

## Consolidated Wins Trophy

For the third year in a row, A & M Consolidated High School has been awarded the District 23 AA sportsmanship trophy, according to J. J. Skrivanek, principal.

"We are extremely proud of the football team, the student body and the patrons," Skrivanek said when he announced the award.

The trophy, donated by the Navasota Lions Club, is awarded annually to the school in the district which displays the best sportsmanship during the football season. The winner is chosen by players and cheer leaders of each school in the district with no one voting for the school he attends.

"Since we have won it three years in a row, we expect to be allowed to keep it," said Skrivanek. "We are almost as proud as we would have been to win the championship."

## Raymond Dolezel FFA President

Raymond Dolezel of Eddy was elected president of the Collegiate FFA at a meeting in the Agricultural Engineering lecture room last night.

Other officers elected were Tom Davison, vice-president; Jim Bryan, secretary; Gene Voelkel, treasurer; Oscar Carpenter, reporter; Marcus Crow, sentinel; Ford Purser, student advisor; Don Mitcham, parliamentarian; Marvin Kolinek, second vice-president, and Charles Newcomer, third vice-president.

## Rebellious Hungarians Invoke General Strike

BUDAPEST. — (P) — Rebellious Hungarians invoked a general strike yesterday and some fought on with arms against Premier Janor Kadar's Russian-imposed government. The strike, to last 48 hours, tied up nearly all Hungary's industry and commerce.

Informed Hungarian sources

said Russian troops encircled a band of freedom fighters holding out in the hills at Harmashatary, about 20 miles northwest of Budapest, and sought to wipe them out with medium artillery and heavy machine guns.

The rebels were last reported fighting to avoid extinction. Communications from Budapest to that area were cut and the informants said the fate of the band was undetermined.

Several clashes between Hungarian crowds and the government forces—Hungarian police and Russian troops—marked the strike.

Though martial law has been proclaimed and some labor leaders arrested, men stayed away from their jobs by the hundreds of thousands to protest the dictatorial attitude of Kadar's regime.

Budapest was hard hit and some sources said the strike was nearly 100 per cent effective in the provinces.

Big factories of Budapest were closed and the city's transport systems halted. Only its power plants and food factories were working.

## Students Lead Discussions

Four students of A&M Consolidated High School will lead discussions at the annual Junior Academy of Science meeting to be held at Howard Payne College in Brownwood Friday and Saturday in connection with the meeting of the Texas Academy of Science. Christy Kent, junior, will present a paper on "Meteors and Their Observation" and sophomore Bill Jones on "A Model of the Solar Neighborhood."

Seniors going are Mike Luther, speaking on "Auto-electronic Keying on Radio-telegraph Work" and Ernest Tanzer with "Rare Herpetofauna of Brazos County."

## EAT, DRINK, AND BE MARRIED

On a recent tour of seven million American colleges, I was struck by two outstanding facts: first, the great number of students who smoke Philip Morris; and second, the great number of students who are married.

The first phenomenon—the vast multitude of Philip Morris smokers—comes as no surprise, for what could be more intelligent than to smoke Philip Morris? After all, pleasure is what you smoke for, and pleasure is what Philip Morris delivers. Try one. Light up and see for yourself... Or, if you like, don't light up. Just take a Philip Morris, unlighted, and puff a couple of times. Get that wonderful flavor? You bet you do! Even without lighting you can taste Philip Morris's fine natural tobacco. Also, you can make your package of Philip Morris last practically forever.

No, I say, it was not the great number of Philip Morris smokers that astounded me; it was the great number of married students. Latest statistics show that at some coeducational colleges, the proportion of married undergraduates runs as high as twenty per cent! And, what is even more startling, fully one-quarter of these marriages have been blessed with issue!

Now, to the young campus couple who are parents for the first time, the baby is likely to be a source of considerable worry. Therefore, let me devote today's column to a few helpful hints on the care of babies.

First of all, we will take up the matter of diet. In the past, babies were raised largely on table scraps. This, however, was outlawed by the Smoot-Hawley Act, and today babies are fed a scientific formula consisting of dextrose, maltose, distilled water, evaporated milk, and a twist of lemon peel.

After eating, the baby tends to grow sleepy. A lullaby is very useful to help it fall asleep. In case you don't know any lullabies, make one up. For example:

Go to sleep, my little infant,  
Goo-goo moo-moo poo-poo binfant.

A baby sleeps best on its stomach, so place it that way in its crib. Then to make sure it will not turn itself over during the night, lay a soft but fairly heavy object on its back—another baby, for instance.

So, as you see, raising a baby is no great problem. All you need is a little patience and a lot of love. Also diapers, rompers, soakers, crib, mattress, sheets, bumpers, blankets, high chair, diapers, talcum, baby oil, fish liver oil, paregoric, diapers, safety pins, cotton, cotton covered toothpicks, bottles, diapers, nipples, diapers, bottle brushes, booties, diapers, nighties, wrappers, diapers, rattles, teething rings, pacifiers, diapers, and unlimited funds.
