

Four Faculty Men Attend Ag Meeting

Four A&M faculty members attended the East Texas Agricultural Conferences in Nacogdoches Wednesday and Thursday to participate in discussions. East Texas Chamber of Commerce sponsored the meeting.

Those attending were Dr. R. E. Leighton of the Dairy Science Department, Dr. T. R. Timm, John McNeely, Vance Edmundson and

Dr. Bardin Nelson of the Departments of Agricultural Economics and Rural Sociology.

Dr. Timm talked to a general assembly on "Where Does East Texas Agriculture Stand Today?" Dr. Nelson addressed the group on "Attitudes of Rural Youth Toward Farming and Other Occupational Opportunities in East Texas."

Reports of the conference ask legislation to remedy several problems facing milk producers.

The dairy workshop recommended a uniform milk inspection law for the state, instead of leaving it up to cities' individual whims, as is presently done. Also recommended is a system allowing quick appeal for the dairy man who feels he is unfairly treated. Inspectors practically have dictatorial power under existing law. The workshop asked for a state labeling law to let a housewife know what per cent butterfat she buys in milk.

First 'Star' Will Feature Eighty Pages

First edition of the forthcoming Twin City Star will have 80 pages and probably a four-color front page, said Paschal Price, publisher of the Star, at a dinner at Wehrman's Cafe last night sponsored by the A&M chapter of Sigma Delta Chi, professional journalism fraternity.

Speaking before about 30 members, guests and pledges, Price outlined the policies for the Star.

"There is enough room in Brazos County for the existing news media and ours as well, but if one has to go it won't be us . . . I hope," he said.

Price said that about \$250,000 worth of new equipment has been purchased for the new Bryan publication which is slated to go to press sometime in March. He also said that a large number of the staff had already been chosen.

"Our staff will be well paid, but they will earn it. Any man who doesn't turn out what we expect of him had better start looking elsewhere for a job," the Star publisher said.

Local Architects Hold Centennial

Next week will be Architects' Week in Brazos County and the cities of Bryan and College Station, following a proclamation of County Judge A. S. Ware, College Station Mayor Ernest Langford and Bryan Mayor H. C. Dishman.

The proclamation says, in part: "The profession of architecture is dedicated to the planning and betterment of human environment, and the role of the architect in our modern society is more vital today than at any time in the past."

Student Senate's Retreat Features SWC Delegates

Speakers for the Student Senate's first annual Retreat have been selected from leaders at A&M and other Southwest Conference schools.

The retreat will be held Saturday afternoon in Hensel Park from 1 until 6:30. Talks and discussions will be held until 5:30 when a steak supper will climax the event.

Dean Robert B. Kamm will

speak at 1, followed at 1:30 by Baylor Student Body President Bill Scott. Scott will report on the National Student Association Convention. At 2, Southwest Conference Student Body Presidents will hold a discussion on the subject.

Phil Campbell, civilian counselor at A&M, will speak and at 3:30 the conference will break up into individual groups for discussion. A baseball game at 4:30 will serve to whet appetites for the steak fry at 5:30. At 6:15, Larry Piper, president of the A&M Student Senate will give the closing speech. Members of the conference will then be invited to attend the A&M-Baylor basketball game in White Coliseum.

Texas Tech, newcomer to the SWC plans to send three delegates to the conference. Some of the Religious Emphasis Week speakers are expected to attend the meeting.

The meeting is open to the public. Supper will cost \$1 per person.

Doak Tells UN Club Of World Religions

The United Nations Club will hold its first meeting of the Spring Semester Friday night at 7:30 in the YMCA. The major religions of the world will be discussed in a series of talks by students. Dr. C. C. Doak of the Biology Department is the coordinator for the program.

HERE IS THE THIRD TIE-BREAKER IN OLD GOLD'S

TANGLE SCHOOLS PUZZLES

TIE-BREAKING PUZZLE NO. 3

CLUE: This West Coast state university, chartered in 1868, has campuses at various locations throughout the state. Degrees in oceanography are among those conferred by this institution.

CLUE: Named for its founder, who also founded the Western Union Telegraph Company, this eastern university has many schools, among which is one for hotel administration.

ANSWER 1 _____
ANSWER 2 _____
Name _____
Address _____
City _____ State _____
College _____

Note: Above puzzle requires 2 answers. Hold answers for mailing instructions.

All participants who completed the initial set of twenty-four puzzles correctly are required to solve a series of eight tie-breakers, in order to compete for the prizes in the tie.

Remember—first prize is a tour for two around the world and there are 85 other valuable prizes.

NO OTHER CIGARETTE CAN MATCH THE TASTE OF TODAY'S OLD GOLDS

Regulars—Kings—or Filters, today's Old Golds taste terrific . . . thanks to an exclusive blend of the finest nature-ripened tobaccos . . . so rich . . . so light . . . so golden bright!

National Photo Competition

Students interested in photography are invited to enter the Intercollegiate Photography Competition, sponsored by Kappa Alpha Mu, national photography fraternity, Encyclopedia Britannica and the Association of Colleges and Universities.

First place award will be an all expense paid trip to New York for a week as guest of Life Magazine and a set of Encyclopedia Britannica. The first place winner will be chosen for the best portfolio of pictures. Divisional winners will receive a free set of Encyclopedia Britannica.

Seven divisions are open for entries. The seven divisions are news feature, sports, pictorial portrait, character, picture series of sequence and picture portfolio.

The contest closes April 15. Rules and entry forms may be obtained by contacting W. D. Calvert at the Journalism Department in Building J.

LOCKHEED
Aircraft Corporation
California Division • Georgia Division

Lockheed Representatives of the California Division and the Georgia Division will be on campus

Thurs. & Fri., February 21 & 22

You are invited to consult your placement officer for an appointment.

Separate interviews will be given for each division.

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of commercial and military aircraft. Seventeen different models of planes are in production, including cargo and passenger transports, high Mach performance fighters, jet trainers, radar search planes, patrol bombers.

B. S. graduates who wish to attain a Master's Degree will be interested in the California Division's Masters-Degree Work-Study Program. In the program, participants achieve their M.S. while working concurrently on Lockheed's engineering staff.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. Moreover, a new engineering center is now in development as part of the division's expansion program.

In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program.

This broad expansion program is creating new positions in each division. Graduates in fields of: Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.
