

Club Sets Program Of Music, Drama

Members and guests of the A&M College Women's Social Club will spend "An Afternoon at the Theatre" Friday in the Memorial Student Center.

The entertainment program, produced by Minerva Black of Houston, director of the Actors Theatre School and radio-TV personality, will be presented at 3 p.m. in the MSC ballroom.

Sally Garrison

Included in the program will be dramatic readings and vocal and piano selections, all by members of the Phi Beta fraternity, national professional organization in the fields of music and drama.

Vocalist Sally Garrison will be presented in a group of popular songs. She has appeared on a number of radio programs, as well as with the Henry King Orchestra. A native Texan, she is a graduate of the University of Texas.

Also appearing will be Thamer Sacer, who will sing an aria from an opera by Puccini; Elsie Dupree, mono-dramatist, who will give a humorous reading, and Nydia Dallas, also a dramatic reader.

Nelda Coleman, concert pianist, will play selections by Chopin. Serving as mistress of ceremonies will be Iollah Belle Copeland, Houston club and civic leader.

Mrs. Carl W. Landiss of the Social Club is general chairman of arrangements for the program. A small admission charge will be made for guests.

Carelessness Kills --

Common Sense Safety Rules May Save Your Child's Life

By VIVIAN BROWN
AP Newsfeatures Writer

Mothers sacrifice their children on the altar of carelessness every day. Home accidents kill more children 1 to 14 years of age than any disease, statisticians on safety tell us.

Most accidents to children may be controlled by exercising common sense. Why leave a hot iron where a playing child may reach it? Or why leave an iron cord dangling so that in pulling it a child may fracture his skull?

Put yourself in a child's place for a minute. What does he see when he creeps

or toddles around on the floor? Articles that members of the family drop, to be "picked up later"—collar buttons, nails, pins, matches, cigarettes, forks.

What does he see when he stands up to try his legs? What can he reach? Knives, scissors, safety pins left too near counters may cause serious injury. Many a child has been scalded reaching up to a stove curiously, grasping the handle of a steaming pot.

When Junior begins to clutch at tables to propel himself around the room, be sure his underfooting is safe. Area rugs and highly

polished floors can cause serious injury to the baby who is going through the "testing" stage. All rugs should be safely anchored.

Other ways to preserve baby include:

1. Be sure cellar doors that lead into the house are kept latched.
2. Avoid leaving heavy objects on tables within a child's reach.
3. Keep baby out of the kitchen when preparing meals or put him safely in a play pen.
4. Be sure he has a sturdy high chair and the tray is locked when he is in it.

5. Soft toys are the safest playmates—avoid rattles containing stones or buckshot.
6. Keep disinfectants, poisonous cleaning fluids used in kitchen and bathroom on the highest shelf.
7. Teach a child the dangers of bonfires and matches.
8. Wrap broken china and old razor blades carefully and dispose of them where children cannot get at them.
9. Do not leave baby unattended for an instant when changing his diaper or clothes on a table or even a bed.
10. Do not leave a young child alone in a bath.
