

Press Association Adopts 16 Bills

AUSTIN, (AP) — The legislative committee of the Texas Press Assn. has adopted 16 "good government" bills designed to prevent recurrences of state scandals such as the veterans land debacle of 1955.

The proposed legislation will be submitted to the 55th Legislature. The committee yesterday voted to adopt the measure as legislative "musts" and to seek the active backing of publishers and editors in working for final passage.

One bill would make it unlawful for governmental bodies to hold closed meetings and would provide for the removal from office of public officials violating the acts. It also would provide a \$1,000 fine.

In the insurance field, the committee recommended legislation empowering the Insurance Commission to require companies doing business in Texas to make and publish a statement of financial condition at least twice a year.

Another would make it a felony for any insurance officer to file a false statement.

Another proposal, an outgrowth of the Duval County situation, would make it unlawful to take any public record "... with intent to destroy, suppress, alter, or conceal..."

Most of the legislation was framed by members of the attorney general's office.

Ag Seniors Attend Teacher Festival

Gordon R. deMarrais, industrial education senior from College Station, and Raymond Dolezal, agricultural education senior from Bruceville, attended the "Teacher of Tomorrow" Festival at the East Texas State Teachers College in Commerce Friday.

The two Aggies were candidates for the title of "Mr. Teacher of Tomorrow" in a contest that saw a "Mr. and Miss Teacher of Tomorrow" selected from students representing colleges in Texas, Louisiana, Arkansas, Oklahoma, and New Mexico. deMarrais was a finalist in the event.

Attending the proceedings as observers were Jerry Coleman, Gene McMichael, Richard Talley, and Dale West, Physical Education majors. The group was accompanied by J. L. Boone of the Industrial Education Department.

Job Interviews

The following job interviews will be held in the Placement Office this week.

Wednesday

North American Aviation, Inc.—will interview mechanical, civil, electrical, aeronautical engineers and physics majors for positions in their Design, Development, Analysis, and testing of aircraft structures, power plants and other Divisions within their organization. Also interview mechanical, civil, aeronautical and electrical engineering majors for summer employment.

Federal Telecommunication Laboratories—will interview electrical engineering and physics majors.

Tidewater Oil Co.—will interview majors in petroleum and mechanical engineering who are interested in working with their company.

Thursday

Chemstrand Corp.—will interview chemistry, mechanical and

electrical engineering majors for positions in research and development departments: These positions are located in their plants in Decatur, Ala. and Pensacola, Fla.

Minneapolis-Honeywell Regulator Co.—will interview aeronautical, electrical, industrial and mechanical engineering and physics majors for positions in their organization.

Halliburton Oil Well Cementing Co.—will interview majors in mechanical, electrical, petroleum engineering, chemistry, physics, geology and mathematics majors for positions in their Duncan Okla. office.

Libbey, Owens, Ford Glass Co.—will interview majors in electrical, mechanical, industrial engineering, physics, architecture, civil engineering, chemistry for positions within their company.

Airborne Instruments Laboratory, Inc.—will interview for electrical engineering and physics majors.

Humble Oil & Refining Company—Sales—will interview majors in business administration, marketing and economics for positions in their marketing and marketing research divisions.

Friday

Wright Air Development Center—will interview majors in aeronautical, mechanical, electrical, civil engineering, mathematics and physics majors.

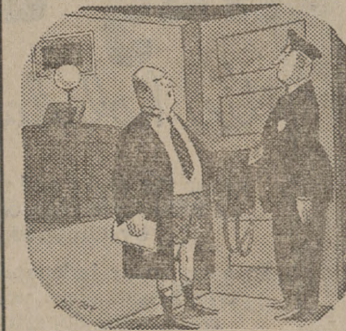

US Department of the Navy-Bureau of Ordnance—will interview majors in mechanical, electrical, aeronautical engineering, physics, chemistry and mathematics majors for career opportunities for civilian scientists and engineers.

Independent Exploration Co.—will interview for geology, mathematics and physics majors for positions as Geophysical Trainees.

Monday

Glenn L. Martin Co.—Denver, Colo.—will interview majors in aeronautical, electrical, civil engineering, mathematics, physics majors for positions in their company.

The Cushing Memorial Library is one of the largest air-conditioned library buildings among Texas State-supported colleges and universities.

CAMPUS CLEANERS

Party Planned

The third annual Christmas party for Lincoln Elementary School students will be presented by Squadron 6 to the Lincoln first and second grades, tonight at 8 in the school gymnasium, according to Floyd Thompson, party director.

James Gaffney, commander of Sqd. 6 during the 1954-55 term had the original idea. The party was given to the second and third grades last year, with approximately 60 children and their parents attending.

Nuclear Physicist

Dr. T. A. Welton, Nuclear Physicist of the Oak Ridge National Laboratory, Oak Ridge, Tennessee, will give a lecture on High Energy Cyclotrons, tomorrow at 7:30 p. m. in the new Physics lecture room.

Dr. Welton, a graduate of Massachusetts Institute of Technology, has been working on the design of a special high energy nuclear particle accelerator which may be constructed at Oak Ridge for use by all southern universities.
