

Letters to the Editor

Editor,
The Battalion:
This letter is concerning the seating for Seniors and Juniors at home football games.

We do not think that there should be reserve seats for every Senior and Junior at home games for the following reasons:

1. There are not (we don't think) enough seats for every Senior and Junior and their dates to have separate seats.

2. Since Aggies do not sit down at football games—what good will reserve seats do—eliminate someone from seeing the game who was unfortunate enough not to get a reserve seat ticket?

3. A question—Will our Student Activity Cards allow us to get our reserve seat tickets without extra charge?

We would like to hear more explanation on this controversial subject. Also, why not put it to a vote of the student body instead of the Student Senate?

Editor,
The Battalion

Well, they've done it again! Our "wonderful" Student Senate has solved the parking situation. Of

course, as usual, it's going to cost the students more money. Two dollars and fifty cents, to be exact. The price of living is going up, eh fellas! But, I'm sure, the administration and faculty members will be glad to share this new expense since they do have the "cream" of all parking facilities on this campus.

This main trouble with "their" solution is, the traffic ticket fund is supposed to be used for this purpose. In the past 18 months there has been well over \$11,000 collected in this fund. The only "student" parking improvement in this time, is the lot behind Guion Hall, which was built just prior to last year's football season and it sure came in handy for the football fans, that is.

At present there is \$8,838.84 in this fund. I don't know what they are saving it for. Of course we really don't need it, do we? I probably shouldn't have mentioned this money in the fund, because if it were important I am sure one of our "alert" student senators would have publicized it to the students.

Well, we can still be thankful for one thing, Aggies. We don't have to pay to use the toilets "yet".
C. A. Rutledge, '57

What's Cooking

The following clubs and organizations will meet tonight:

5:45
Abilene Hometown Club meets on the steps of the Memorial Student Center to have their picture made.

7:20
AICHE meets in room 104 of the Petroleum Engineering Building. A speaker will be present. Committee reports will be heard.

7:30
Port Arthur Hometown Club meets in the main lobby of the MSC to have its AggieLand picture made. Class 'A' uniforms will be worn without boots.

Police Supervisors Open Conference

A training conference for supervisory officers of municipal police department is being held on the campus this week. The conference is under the direction of the Engineering Extension Service.

"The Uses of Slide Projectors in Police Training," "Developing a Police Library and "The Preparation of Instructional Material," are being discussed at the conference. The purpose of the conference is to help police training programs, according to Wallace D. Beasley, police training coordinator of the EES.

House Resolution Lauds Aggie Muster

AUSTIN, April 9 (AP)—Texas A&M College's annual Muster Day was lauded today by the House in a resolution unanimously approved. A&M college has held muster day every April 21, since 1903, commemorating the battle of San Jacinto April 21, 1836.

Browsing Thru Shaffer's

Have you ever wanted to paint or draw? We've just added a new line of fine art books—over 80 titles—including How to Draw Pin-up-Girls, Cartoons, Flowers, Landscapes, Anatomy and Animals. 1.00 each.

Wish your grades were better? (Parents, how about your children's grades?) Faster, neater homework can pull them up. We recommend a sturdy Royal Portable Typewriter and a really GOOD desk lamp. We've got 'em both. Right now we are offering 20.00 off list price on the typewriters, this will serve as a down payment to qualified persons.

Did you know there is a fountain pen made specifically for drawing inks? It is wonderful for lettering and comes in four line widths. FACT: Our price is lower on this Rapidograph Technical Fountain Pen—check us and see!

GUESS WHO—Believe it or not, the above caricature is that of MSC Director Wayne Stark as seen through the eyes of Juan Avila, caricaturist now on the campus being sponsored by the Creative Arts Group and the Exchange Store. By submitting to the drawing, Stark joined the ranks with such people as Robert Taylor and Linda Darnell, who also have been caricatured by Avila.

Job Interviews

Thursday
JOSKE'S OF TEXAS interviews bachelor of arts, economics, and agricultural economics majors for every phase of their department store operation.

OWENS ILLINOIS GLASS COMPANY interviews mechanical, electrical and industrial engineering majors for positions in their plants as well as their research center.

LIBERTY MUTUAL INSURANCE interviews mechanical, chemical, civil and industrial engineering, industrial education and

industrial technology majors for positions as safety engineers, survey policyholder operations, record factual data, analyze accident occurrence data, evaluate the information obtained and design remedial measures, both technical and educational.

FARNSWORTH & CHAMBERS COMPANY, INC. interviews civil engineering, accounting and architectural construction majors.

AETNA CASUALTY AND SURETY COMPANY interviews industrial engineering majors for safety engineer jobs.

OPORTUNIDADES DE EMPLEO EN MEXICO

La Compañía Procter & Gamble busca jóvenes universitarios para puestos de administración en su Compañía en México.

La Compañía ofrece oportunidades en los ramos de publicidad, compras, finanzas, relaciones industriales, manufactura y ventas.

A los candidatos que reúnan los requisitos, se les dará adecuado entrenamiento preliminar ya sea en México, los Estados Unidos o en Canadá.

Además de estos puestos permanentes, la Compañía ofrece a jóvenes con las aptitudes necesarias, que no terminarán sus estudios en 1957, empleos en México durante el verano como primer paso a puestos permanentes después de haber recibido sus títulos.

Los aspirantes deberán hablar español como idioma natal y ser de preferencia ciudadanos mexicanos, aunque en algunos casos se tomarán en cuenta los ciudadanos de otros países.

Si usted tiene interés en cualquiera de los dos ofrecimientos arriba mencionados, sírvase escribir a D. H. Trott, Gerente General, Procter & Gamble de México, Vallarta 1, México 4, D. F.

Especifique el tipo de trabajo que más le interese, cuales son sus estudios principales, el título universitario que obtendrá, lugar de nacimiento, nacionalidad y la fecha en que terminará sus estudios. Enviar asimismo su dirección permanente y su dirección actual.

The Battalion

The Editorial Policy of The Battalion Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A&M College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Laverty, Chairman; Prof. Donald D. Burchard, Prof. Tom Leland and Mr. Bennie Zinn. Student members are W. T. Williams, Murray Miller, Jr., and Leighus E. Sheppard, Jr. Ex-officio members are Mr. Charles Koerber, and Ross Strader, Secretary.

The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. Subscription rates are \$2.50 per semester, \$5.00 per school year, \$6.50 per full year or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.

What's doing... at Pratt & Whitney Aircraft

Cutaway model of P & W A J-57 engine. This twin-spool, axial-flow gas turbine powers the country's newest fighters and bombers and is slated for Douglas DC-8 and Boeing 707 jet airliners. Engine was the first to be rated at more than 10,000 pounds thrust.

A LOOK at the record

From its founding in 1925, Pratt & Whitney Aircraft has been essentially an engineering company. Its primary objective has been the design and development of new aircraft engines of superior performance and dependability. The guiding policy has always been, simply, that technical excellence must be the paramount objective, attained through constant effort to improve upon the best.

During World War II, 50 percent of the aircraft powerplants for the American air arms were engineered by Pratt & Whitney Aircraft. Three of the five key fighter airplanes, a host of medium and heavy bombers, and 98 percent of all the military transports used Pratt & Whitney Aircraft engines.

As early as 1928 Pratt & Whitney Aircraft's Wasp engines powered Navy seaplanes which brought back world records in altitude, range and speed from competitions in Switzerland, Germany and France. The following year, Wasp-powered Army Air Corps airplanes were flying combat formations at 30,000 feet.

The postwar development of the J-57 gained the company a position of engineering leadership in the jet field. It powered the first jet aircraft to fly faster than sound in level flight, and is now used in six supersonic fighters, three bombers and the first two American commercial jet transports.

with experience. Wiley Post, the Lindberghs, Martin and Osa Johnson, Amelia Earhart, Admiral Byrd and Roscoe Turner were among the host of famous pilots who made aviation history with Wasp power.

During World War II, 50 percent of the aircraft powerplants for the American air arms were engineered by Pratt & Whitney Aircraft. Three of the five key fighter airplanes, a host of medium and heavy bombers, and 98 percent of all the military transports used Pratt & Whitney Aircraft engines.

The postwar development of the J-57 gained the company a position of engineering leadership in the jet field. It powered the first jet aircraft to fly faster than sound in level flight, and is now used in six supersonic fighters, three bombers and the first two American commercial jet transports.

Broadly diversified engineering careers at Pratt & Whitney Aircraft offer truly fine opportunity for young men equipped to deal with challenging assignments. You will find many answers to important questions about careers at P & W A in our informative booklet, *Jet Engineering*. For a copy, write to Mr. F. W. Powers, Engineering Department.
