

HALLOWEEN SIRENS—sent College Station's Volunteer Firemen to the home of Charles R. Colbert at 600 Dexter St. where the summer inhabitants of the chimney (chimney sweeps) caused flames, soot and lots of smoke to boil out the chimney. No damage was done to the house by the fire, and all the neighbors and children had fun chasing the fire engines.

Gonzales Foundation New Chest Member

(Ed. Note: This is the fourth in a series of articles on the agencies requesting your help in the 1956 A&M College-College Station Community Chest-Red Cross Drive.)

The Gonzales Warm Springs Foundation for Crippled Children is asking for \$500 from this year's drive to be used in their program of assisting crippled people in Texas. This is the first year they have been included.

Founded in 1937 by a group of Gonzales businessmen, the first facilities at the Foundation were opened in 1941. The warm spring mentioned in the Foundations title flows from an old dry oil well drilled in 1909 on the site.

Warm water at a constant temperature of 106 degrees flows into the Foundation's swimming pool and therapy pools. While the water lacks any healing value, many treatment methods have been developed using the water.

Last year over 360 patients were examined or treated by the Foundation. The average daily number of patients was 77.4 and 73.7 per cent of the beds were in use each average day.

Money donated to the Foundation is used in providing additional personnel and extra equipment for treating diseases such as Polio-

myelitis, Cerebral Palsy, Multiple Sclerosis, Muscular Dystrophy, Arthritis and any other such disease.

Facilities at the Foundation are available to any patient who will benefit from them, regardless of age, color, race, creed or financial standing. The Foundation Dimes and often treats cases sent work closely with the March of the larger group.

Five Brazos County persons have been admitted to the Foundation since 1950 for a total of 488 treatment days. They include Mrs. Martha Hall, Ken Hallaran, Steve Henton, Jean Matyear and Sam A. Tullous.

Heat Expert Will Speak To ASHAE

American Society of Heating and Ventilation Engineers will meet Nov. 13 at 7:30 p.m. in the Mechanical Engineering Building.

Bob Mossman, of Carrier Corporation, will talk on centrifugal compressors.

President is John Parsely, M.E. from Galveston. The staff advisor, L. S. O'Bannon, of the Mechanical Engineering Department, is an expert in the field of refrigeration and air conditioning.

Girl Scouts Hear Civil Defense Talk

Mrs. Grace Martin, State Coordinator of Women's Activities for Civil Defense spoke to senior Girl Scout Troop 5 of College Station recently, on the role of youth organizations in Civil Defense.

"In a disaster, there are two kinds of people: those who need help and those who can give help," Mrs. Martin said. "Preparedness prevents panic and every Girl Scout can help themselves and their families in time of disaster through Civil Defense training."

Mrs. Martin pointed out that Texas has the highest rate of floods and tornados and the second highest rate of hurricane danger in the United States. She distributed leaflets outlining measures to be taken in the event of a disaster.

The troop practiced a short Civil Defense program which they will present before students of A&M Consolidated High School soon.

Danforth to Award Graduate Students

The Danforth Foundation will award approximately 60 scholarships for 1957-58 to beginning graduate students, the foundation announced.

Amounts of the scholarships will vary according to need, ranging to a maximum of \$1800 for single students, \$2400 if married, plus additional allowance for children. Only those students expecting to enter college teaching are eligible for the awards.

A&M is permitted to nominate three students. To be eligible a nominee must be under 30 years of age and be studying a field commonly taught in an undergraduate college.

Those who wish to be considered for nomination should hand in their application to Dean W. H. Delaplaine, School of Arts and Sciences, by Jan. 15, 1957.

Since 1952, four graduates of A&M have received these awards, more than from any other Texas institution.

Slow Ticket Sales May Stop Area TV

Although sales have picked up rapidly in the last 48 hours, only about 20,000 tickets to the Arkansas-Texas A&M game have been sold, according to Pat Dial, Athletic Department business manager.

The game will be regionally televised, but will be blocked off locally unless the remaining tickets are sold. Reserved seat tickets go off sale Friday at noon.
