

Guest Editorial

College leaders in America, faced with responsibility for meeting the needs of a sharply increasing number of students in the next decade, will not find it easy to resist the temptation to lose themselves in the fascination of big numbers.

They will be tempted to forget that the basic factor will always be the education of the individual, and that a human is a great deal more than a statistic.

In facing this need, four considerations occur to me as being of chief concern to all of us:

1. If the individual is not to be lost in the crowd of students we shall have, we need to recognize his importance as an individual, and to develop better ways of making it possible for him to find the sort of education he needs and wants. We must think more about the student than about the processes of education.

2. We need to find ways of stimulating greater self-reliance in the student, of exciting his interest in the very process through which he is going in order that he may have a more genuine sense of participation, of involvement, of self-development. There is danger that with increased numbers, the tendency may be for instruction to become more automatic and less significant to the individual student.

3. Our society, with so many human, social and technical problems crying for attention, requires educated men and women who are alert to the problems, who are sensitive to the need for solving them, and who possess the imagination and ingenuity necessary to determine the nature of the problems and the best way of approaching them.

4. We need more in our educational process which will cultivate insights and faith among our students in the ultimate meaning and purpose of life. The driving force of American life has never been materialistic, but rather our greatest motive has been to achieve fulfillment of the best that our lives can realize.

As I sought to express it some years ago—"We live and work for the fulfillment of the promise of our endowment at birth. But this endowment was none of our doing, we are only custodians—the stewards of that endowment—of personality and talent which makes each of us a human being. To reach our highest fulfillment as stewards, we must recognize that we are all dependent upon a power greater than our own. It is our faith in that power which gives us the fortitude to tackle the problems that confront us and which gives us assurance that if we tackle them in the right spirit we shall be led to the right answers."

ARTHUR S. ADAMS,
President, American Council on Education

What's Cooking

The following clubs will meet tonight:

German Club meets at 7:30 in Room 125, Academic Building. Nick Hopkins will speak about his trip to Europe.

Accounting Society meets at 7:40 in the Memorial Student Center Social Room. Principal speaker

will be Bob Smith who will discuss relationship of accountants and machines.

A.G.C. will meet at 7:30 in room 404, Academic Building. Porter of Lift Lab., Inc. will speak.

Collegiate Chapter Future Farmers of America meets at 7:30 in the Agronomy Lecture room.

The Battalion

The Editorial Policy of The Battalion Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A.M.C. College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Lavery, Chairman; Prof. Donald D. Burchard, Prof. Tom Leland and Mr. Bennie Zinn. Student members are John W. Gossett, Murray Miner, Jr. and Leighis E. Sheppard, Jr. Ex-officio members are Mr. Charles Roeder, and Ross Strader, Secretary. The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. The Battalion is not published on the Wednesday immediately preceding Easter or Thanksgiving. Subscription rates are \$3.50 per semester, \$6.00 per school year, \$6.50 per full year, or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.

Letters to the Editor

Editor,
The Battalion

In response to the recent furor over Reveille's conduct on the football field, we find ourselves in full accord with the editor of The Battalion.

It is our opinion that if Reveille is permitted by the school to continue her misdemeanors, it will constitute an intentional display of vulgarity and an over-all lowering of the school standards.

It would seem to us that if Reveille's unsanitary and disgusting actions are not brought to a halt, the student body is both literally and figuratively flinging a deliberate insult into the faces of our grand band and championship football team.
