

## Attention Senators

Student Senate President Larry Piper has urged all student senators to attend tonight's Senate meeting.

According to Piper, tonight's meeting will be one of the more important ones of the year.

A new plan for distribution of football tickets among students will be discussed as will a general plan on campus beautification which includes the problem of keeping foot paths off the drill field.

On the topic of football tickets, Joe Ross will tell of how other schools have drawings among the student body for reserve seats. A progress report on the student insurance plan will be given too.

Since the stadium seating during football season has always been a problem, Ross's report may bring some new ideas.

Some Senators will not be able to attend because of the new flight training program which will keep them busy most of the evening.

But the need for attendance definitely exists for all those who can possibly get to the meeting.

It isn't too late in the year for plans to be made and put into execution. Enough time remains for all of the dreams and goals of the Senators to be functioning when classes begin in September.

A weak attendance record is a poor way for the Senate to end the year especially after they have shown so much interest and zeal up until recently.

## HISTORY DOCTOR

(Continued from Page 1)

Kinney, Hill's boyhood hometown. He finished the high school there at an early age and went off to Austin College in Sherman, Tex. Austin College, Presbyterian sponsored, was just getting started as a coed institution after being an all boys school for many years.

"There were only four or five girls there when I was there, and often when they would walk about the campus the boys would whistle. Boys are just about the same now as they were then," he says recalling the "roaring twenties."

Hill was graduated from Austin College with a B. A. degree and took his first job teaching at Marshall Junior College.

"I'd teach a while and then go back to college some more, just like most teachers did," he explains.

Through this in-and-out method, he got A. B. and M. A. degrees from the University of Texas and finally his Ph. D. from the University of California.

He was instructor and associate

professor at the University of Texas and came to A&M in 1946. Here he has been assistant to the Dean of Arts and Sciences and has done a lot of work with students.

Having just about as much humor as his medium-height frame will hold, chuckling, he tells why Aggies beat TU in football last fall:

"Well, I've got a bilingual parakeet. And long about midway of the half this parakeet chirped 'Beat Texas'."

Among his hobbies is writing for scholarly journals, on the subject in which he is an expert, medieval history.

But it would require almost a book to tell of all my hobbies, he says. "That's because I'm a jack-of-all-trades and good at none," he laughingly draws.

"There's one thing you can't claim," jokes Dr. Ralph Steen, head of the History Department. "The Battalion has already said that I'm the best lecturer in the department, so that takes away that possibility."

## What's Cooking

The following clubs and organizations will meet tonight:

5:30  
 El Paso Hometown Club will take picture for AggieLand in front of MSC.

7:15  
 El Paso Hometown Club will meet on the third floor of the Academic Building to discuss party and Easter rides.

Guadalupe Valley Hometown Club will meet in room 308 of the Academic Building to make Easter plans.

San Angelo Hometown Club will meet in room 128 of the Academic Building.

7:30  
 Lubbock-South Plains Hometown Club in room 126 of the Academic Building to have picture made.

San Angelo Hometown Club will meet in the Agriculture Building, room 203, to discuss Cotton Ball.

Panhandle Club will meet in room 395 of the Academic Building to discuss Tessie Party.

West A&M Club will meet in

room 204 of the YMCA.

Red River Hometown Club will meet in room 103 of the Academic Building.

Bell County Hometown Club will meet in room 125 of the Academic Building.

Land of the Lakes Hometown Club will meet in room 3-B of the MSC to discuss Easter party plans.

Winters Hometown Club will meet in room 223 of the Academic Building.

Beaumont Hometown Club will meet in the Brooks Room of the YMCA.

Deep East Texas Hometown Club will meet in room 207 of the Academic Building.

## In A Stew

FOND DULLAC, Wis. (AP)—Truck driver George Post timidly explained to his employer he arrived with stewed tomatoes and fried bananas because a gasoline heater used to keep the produce from freezing in winter flared up and cooked everything.

## The Battalion

The Editorial Policy of The Battalion Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A&M College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Laverty, Chairman; Prof. Donald D. Birchard, Prof. Tom Leland and Mr. Bonnie Zinn. Student members are W. T. Williams, Murray Miner, Jr., and Leighus E. Sheppard, Jr. Ex-officio members are Mr. Charles Roeder, and Ross Strader, Secretary. The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. Subscription rates are \$3.50 per semester, \$8.00 per school year, \$6.50 per full year or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.

**Cabot Shops** interviews mechanical, civil and chemical engineering majors for positions with the company.

**General Electric Company** interviews majors in business administration, accounting, economics, mathematics, and English for positions with the company.

**General Electric Company Employee Relations Department** interviews business administration, economics, industrial engineering, industrial technology, journalism, psychology and sociology majors.

## Book Offers Ideas To Aid Job Seekers

Students and educators looking for summer jobs have a new aid in finding ideas to earn while they vacation.

The Advancement and Placement Institute has published a second 1957 edition of The World-wide Summer Placement Directory.

Greatly expanded in form, the new directory gives descriptions of the type of work available with names and addresses of employers regularly needing additional summer employes.

Included are government positions, dude ranches, travel tour agencies abroad, work camps, service projects, national parks, summer camps and resorts, career trainee opportunities, study awards all over the world and many others. Opportunities are presented from all 48 states and more than 20 foreign countries.

At the request of many students, the institute has added a special new section to the edition for those students wishing to use their summer trainee programs for future career opportunities.

Additional information may be obtained from college deans, placement officials, libraries or by writing to the Institute at Box 99C, Greenpoint Station, Brooklyn 22, N. Y.

## Graham Elected Vet Club Prexy

Charles Graham was elected president of a new student organization Tuesday night, the Pre-Veterinary Society.

Composed of students majoring in preparatory veterinary medicine, the organization will meet on the first and third Tuesdays of each month in the amphitheater of the Veterinary Hospital.

Other officers elected at the initial meeting of the organization included Roland Dommert, secretary-treasurer; Tom K. Hardy, reporter; Delmar Posey, social chairman; Max Barnett, parliamentarian and Jay Tripp, sergeant at arms.

## Clark Says Law of Force Is Hope of a Free World

The one common denominator to lasting peace is force of law, not law of force, Associate Justice Tom Clark of the U.S. Supreme Court, said last night at the Great Issues program.

Speaking to a crowded house in the Memorial Student Center Ballroom he went on to say, "It has been the touchstone of civilization through the ages. It is common language from Runnymede in 1215 to Mechenberg in 1775 and on to Philadelphia in 1787—the clarion call of justice that all peoples—kings or serfs—are under God and law," he declared.

"None of us can escape the consequences of world actions today. The satellite—'vanguard'—our first outer space rocket, will be catapulted next year. At an altitude of 300 miles it will circle the world every 90 minutes. A jet plane carrying a full load of passengers

brought Baltimore into Seattle's neighborhood in just a little over three hours. The airplane has shrunk the earth into a community wherein every spot is within 20 hours of our capital."

A native Texan, Justice Clark was born in Dallas and was graduated from the University of Texas. He served as Attorney General of the United States until 1949 when he was appointed to his present position by President Harry Truman.
