Immediate Answer Refused by Eden Regarding UN's Order for Cease-fire

Daniel Backs Raise For Ext. Service

By LELAND BOYD
Battalion News Editor

Senator Price Daniel last night told Texas County Agents and Home Demonstration Agents that he favors an increase in their salaries.

He told the group, "I pledge my backing and influence when the legislature meets next year in getting an increase in your salaries."

The Texas Junior Senator and Democratic nominee for governor made the pledge at an annual ban-

quet of nearly 500 Texas Extension Service workers. The Extension workers had held their annual conference on the A&M campus this week.

Daniel told the group he considered their work highly important "for the state, all the people and the nation."

"I congratulate you on the work you have done in this state, for all the people of Texas."

He dealt shortly in his 15 minute speech with problems of agriculture in Texas and the United States.

"A person cannot serve in the senate without becoming acquainted with problems of agriculture," he said.

He delved into perennial statistics used to point out how serious the problems are.

He quoted a 28 per cent decline in farm income from 1952 to 1955 as compared with the record 29 per cent increase for industry for the same period. He said labor was also receiving record wages.

Charity Fund Gives Extra Chest Service

(Ed Note: This is the fifth in a series of articles on the agencies requesting your help in the 1956 A&M College-College Station Community Chest-Red Cross Drive.)

The Local Chest Charity Fund is one of the least known but perhaps one of the most important agencies included in this year's Community Chest drive.

Administered by a five-member sub-committee appointed by the Chest Board of Directors chairman, the fund is not limited to any particular type of need. It is used for any purpose the sub-committee decides upon.

During 1955, the fund was used to pay rent for a burned-out family and medical care for children of the family. School supplies, glasses, lunches and other necessities were provided for some needy children and transportation to out-of-town hospitals for others.

Most cases are brought to the attention of the sub-committee by the Brazos County Welfare Unit or citizens of College Station. The cases are all reviewed and aid granted almost every time. Often the local check fills a need before more formal groups can act.

The local fund was begun many years ago as the "needy children's fund" but was recently changed to the "Local Chest Charity Fund".

This year's drive committee has budgeted \$1,050 for the fund.

Israel Captures Egypt's Gaza City

LONDON—(AP)—Prime Minister Eden refused today to give an immediate decision on a U.N. call for a cease-fire in the Middle East, and the Labor party warned that unofficial strikes may sweep the country unless he speaks out soon.

Eden told the House of Commons he had not yet had time to receive, much less study, the proceedings of the U.N. General Assembly in New York. He may make a statement later today.

Britain's Labor leaders—in both the political and trade union branches of the movement—have stressed that Labor will not approve "industrial action" as a weapon against Eden's policies.

The party, however, is attempting to organize a mass popular protest under the slogan "Law—not war."

Eden's refusal to commit himself at once on the U.N. actions touched off another angry scene in the House of Commons—the second in as many days—with Laborites shouting for him to "resign."

TEL AVIV—(AP)—Gaza City surrendered today to Israeli tanks and troops, giving Israel control of the entire coastal strip from which she charged Egypt had launched repeated attacks.

Surrender of the city, famed in Biblical history and Egyptian headquarters for the Gaza Strip, was announced by Israeli army headquarters here.

Gaza fell after 24 hours of fighting for the strip of territory 25 miles long and 8 miles wide. Occupied by Egypt under the 1949 armistice, it became the home of some 250,000 of the bitter, poverty-stricken Arab refugees displaced by the Palestine war.

Price of directories is 75 cents.

Corps Senators Representing Dormitories

Student Senators last night voted to have the Senate Election Committee assign dormitories to Corps senators to poll on issues which are discussed in the senate meetings.

Joe Ross, chairman of the Executive Committee, made the motion and said that dorm assignments are necessary because Corps senators represent such a large group of men. By having a specific dorm assigned to each senator, it would be possible for a senator to better represent the views of the student body.

One other motion passed at the meeting in the Senate Chamber of the Memorial Student Center was to support the fund-raising campaign for Bill Curry. Tom Harris, chairman of the Welfare Committee, said that the student chaplains are planning to make an appeal for donations at the A&M-Rice football game.

Bryan Dedeker presented a report on a possible compulsory accident insurance policy for students. Bill Dorsey in discussing the program said that last year he inquired about an accident policy for the Corps students during the ten days preceding the Thanksgiving Day Bonfire. He was told that such a policy would cost from 12 to \$14,000.

An insurance man in College Station had quoted a figure to Dedeker and said that such a
