Films Reveal Swink Scored

FORT WORTH, (AP)—Coach Abe Martin of Texas Christian said Monday there will be no protest over the many close calls by officials in the TCU-Texas A&M football game Saturday although motion pictures of the game reportedly indicated TCU scored one touchdown that it did not get credit for. Texas A&M won the game 7-6.

"It doesn't do any good to scream," Martin said. "Sometimes you lose all the close ones. Other times you may get them."

The pictures reportedly showed there were some seven plays close enough to cause arguments among witnesses of the game. The film, though much clearer than had been anticipated because the game was played in a rainstorm, did not permit definite judgment on some debatable plays.

The film showed, according to observers, that TCU was off-side on Jim Swink's three-yard burst for a touchdown in the first period, but that he was across the goal line from two yards out on

a third-down play in the second period. On the next play, though, the ball is hidden, but observers said it appeared Swink's upper body was across the goal line. On both tries, officials ruled Swink short of the goal line.

The film also showed, they said, that O'Day Williams of TCU was in the end zone when he caught the TCU touchdown pass. There was some debate over whether he stepped out or was falling out at the time he caught the ball.

Dieter Ufer Outstanding

Fish Swimmers Open '56 Action

By JOE DAN BOYD
Assistant Sports Editor

A&M's Freshman splashers, featuring dolphin extraordinary Dieter Ufer start official '56 action Monday Oct. 29 at P. L. Downs Natatorium. "It looks like the Aggies might have an outstanding Fish swimming team this year," declared Coach Art Adamson.

"Ufer is probably the best freshman breast stroker in the state," according to Adamson who expresses high hopes for the young Aggie splasher. Freestyler Nicholas Kuich, coming from Houston's Lamar High, is another of Adamson's promising proteges.

Other members of the team are David Woodard, freestyle and backstroke; Mike Briggs, backstroke; Don Draper, freestyle; Robert Kenrick, freestyle and breast stroke; John Dollard, breast stroke; and Claro Hernandez, freestyle.

Dollard hails from California and attracted quite a bit of attention winning the 66 2/3-yard breast stroke in Freshman intramurals. Hernandez gained recognition by copping the 100-yard intramural freestyle event.

"Kenrick is probably the most versatile man on the team," according to Coach Adamson. "We are having a pretty hard time deciding just which is his best event," Adamson volunteered.

Billy Johnson and Conrad Floyd head the diving chores for A&M's fish, but competition is likely to be keen for these positions as the season progresses. Johnson is from San Jacinto and Floyd comes to Aggieland from Venezuela.

Adamson expressed pleasure at the fine showing made in this

year's intramural action. "Another good point about our team is the tremendous interest of all members," the swimming mentor stated. "A great percentage of our swimmers are boys from various dormitories who have expressed a desire to try out for the team," Adamson concluded.

Five key men were lost by graduation from last year's championship varsity team. They were Dick Weike, Gale Klipple, Gene Bedford, George Parr, and Wynne Snoots. Weike was first in the 200-yard breast stroke last year and Klipple was second. Varsity action is scheduled to get underway after Thanksgiving, but most of the defending SWC Champs are already coming in individually and loosening up before the official deadline. Adamson urges anyone interested in joining the Aggie splashers to report to P. L. Downs Natatorium and start getting in shape.

Savage Scores Pair For Sqd. Four Win

By DON BISETT
Intramural Writer

Bill Savage slashed for two touchdowns and scored two extra points to lead Sqdn. 4 to victory in a class B intramural football game Monday.

Wayne Lee started the ball rolling by catching a 2-yard pass to set up the first T.D. Savage scored easily on a short run but missed the first of his three extra points. He accounted for another touchdown and the point after on a long run. Dan Cantrell accounted for the last marker by intercepting a pass and running it back 15 yards. Savage made the extra point to run his personal total to 14 points.

Virgil Youngblood caught a pass late in the game and ran it for 30 yards to score AAA's only touchdown. The final 20 to 6.

The line of A Signal caught J. R. Chapman behind his own goal to score a safety and two points to beat Sqdn. 7, 2-0.

In a game of long passes B AAA scored on a 55 yard pass from Bryant Cobb to Bob Pope for their only score. They made the point-after which was the margin

of victory as Sqdn. 5 scored on a 50 yard pass from Kelly Marshall to Mike Wright. The final on this one B AAA 7, Sqdn. 5 6.

Sqdn. 6 defeated C AAA, 6-0, in the only other game played.

In class A basketball Bob Powers of A FA pumped in 14 points to lead his team to victory over Sqdn. 13, 29 to 25. Willie Burgger with 10 points was high point man for the air force team.

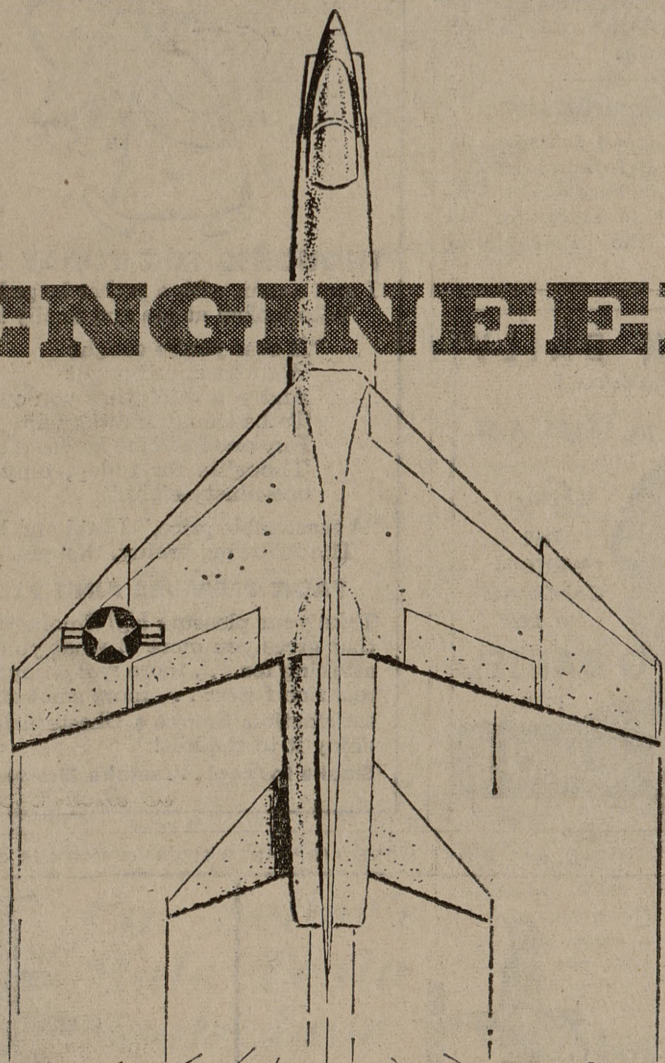

CHS Loses Fifth Straight, 47-14

Navasota's powerful Rattlers struck quickly and dramatically Friday night on Tiger Field, crushing A&M Consolidated 47-14 before a large Homecoming crowd.

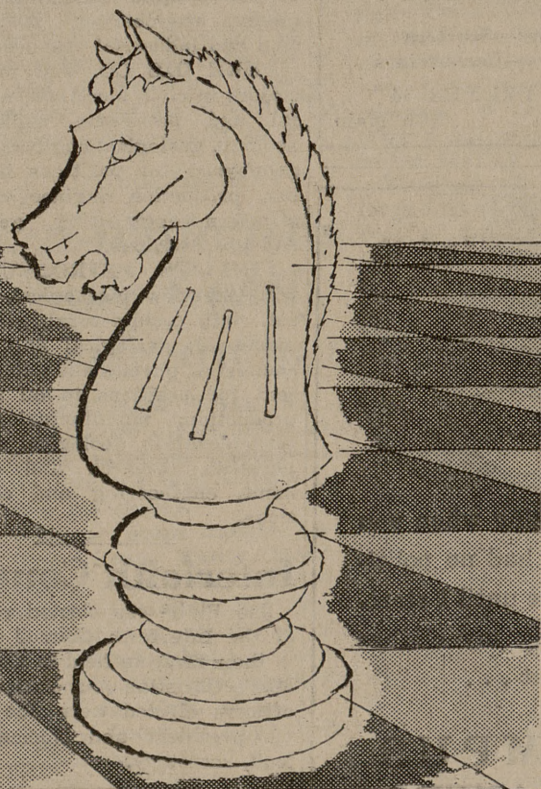

The Tigers "temporarily" resides in the cellar due to their 0-1 loop mark and now they stand at 1-6 for the season. Some consolation was obtained by Consolidated, as they finally located their opponent's end zone after a fruitless four-week search.

Betty Mead was crowned A&M's Homecoming Queen in coronation ceremonies.

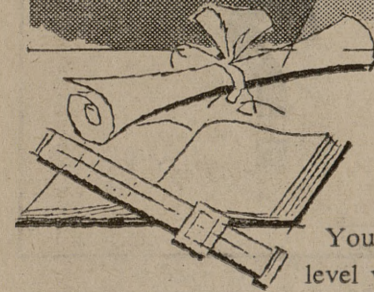

ENGINEERS:

when your
career is
concerned...

one wise move
deserves another

Your decision to work for an engineering degree was a wise one. You are about to graduate to a professional level which itself is an exclusive prize that few are qualified to achieve. You have chosen a profession which is providing leadership for the most dramatic advancements of our age. Time now for another decision. Where can you invest your education so it will bring you maximum returns in satisfaction and success? Where can you serve with credit to your profession and society? If these are your goals, we'd like to suggest your next move. Associate yourself with other engineers whose aims are the same as yours. Choose an organization with a reputation for engineering excellence and an abundance of modern equipment and advanced projects. You can find these surroundings at

Chance Vought, and you may obtain firsthand advance information about any feature of Chance Vought engineering from our campus representative. Ask your placement office to arrange an appointment for you. Meanwhile, for interesting facts about Chance Vought opportunities, check your library's engineering job directories, or write directly to: Engineering Personnel, Chance Vought Aircraft, Inc., P. O. Box 5907, Dallas, Texas. Note especially our history of fighter aircraft development; our most recent additions to this history, the F8U-1 CRUSADER Navy fighter and REGULUS guided missile, and our current projects in jet fighter aircraft and surface-to-surface missile development. Find out how Chance Vought can help you make your next career move as wise as your first.

P. O. Box 5907 Dallas, Texas

Our representative will be in your Placement Office Thursday and Friday, Oct. 25 and 26, to answer your questions about Chance Vought careers. Please make your appointment soon.
