

MEATS JUDGING TEAM MEMBERS—Only four of the above boys are representing A&M in the American Royal at Kansas City next week, they are (left to right) Clarence (Pete) Wheeler, Kermit Wahrmond Larry (Caddo) Waldrip, Dave Terry, Don Johnson, Melvin Lebo and coach Gene King. Wheeler and Waldrip did not make the trip. This team with the Livestock and Wool Judging Teams, left Wednesday morning and are scheduled to return next Wednesday after competition in Kansas City.

One Day Bride Must Lose Leg Due to Cancer

OKLAHOMA CITY—(AP)—A pretty 17-year-old girl, who was married in her hospital bed to her sweetheart Wednesday, was told yesterday she must lose her right leg because of a malignant cancer.

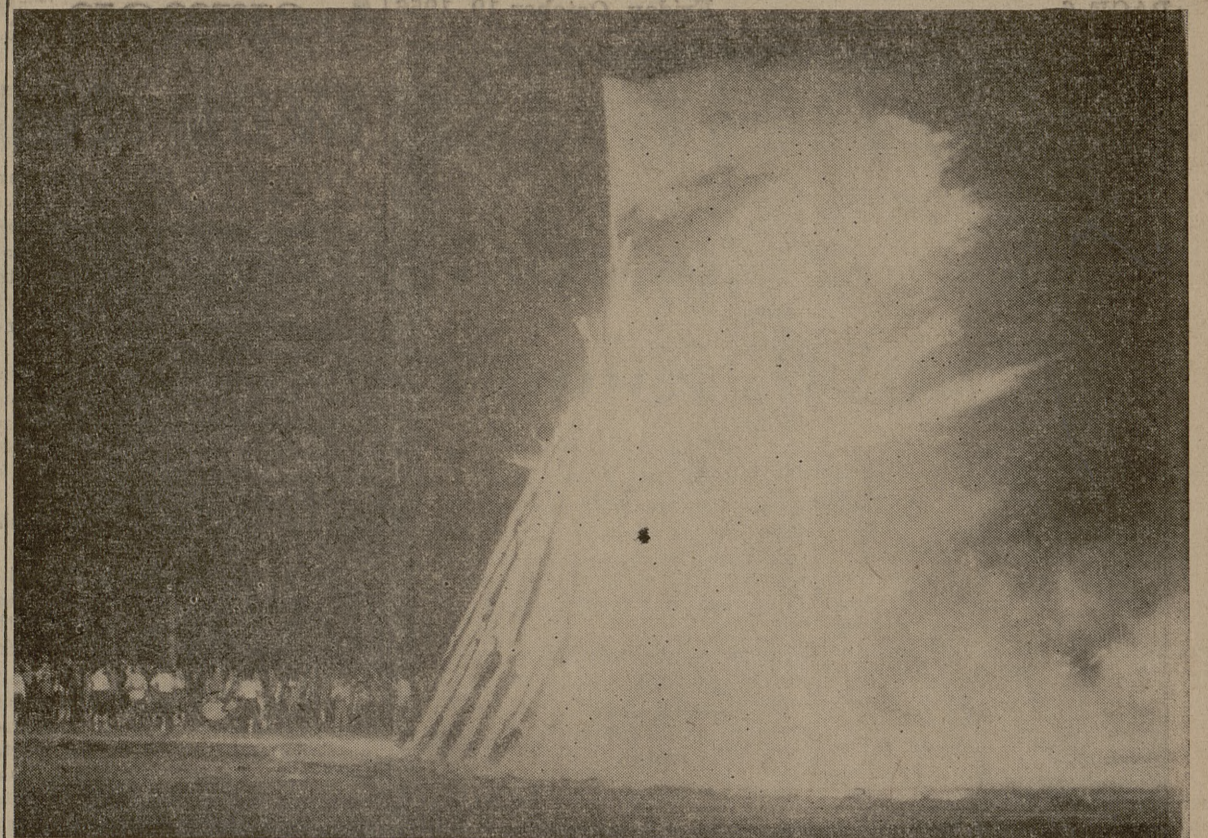

At first, Cherrie Lee Thompson laughed and told the doctor he was kidding her. She didn't understand what malignancy meant.

After the doctor explained, she turned to her groom of a day, Larry Jay, 21, and said, "New see what kind of a girl you married," and began to cry.

However, Jay who is a soldier stationed at Ft. Jackson, S.C., already knew. He came here on an emergency leave to ask Cherrie to hurry up their marriage.

Today, she underwent surgery to have her leg removed in an effort to stop the cancer.

Sisters at St. Anthony Hospital said that after Cherrie got over the initial shock, she began "kidding us about it wouldn't be too bad wearing silk stockings over an artificial leg."

BURNING SYMBOL—A&M Consolidated High School's biggest bonfire blazes at ceremonies opening the annual homecoming celebration at CHS being held this weekend. The bonfire, lit Thursday night by the football co-captains, furnished the light as a dwarfed student body yelled and the Tiger band played school songs.

Ags Modernize Lounge; Now It Has A TV Set Too

Members of the 6th and 7th Groups of the AFROTC have gone to the time and trouble of making the lounge of Dorm 5 a little more pleasant for visitors and guests.

Within the past two weeks, students living in Dorm 5 and Dorm 7 have modernized, redecorated and refurnished their lounge. They built two planters out of pressed brick, installed a TV antenna for the television set which is being used through the cooperation of the 6th Group and bought several magazine subscriptions for the magazine rack.

Total cost of the materials used in the modernization of the lounge was about \$50. The cost was divided between the two groups with the 7th Group paying the larger portion. The 6th Group has waxed the floor and done several other odd jobs while the 7th Group did most of the repairing and construction.

Basic Division is responsible for the appraisal and counseling services to all students enabling them to learn more about their aptitudes, personalities and interests.

ALL SPIC AND SPAN FOR THE FOLKS—enjoying the "new look" in the lounge of Dorm 5 Bob Skinner, (left to right) Randall Sanders, Alton Meyer and Theron (Mack) McLauren inspect facilities of the lounge. Occupants of Dorms 5 and 7 went together to construct the planters and purchase a TV antenna, new drapes, more furniture and a new paint job on the quarters.

Polish Commies Ready For Freedom From USSR

WARSAW—(AP)—Poland's Communist Central Committee was reported yesterday to be preparing a demand that this country's relations with the Soviet Union be placed on a basis of full independence.

The United Workers - Communist party Central Committee, meets in Warsaw today. The decisions it takes could have historic meaning for the future of the whole East European Communist bloc.

There are widespread reports that the Soviet and the Chinese Communist parties, sending the Polish committee letters of "fraternal greeting," are urging the Poles not to go too far in seeking "new ways to socialism." Some

influential members of the Polish party committee are believed opposing a move toward a position like that of President Tito's Yugoslav party, but no one here expects their views to prevail.

The reins at the moment seem to be in the hands of those who favor a Polish position like Tito's with regard to Moscow—good relations but independence of action.

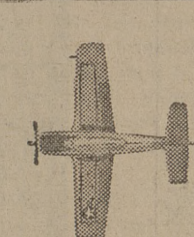

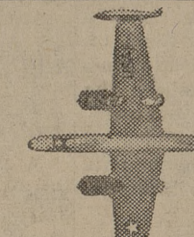

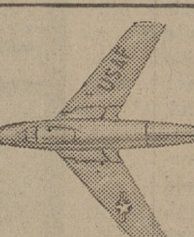

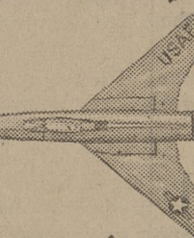

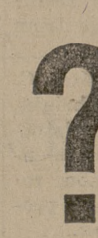

Anti-Russian feeling in Poland and an obvious need for a gigantic rescue operation to save this country's sagging economy seem to dictate the line the Central Committee will take. Thus, responsible sources say, a resolution will be drawn up closely following the line

of the Belgrade declaration in which the Soviet and Yugoslav parties renewed contacts on the basis of independence.

One of the first items on the committee's agenda is the restoration to the Politburo of Wladislaw Gomulka, who spent several years in jail as a Titoist during the Stalin regime. His election the post of party secretary-party boss — now held by Edward Ochab, probably will await a full party Congress next March.

Another important item will be consideration of a new farm policy which likely will reverse the process of Soviet-style collectivization.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

 T-28 Worthy successor to the world famous AT-6	 B-45 America's first four engine jet bomber
 F-86 The Sabre Jet that turned the tide in the Korean War	 F-86D America's first all-weather, one-man interceptor
 F-100 America's first operational supersonic fighter	

Engineers, scientists, physicists, mathematicians . . .

LIKE TO HELP WITH THE NEXT ONE?

The North American airplanes of the future will come from the creative potential of today's young men. Possibly you— or members of your graduating class— will help to engineer them. One thing is certain. They will have to be the best to merit the space reserved alongside the famous North American planes pictured in this ad.

Designing the best airplanes to meet the demands of the future is the challenging work North American offers to graduate engineers and to specialists in other sciences. If you want to work on advanced projects right from the start . . . enjoy recognition and personal rewards . . . live and work in Southern California . . . then join North American's outstanding engineering team.

See your Placement Officer today to arrange for an appointment with North American Engineering representatives . . . they will be on campus on:

OCTOBER 23

If you are not available at this time, please write:
