A Campus-to-Career Case History

Frank R. Hoffman, B.S. in Liberal Arts, Hampden-Sydney College, '53

Meet an Assistant Manager—Hampden-Sydney, '53

Frank Hoffman is Assistant Manager of the telephone office at Newport News, Va. Frank's office has about 25,000 accounts, and handles \$360,000 worth of business a month.

He joined the telephone company in 1953, only three years ago.

"My wife worked there first," says Frank, "while I was still in college. What she told me, along with what I learned from friends in the business, pretty well sold me on the telephone company as a place to find a career. And the interview clinched it. The job opportunities were too good to refuse."

"I began in the Commercial Department, which takes care of business contacts with customers. The training was

continuous and excellent. One of the most rewarding jobs I had was working on revenue studies involving estimates of population and telephone growth. This experience is really useful in my present position as Assistant Manager.

"I supervise the personnel who handle customer contacts. And I assist in the handling of our public relations work in the community. In the Manager's absence, I take over."

"It's a great job, full of opportunities and satisfaction. I like working with people, and I like to see my work contributing to the betterment of the community and the company. Choosing a career in the telephone business was the best move I've ever made."

Frank Hoffman chose a career with The Chesapeake & Potomac Telephone Company of Virginia. Interesting career opportunities exist in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about them.
