an active year of concerts and programs in cities over the state and here on the campus, according to Bill Turner, director.

Boasting a 57-member group, the Cadets will give their first program here before the Texas Farm and Ranch Credit Meeting for Commercial Bankers on Nov. 26.

Next the group will give a concert in Greenville sponsored by the Business and Professional Women's Club there on Dec. 7. They will return here Dec. 18 to give a program for the A&M Employee's Christmas Dinner.

As in the past the singing group will give a program of Christmas music in the Memorial Student Center in cooperation with the Aggie Players.

The Cadets are planning to go on tour to Denton and Dallas and to West Texas in the winter and spring.

Soloists for the cadets this year are James Bond, Ed Burkhead, Charles (Rocky) Arnold, Hampton Keathley and Charles Jenkins. Accompanist is Richard Platt.

Officers are Charlie Jenkins, president; Ed Burkhead, vice-president; Bob Surovik, business manager; Clem Sherek, librarian and James Bond, reporter-historian.

What young people are doing at General Electric

$$\frac{1}{A} \frac{\partial u}{\partial x} + \frac{v}{AB} \frac{\partial A}{\partial B} - \frac{w}{R}$$

**Young mathematician helps pace engineering advances**

Recently General Electric developed a compact, new motor for industrial use. But before the motor could be put into automatic production, one difficulty remained: to design a protective end shield that would confine any possible explosion to the motor itself.

The man who solved the tough mathematical problems involved is R.A. "Pete" Powell — a mathematical analyst whose job is to assist other engineers in math problems which arise in any number of different projects.

**Powell's Work Is Varied and Important**

Because he is not tied down to any one project, Powell seldom has two similar assignments. Taking established engineering and mathematical principles, some of them extremely complicated, Powell applies them to advanced engineering problems. In doing this, Pete is able to make such calculations as the distortion of a small part of a jet engine caused by vibrations, the deflection occurring in a turbine part when it runs at operational speeds, or the forces exerted upon a rotating shaft by lubricants.

**27,000 College Graduates at General Electric**

When "Pete" Powell came to General Electric in 1953, he already knew the kind of work he wanted to do. Like each of our 27,000 college-graduate employees, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given freedom to make progress, everybody benefits — the individual, the Company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

R. A. "PETE" POWELL joined General Electric in 1953 after receiving his B.S. in Physics in '47 and his M.S. in Mathematics in '49, both from Purdue. From 1949-52 he completed further study in Physics again at Purdue.

Progress Is Our Most Important Product

**GENERAL ELECTRIC**
