

William T. Williams Joins Student Publications Board

William T. (Bill) Williams, newest member and graduate representative of the Student Publications Board, is an enterprising veteran working on his doctor's degree in biochemistry and nutrition.

After serving a three year hitch in the Air Force he returned to

A&M in July 1956. Previously he had been awarded his master's degree from A&M in 1951. Williams received his Bachelor of Science degree from Southwest Texas State College in 1947.

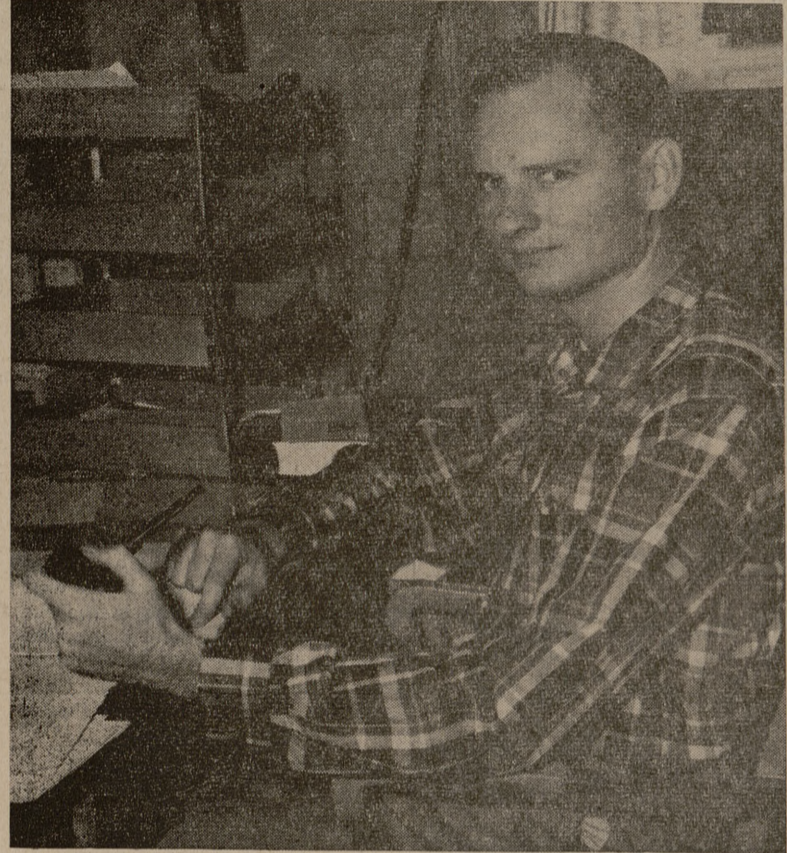

In 1943 a three year hitch in the Air Force interrupted his education. During his first tour of duty

he served in Italy. After returning to civilian life in 1946 he obtained his B.S. degree. When he first came to A&M as a graduate student he was an instructor in the Chemistry Department.

Williams did research with the Oceanography Department up until the time he was recalled to duty with the Air Force. During this tour, he spent a year in Greenland and was discharged last July as a first lieutenant.

When asked about his recent appointment to the publications board, Williams said, "I am going to enjoy membership on the board and I feel graduate students should take a more active part in student activities."

Williams is replacing J. W. Gossett. His appointment is for one year and became effective Feb. 1 following his recommendation by the Graduate School office.

Language Prof Granted Leave Of Absence

Dr. Jack A. Dabbs, of A&M's Modern Language Department, has been granted a year's leave of absence according to J. J. Woolket, head of the department.

He will travel to Baghdad, Iraq to teach English to the Baghdad police force and other government officials, Woolket said.

Dabbs was asked to take the job by the U. S. Information Agency, division of the State Department. He will start his new job around mid-February. He is in Washington for briefing at the present time.

Dabbs is a major in the U. S. Army Reserve and had spent some time in Baghdad during World War II. He has written a number of articles for learned journals, principally "Names". He has collaborated with Dr. Castaneda of the University of Texas in writing several bibliographical works dealing with the history of the Spanish in the New World.

Mrs. Dabbs and daughter, Danielle, plan to join him in June after a tour of Sweden, Germany, France, and Italy during the summer.

Winter Tan
MILWAUKEE (AP)—Police, summoned in 12 degree weather, rushed Robert Fehl, 36, to the hospital for treatment of sunburn. Hospital attendants said he suffered an inflammation of the eyes and superficial burns on his chest and back. Fehl explained that he had been reading under a sunlamp and became so engrossed he lost track of time.

What's Cooking

Texas State Optical Opens In Bryan

Texas State Optical has opened a new optometric clinic, its 48th in Texas, in the Varisco Building, room 501, Bryan.

The new clinic will provide complete optometric service including scientific eye examination by registered Doctors of Optometry and individually prescribed glasses from a selection of frames and styles.

The examination room is equipped with the latest of scientific instruments and is staffed by registered Doctors of Optometry, opticians and frame stylists. Heading the optometric staff will be Dr. Carrol Smith, a graduate of Northern Illinois College of Optometry who has been in practice in Conroe since World War II.

Brazoria County Club meets in 308, Academic Building.

Mart - Groesbeck - Mexia Club meets in 126, Academic Building.

Wheeler-Collingsworth Club will discuss High School Day and hold election in 102, YMCA.

City To Put Clamps On Untagged Dogs

All dogs found without licenses after Feb. 13 will be impounded, according to Ran Boswell, City Manager of College Station.

In order to get a license a vaccine certificate showing that the dog has been vaccinated this year is needed.

About 100 licenses have been bought so far this year compared with 155 last year at this time.

February Is Heart Month

A recently televised program dramatized the replacement of a damaged heart valve with a plastic counterpart—a modern medical miracle.

However, during February, National Heart Month, Americans will be made aware, through one way or another, that during 1955 over 32,000 Texans died from heart

diseases. Figures for 1956, not yet complete, indicate a rise in this figure. Yet unknown to medical researchers are the exact causes of conditions which produce the high death rate from heart disease.

Texans have been urged to check regularly with a physician, follow his advice and take advantage of the mobile chest x-ray unit.

STUCK FOR MONEY? DO A

Stickler!

SEND IT IN AND

MAKE \$25

WHAT DOES A KNIGHT USE TO BRING HOME THE BACON?
Dragon Wagon
LINDA CUMMINGS,
U. OF ALABAMA

WHAT ARE WISE MEN'S EARNINGS?
Sages' Wages
NANCY SMITH,
U. OF CHICAGO

DO YOU like to shirk work? Here's some easy money—start Stickling! We'll pay \$25 for every Stickler we print—and for hundreds that never get used. Sticklers are simple riddles with two-word rhyming answers. Both words have the same number of syllables. (Don't do drawings.) Send your Sticklers with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y. And remember—you're bound to Stickle better when you're enjoying a Lucky, because Luckies taste better. Luckies' mild, good-tasting tobacco is TOASTED to taste even better. Fact is, you'll say Luckies are the best-tasting cigarette you ever smoked!
