

Aggie Baseballers Begin Workouts Next Friday

A&M's baseball team, Southwest Conference champions in 1955, start practice Friday, Feb. 15. Coach Beau Bell's Aggies will return 12 lettermen to the diamond, including four pitchers. Bryan's Dick Munday, recently elected captain for 1957, and Toby Newton, southpaw from Galveston will be the mainstays of the hurling corps. Munday won four and lost five in 1956, while Newton captured three and lost four. Paul Lang (2-2) and Doug (Moon) Mullins (1-1) are returning lettermen on the mound. Coach Bell asks that all men who are scholastically eligible and have not played before to see him before next Friday in his office.

A&M'S HENRY GOFF

A&M Splashers Meet Rice Here Tomorrow

By JIM CARELL

With a nine-meet win streak at an end, the Texas Aggie swimmers seek to start anew at the expense of the Rice Owls in a dual swimming meet scheduled for 3:30 p.m. tomorrow in P. L. Downs Natatorium.

Freshman teams from the two schools clash in a preliminary meet scheduled for 2:30 p.m.

The Florida State University Seminoles, gaining revenge for last year's 49½ to 34½ upset at the hands of the Aggies, crushed the A&M tankers Wednesday by a 52 to 35 margin. Rice lost to the Seminoles in a dual meet in Houston Monday.

Last year the Aggies trounced the Owls in their home pool 52 to 21 and are expected to repeat that

victory Saturday but in not quite so convincing a fashion.

The return of Tetsuo Okamoto at mid-term was keynoted by his performance against Florida State as he raced to easy victories in the 220 and 440-yard freestyle events. Other first place finishers for the Aggies were Jerry Mount in

the 200-yard butterfly and Dick Hunkler in the 100-yard freestyle.

Along with these winners the probable starters for the Aggies are: Bob Barlow, Roger Burton, Henry Goff, Charles Cook, Wally Penberthy, Norman Ufer, Rippy Woodard, and divers Walter Godfrey, Johnny Lyon and Bob Bruce.

In Fort Worth Tuesday

Four Ag Boxers In State Tourney

Jabbing, hooking Henry Jurado carved his way to the open welterweight championship in Waco's Golden Gloves Meet Tuesday night and will join a four-man Aggie team to the state tournament in Fort Worth next week.

After a slow first round Jurado came on strong to wrap up the decision and title. He used his left hook in the first but was repeatedly hit by combinations and a right uppercut that left a small mouse under his left eye.

Jurado moved out fast in the second and used a left-right combination to down his James Connelly Air Base opponent. His foe was up at eight and Jurado downed him again with a clean right cross to the jaw.

In the final round of the three rounder, Jurado won going away as he dropped his opponent again with a right to the head after cornering him against the ropes.

Heavyweight favorite Jack Fowler won on a default when his opponent was unable to appear due to an injured hand.

Waco tournament officials invited 108 pound Robert (Hook) Canales to represent them in the state meet after the Aggie won the novice fly-weight crown without ever breaking a sweat.

Canales boxed through the rapid

first round using hooks and combinations that sent his opponent slipping to the canvas midway through the initial frame. The Aggie flyweight will carry a long record of novice and high school bouts in to the state tournament.

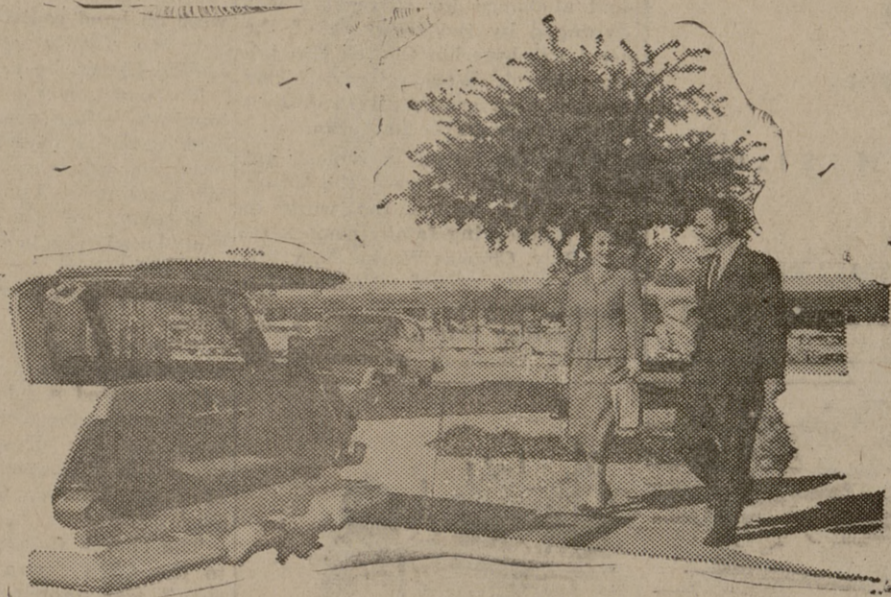

Lightweight Robert Colunga, who spent his time seconding Aggie boxers in the Houston and Waco meets was asked to represent Waco at Fort Worth. Colunga is an able boxer in his own right.

He has made three previous trips to the state meet after capturing bantam and featherweight titles at Harlingen.

Novice middleweight Ken Curry showed gameness but a lack of experience as he was TKO'ed 34 seconds deep in the third round. He was downed in the first by a stiff left hook but gamely rose to his feet at the count of eight.

He was rocked time and time again early in the second but came pressing back with a two-handed attack that made his opponent hang-on. A rapid-fire one-two punch left the Aggie defenseless on the ropes at the halt of the fight.

Novice featherweight Felix Ramirez never opened up as he was decisioned in the 126 pound finals. He was down in the second, more from a slip than a punch, but he never made up the deficit.

Follow the lead of Ralph Posch, B.M.E., Class of '51

Advance while you're young... as a Chance Vought Engineer

As a lead engineer in Vought's Propulsion Group, Ralph supervises development of power, fuel, starting and cooling systems for supersonic fighters and missiles.

Ralph consults on engine accessibility problems in fighters like this 1,000-plus-mph Crusader.

Pilot comments on aircraft performance prove, especially interesting to power plant specialists like Ralph.

Ralph Posch already is making his mark in the aviation world. Ralph's only 31, but he's advanced to lead engineer in a career field he's liked from the start. Ralph's progress was speeded by Chance Vought's own growth and by keen company interest in his development. These same career aids are working today for every young engineer who's entered missile and fighter development at Vought. Symposiums on creative engineering, for example, encourage the brand of technical free thinking Ralph has displayed. Company-paid tuition for postgraduate study allows any recent graduate to take immediate steps toward advanced degrees. For an increasing number of junior engineers, Vought offers a nine-month program of job rotation which prepares young men like Ralph for key responsibilities. And in every unit of Vought's engineering sections the young professional is given variety that's both refreshing and broadening. Let our campus representative explain how Chance Vought will do its utmost to help you find and advance in the field that best suits you. Ask your placement office to arrange your appointment, or write directly for immediate information to: Mr. C. A. Besio, Supervisor, Engineering Personnel Section CHANCE VOUGHT AIRCRAFT, Incorporated, Dallas, Texas

Our representative will be in your Placement Office Monday and Tuesday, February 25 and 26, to describe firsthand Chance Vought's program for young engineers. Reserve time for your own interview by making your appointment today.
