

# Family Favorites

By MARIE FULLER

(A wide variety of civic and social groups claim the time and energies of Mrs. Freeman M. Fuller Jr., a Bryanite for the past three years. She counts among her many activities the Red Cross and polio boards, Girl Scouts, A&M Social Club, Extension Service Club, Newcomers Club, Junior Garden Club of the Bryan Garden Club and the Bryan Woman's Club.

(An English-journalism graduate of Baylor University, Mrs. Fuller formerly held the position of assistant editor with the Agricultural Information Office at A&M. Her husband, Dr. Fuller, is entomologist with the Agricultural Extension Service.)

## ANISE COOKIES

These are my favorite cookies. The recipes for them and for the honey cookies and macaroons are old German recipes from my grandmother, Mrs. E. Marshall of Llano, who is over 90 years old.

- |                        |                         |
|------------------------|-------------------------|
| 1 pound sugar (2 cups) | butter (size of walnut) |
| 1 pound flour (4 cups) | 1 level teaspoon soda   |
| 4 eggs, beaten         | anise seed              |

Add sugar gradually to beaten eggs. Add butter and soda, dissolved in a little water. Then add flour. Turn dough out on board and, using a special rolling pin with indented designs, roll the dough. Cut the cookies.

Dust towel with flour, sprinkle anise seed on this and place cookies on seeds. Leave overnight. Next morning, bake on waxed, buttered or floured baking tin until cookies will "slip" on tin. Cookies will be just barely tinged with brown. They are a rather hard cookie, delicious served with coffee.

## HONEY COOKIES

These are a wonderful cookie, a family favorite. They are crisp when first made, then get chewy after a few days. They can be stored indefinitely.

- |                          |                        |
|--------------------------|------------------------|
| 1 pound honey            | 1 teaspoon cinnamon    |
| 1 pound sugar            | ½ teaspoon cloves      |
| ½ glass rum              | ½ teaspoon nutmeg      |
| 1 tablespoon soda        | grated rind of ½ lemon |
| 1 pound pecans, cut fine | 3 pounds flour         |

Heat honey in large granite pan, add sugar and stir until dissolved. Add soda, dissolved in a little water, remove from heat and add rum, pecans, spices and flour.

Turn onto molding board and work until smooth. Roll, cut into strips 2 inches wide, then into cakes 1 or 2 inches. Place on a floured cloth overnight. Bake next morning on waxed cookie sheets in 350-degree oven until light brown.

## MACAROONS

Mother and Gran both make the lightest, melt-in-your-mouth cookie you can imagine from this recipe.

- |                            |                     |
|----------------------------|---------------------|
| 1 pound sugar              | 1 teaspoon cinnamon |
| 1 pound shredded pecans    | ½ teaspoon cloves   |
| 4 egg whites, beaten stiff | ½ teaspoon nutmeg   |
| rind of ½ lemon, grated    |                     |

Beat egg whites on platter until stiff. Add sugar. Add nuts and spices and place mixture by teaspoonfuls on waxed cookie sheet. Bake until cookies slip when touched with a spatula.

## CHICKEN WIGGLE

Don't know how it got its name, but this is a favorite of Mom Fuller and our family.

- |                      |                          |
|----------------------|--------------------------|
| 1 hen                | 1 can mushrooms or cream |
| 1 pound egg noodles  | of mushroom soup         |
| 2 onions             | Worcestershire sauce     |
| 1 small can pimentos | salt and pepper          |
| and juice            | 2 bell peppers           |
| 1 can English peas   | ½ pound butter or fat    |
|                      | from hen                 |

Cook hen until tender and cut into bite-sized pieces. Cook butter, onions, peppers and pimentos together until tender. Cook noodles in broth until tender. Combine all ingredients and simmer 30 minutes.

## Guest Minister To Give Talks

Eldred Stevens, minister of the Southside Church of Christ in Fort Worth, will preach in a series of evening meetings next week at the A&M Church of Christ. The services will begin at 7:15 p.m. Monday through Friday.

This will be Stevens' second visit to College Station in the capacity of evangelist. He preached for a meeting at the A&M Church of Christ in April of last year.

A native Texan born in 1921, Stevens has been preaching since he was 19. He attended Freed-Hardeman College and the University of Houston, where he graduated with a B. S. degree in 1943.

In 1945 he completed work on his M.S. degree from Oklahoma A&M. While in Oklahoma, where he preached for the Church of Christ in Stillwater, he engaged the Rev. Eric Beevers, a Catholic priest, in formal debate on the subject, "The New Testament and Roman Catholicism." He later authored a book under that title.

## Weeks Signs Proclamation

### Week In April Set Aside To Honor Secretaries

Secretary of Commerce Sinclair Weeks has proclaimed April 21-27 National Secretaries Week, with April 24 designated as National Secretaries Day.

Purpose of the week, according to its sponsors—the National Secretaries Association and the Office Equipment Manufacturers Institute, is to honor the secretarial profession for its contributions to the business world.

It will also be the occasion for calling the student's attention to career potentials in the field, for acquainting the working secretary with educational programs available to her, and for informing management of the efforts being made to increase secretarial proficiency.

Theme of the week is "Better Secretaries Mean Better Business."

Leading the NSA's activities for the week will be Career Day talks. Members in chapters throughout the country will be available to talk to secretarial students on skills required of today's secretaries. They will also invite students to spend a day at their offices to observe the modern business world.

Secretarial workshops scheduled for the week will be open to all secretaries and businessmen in the areas where they are held.

Established in 1942 to promote

## Social Whirl

Aggie Wives Bridge Club will have its regular weekly meeting at 7:30 tonight in the Memorial Student Center. Hostesses will be Dorothy Mills, Jeannie Crist, Wanda Delaney, Betty Gibson, Teri Dress and Fern Hamman.

In the regular group last week, Jean Price and Mary Lauer were first and second prize winners. Low score prize was won by Joan Teiken. Sandie Hubble, Anne Blacklock and Doris McDaniel were first, second and third prize winners in the intermediate group.

Chuck Moore of Kraft Furniture will speak on "How to Buy Furniture" at Monday night's meeting of the Mechanical Engineering Wives Club, at 7:30 p.m. in room 102 of the YMCA. Hostesses will be Ann Meitzen and Ruth Baker.

Electrical Engineering Wives will meet at 8 p.m. Monday in

## "What's it like to be in BUSINESS ADMINISTRATION AT IBM?"

Two years ago, Robert Everett asked himself this question. Today, as Administrative Assistant to the Divisional Controller, Bob reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your business career.

Filtering out the "hot" projects

Promoted the same year  
By December of the same year, Bob was promoted to his present job—Administrative Assistant to the Controller of the Data Processing Division. "The first function of an Administrative Assistant," says Bob, "is to filter out the 'hot' projects from those that can be handled later. You follow through on projects assigned by the controller and keep

Keeping the boss posted

him posted on their progress." Bob's new position affords a pleasant diversification of work: charting divisional responsibilities of the controller's function . . . plans for decentralization . . . costs of regionalization . . . summarizing key financial and statistical information for presentation to top management.

Bob points out that there are many areas in Business Administration at IBM for men with an M.B.A. or a B.S. in accounting: corporate, general, and factory accounting; internal audit; methods; payroll and taxes. Administrative and management positions constantly open up at World Headquarters, IBM's 188 branch offices, many plants and laboratories.

**Why Bob picked IBM**  
Bob made a careful study of existing opportunities before selecting IBM for his career. He had a dozen campus interviews; took nine company tours. IBM's M.B.A. program interested him—because, as he says, "It gave me a chance to review the entire company before starting an actual line assignment." He was intrigued by the increasing use of data processing equipment in finance and he knew that IBM was a leader in this field. Salary-wise, he found IBM better than many, but it was company growth potential that motivated his choice. "Opportunity certainly exists

"Opportunity certainly exists at IBM"

at IBM," he says. "Growth factors alone will account for many new executive positions. A second factor is the trend toward decentralization, which also creates new jobs. These factors, plus IBM's 'promote-from-within' policy, add up to real opportunity."

IBM hopes that this message will help to give you some idea of what it's like to be in Business Administration at IBM. There are equal opportunities for E.E.'s, M.E.'s, physicists, mathematicians and Liberal Arts majors in IBM's many divisions—Research, Product Development, Manufacturing, Engineering, Sales and Sales Assistance. Why not drop in and discuss IBM with your Placement Director? He can supply our latest brochure and tell you when IBM will next interview on your campus. Meanwhile, our Manager of College Relations, Mr. P. H. Bradley, will be happy to answer your questions. Write him at IBM, Room 10001, 590 Madison Ave., New York 22, N. Y.
