

# Dr. Fred W. Jensen Resigns Position

Dr. Fred W. Jensen, Chemistry Department head, has been named "Distinguished Professor of Chemistry" effective Sept. 1, 1957 and at the same time will leave his present position to devote full time on research work.

President David H. Morgan said Dr. Jensen was one of the few outstanding men in the field of chemistry at A&M. He added that there are no more than four or five men on the campus who have achieved the honor of "distinguished professor."

Dr. W. H. Delaplane, dean of the School of Arts and Sciences, said that since Dr. Jensen was named chemistry head in 1947, he

had succeeded in strengthening the program and staff of the department to the point where it is accredited by the American Chemical Society, both for undergraduate and graduate work.

In 1945, Dr. Jensen collaborated with Dr. A. L. Parrack of the engineering experiment station to develop "Suzie Q", a high frequency analysis system used in determining the chemical make-up of solutions. The instrument has been called the "greatest single development in chemistry in the past decade."

In 1954, \$60,000 of the Robert A. Welch Foundation made available to A&M for research was devoted to high frequency research under the direction of Dr. Jensen.

At present he is directing the research in microwave spectroscopy as part of a study of high frequency.

Receiving his B.S., M.S. and Ph. D. in chemistry at the University of Nebraska, Dr. Jensen came to A&M in 1925.

A&M is one of 25 schools offering a major in Landscape Architecture.

**J. Paul Sheedy\* Was An Ugly Duckling Till Wildroot Cream-Oil Gave Him Confidence**

"Sheedy, you're quacking up", snorted his girl friend. "Your appearance is fowl. Why don't you wise up to Wildroot Cream-Oil?" So J. Paul marshed right down to the store and pecked up a bottle. Now he's the sharpest duck in school because his hair looks handsome and healthy... neat but never greasy. When last seen he was sipping a chocolate moulted with the prettiest chick on campus (... and she caught the bill!) So if the gals are giving you the bird, better get some Wildroot Cream-Oil... either a bottle or handy tube. Guaranteed to drive most swimmin' wild!
