**The Battalion**  
The Editorial Policy of The Battalion  
Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A.&M. College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Laverty, Chairman; Prof. Donald D. Burchard, Prof. Tom Leland and Mr. Bennie Zinn. Student members are John W. Gossett, Murray Milner, Jr., and Leighus H. Sheppard, Jr. Ex-officio members are Mr. Charles Roeder, and Ross Strader, Secretary. The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. The Battalion is not published on the Wednesday immediately preceding Easter or Thanksgiving. Subscription rates are \$3.50 per semester, \$6.00 per school year, \$6.50 per full year, or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.

but across the country, Delaplaine said. He cited Washington University in St. Louis where they have used closed circuit television "very effectively" in teaching basic mathematics courses.

Another question which brought Delaplaine to the floor was his explanation of the current ruling requiring all juniors in the School of Arts and Sciences to pass an English proficiency exam prior to graduation.

Assuring Council members this exam is not designed to fill English classrooms, but rather to remedy "embarrassing situations which might occur after graduation" Delaplaine told of several students who "had gone through college without being able to write a complete sentence."

"Emphasis will be placed on correct spelling and the ability to express oneself in clear writing on the exam," he said.

The exam will be given to juniors each spring effective this year.

A report was presented to the Council by Bennet Ragsdale, chairman of the Campus Improvements Committee, and the recommendations were passed by the council members.

Items on the committee's report included: building a sidewalk between the cotton-seed laboratory and the ice plant; more benches for the Corps area; placing telephones in all dormitories; posting a list of professors and the sections and courses they will teach on department bulletin boards prior to registration; appoint a faculty advisor for each student; schedule a course for credit in typing; construction of a new building for the School of Arts and Sciences and others.

Ragsdale and his committee, composed of Jim Byrd, John Aldridge, Robert Mitchell, Robert Purrington and John Garret will present the report before the executive committee of the School of Arts and Sciences at their next meeting.

**Nudged Out**  
FORT SMITH, Ark. (AP) — The "nudging system" of making money may be old hat to police, but it was a new gimmick to W. H. Bruce of Fort Smith. Bruce laid \$400 in cash on the table while he counted silver and made out a deposit slip in a Fort Smith bank. Someone nudged him and he moved over, continuing to count the silver. Then he filled out a deposit slip and turned to find his \$400 and the nudger gone. Police said the nudger is a cousin of the pickpocket.

**PLANT TEAM LETTERS**

(Continued from page 1)

For the second time in two years, the A&M team took first place. If they repeat next year, they will become permanent winner of the trophy, according to Don Huss, team sponsor and instructor in the Range and Forestry Department.

After spending over 150 hours preparing for the contest, the team and coach flew to Great Falls, Mont., to enter the contest. The teams were judged on their knowledge of the major grasses, bushes, weeds and poisonous plants in the 17 western states. They had to identify these plants by their scientific names and had to know all aspects and facts about the plants.

John A. Buck, fourth member of the team scored eighth with 183 points. Landers competed in the contest last year also.

**PROBLEM:** To evaluate the all-round career advantages offered by the widely diversified activities at Divisions of North American Aviation, Inc.

**FIRST STEP:** GET THE FACTS in man-to-man interviews, on campus FEBRUARY 11 & 12

As a graduate in Engineering, Physics, Applied Math, or allied subjects you need complete, factual information to help you make a sound decision in choosing your career. Get the facts in a man-to-man interview with our representative. Let him tell you about our unique placement and training devised to help your potential develop rapidly in a company where continued expansion has doubled the number of employees in 5 years. Your possibilities are wide and varied, as you will see from these brief notes on the 4 Divisions:

**ATOMICS INTERNATIONAL** creates automatic controls and electro-mechanical systems of a highly interesting nature. Work includes research, design, development, manufacture and testing; you will become a part of the latest advances in inertial navigation and guidance, fire and flight controls, analog and digital computers.

**ROCKETDYNE** is building power for outer space—large, liquid propellant rocket engines. The Field Test Laboratory in the Santa Susana Mountains is the most complete rocket engine workshop in the free world. Here a man meets more aspects of his specialty in one week than in a year of "conventional" practice.

**ATOMICS INTERNATIONAL** is pioneering in the creative use of the atom. If you are able to meet the high requirements for this work, you can help introduce a new industrial era. Atomics International is designing and building varied types of nuclear reactors, for both power and research, with the practical experience gained by 10 years in the field.

**MISSILE DEVELOPMENT ENGINEERING** Long range missiles, including the intercontinental SM-64 Navaho, present problems of the most fascinating nature. Speeds, materials and functions now being dealt with were only theoretical a few years ago. The work is vital; the opportunities for you, as a creative engineer, are correspondingly great.

**CONTACT YOUR PLACEMENT OFFICE TODAY** Make an appointment NOW to see North American Representative on campus. OR WRITE: Mr. J. Kimbark, College Relations Representative, Dept. 991-20, North American Aviation, Inc., Downey, Calif.

**POGO**  
By Walt Kelly

YO' LIL DAUGHTER GIRL SLUMMED THE BUGGY BONNET DOWN ON TURTLE'S HEAD-BONE.

HE POKED IT INSIDE... ALL ON HIS OWN... UN-ASKED

BUT, MIZ GROWNCHUCK, CAN'T YOU FREE-VAIL ON THE CHILD TO UNLEASH THE CRITTUR?

BUT SHE ALREADY SNUPPED BACK INSIDE AFTER MAKIN' A GROWN HOG DAY APPEAR-ANCE... TO COME BACK NOW WOULD BREAK THE GROWN HOG CREED.

YOU MEAN HE AIN'T GONE BE LET LOOSE 'TIL AFTER SIX MORE WEEKS OF WINTER?

OH, IT DON'T PAY TO INTERFERE WITH NATURE LAW FREN' OWL.

**POGO**  
By Walt Kelly

WHEREAS I DON'T WANT TO DISRUPT NATURAL LAW IT DO SEEM A SHAME OL' TURTLE GOTTA WASTE HIS TIME LIKE THIS.

I BEEN SETTIN' HERE A GIVIN' THAT A POW'FUL BUNCH OF THOUGHT.

SEEM LIKE OL' CHURCHY IS A SORTA CAPTIVE BABY-SITTER... AN' AS HIS MANAGER, I CAN MAKE A GOOD DEAL WITH YOU WHAT'LL GIVE YOU A CONSTANT BABY WATCHER, CHEAP?

WELL, YES... BUT CHURCHY IS ALSO BEIN' WATCHED BY MY BABY CHILD AND, AS HE NEEDS WATCHIN' MORE AER, IT SEEM 'LIKE YOU'D OWE ME MORE'N I OWE YOU AFTER SIX WEEKS IS UP...
