

Aggies Whip Baylor, 5-2

Read Battalion Classifieds Daily

TENSE MOMENT FOR A&M BATTERY—Lefty Toby Newton and catcher Gary Herrington, finding the bases loaded and none out, paw the dirt and talk things over in the fourth inning of yesterday's game against Baylor. Newton then acquitted himself by striking out the side and A&M won 5-2.

Newton Hurls Win, Brilliant in Clutch

By JIM CARRELL
The brilliant clutch pitching of southpaw Toby Newton and Donnie Hullum found timely hitting of another pitcher, Dick Munday, providing excellent support and the Aggie baseballers rebounded from a seven-game losing streak with a rousing 5-2 victory over the Baylor Bears on Kyle Field yesterday.

Newton, the Galveston junior, turned in his best performance to date, twice pitching himself out of the hole and fanning 10 batters in six innings. He scattered seven Baylor hits and walked only four.

Wendell Reed led Aggie hitters with two singles and a double but yielded hitting honors to Baylor's Jerry Mallett who singled three times and also doubled. Munday, playing first base, hammered out a two-run homer in the fifth.

The victory brings A&M's conference record to 2-7 and the Bears' third SWC defeat places them closer to elimination and Texas nearer the title with only one loss.

The Aggies, though outthit by the Bears 10-9, got the hits when they counted, and broke out with two runs in the second that ended 34 scoreless innings.

Opening scoring in the second, the Aggies combined two hits with two errors for the two runs. Lupe Fraga beat out an infield hit to short, Joe Worden struck out and Newton hit one by the first baseman for an error. Reed singled to center with Fraga holding at third.

Behn Hubbard hit a ball to select for what looked like an easy double play, but Reed's slide into the bag threw the shortstop off balance and Donnell Berry erred on the throw at first with Newton and Fraga scoring. Hubbard was tagged at third for the third out.

In the third, Fraga hit a ground ball to third and advanced to second on a wild throw. Worden singled over second to drive in Fraga and Newton grounded out to end the inning.

Brilliant pitching by Newton in the fourth quelled a Baylor uprising after giving up a single, hitting a batter and walking another to load the bases.

The curvballing Newton took only 12 pitches to strike out the side with none out. Fred Marberry fished for a high third strike, Bobby Jones went down swinging and Bobby Jack Oliver missed three straight pitches to end the inning.

Munday iced the game away in the fifth slamming Matt Miller's

Cisco Captures JC Track Meet

With seven records broken and another tied, Cisco captured the Texas Junior College Conference track meet on Kyle Field yesterday, scoring 43-½ points.

Defending champion Howard County took runner-up honors with 38-5/6 points followed by Blinn 25-5/6, San Antonio 14, Navarro 11½, Odessa 8-5/6, Paris 6-½, Panola 2-½ and Allen Academy 2.

The new champs put three records in the books and tied a fourth while Howard County set the other four.

Ags Try 4-Man Ball Team

Eddie Feigner and his world-renowned four-man softball team—The King and His Court—take on All-American Jack Pardee and an Aggie team on the lighted softball diamond tomorrow night at 7:30. Admission is 50 cents for students and \$1 for all others.

Pardee will be joined by John Greer, Bruce Terry, Marvin Dvoracek and Harold Henk on the mound with John Tracey and Bill Bates handling the catching, infielders Bobby Marks, Jimmy

Wright, Pete Terry, Fred Standard, Harvey Helms and Milt Williams and outfielders Bobby Conrad, Les Palmer, Billy Brock and Bud Denton. Palmer is coach of the Fish nine while Denton will manage the team.

Feigner is teamed with Mike Meiticke, Meade Kinzer and Jerry Jones for a quartet that has won 943, lost 94 and tied 11 over 10-year period. The four play regulation teams (nine men) and have made appearances in 45 states.

"Business and pleasure do mix..."

ROBERT H. WENTORF, JR., Ph.D., University of Wisconsin, 1951

"Until I joined General Electric's Research Laboratory in 1951, I never realized science could be such a challenge — or so much fun. My job involves research in physical chemistry — the investigation of new ideas which can lead to new and better products people can use. In a company of this size, I have the unique advantage of having the tools and facilities I need and the experience of others close at hand. And in return, of course, I'm expected to apply myself to the best of my ability in each new job. As I see it, if a big company like General Electric invests time, money and faith in my creative ability, and if I respond by creating, then we both benefit. To me, at General Electric business and pleasure do mix."

created horizon — a completely new, diamond-hard substance which promises far-reaching effect on industrial processes and everyday living.

There are more than 27,000 college graduates at General Electric. Each is provided the opportunity for self-development in the hope that his creative ability will bring forth new ideas. As General Electric sees it, these new ideas, stemming from man's native curiosity, will lead to the development of countless products as yet undreamed of for our nation's defense, industries, and homes.

A physical chemist at General Electric conducts studies of the atomic structure of matter, and of the way atoms and molecules interact under a wide variety of conditions.

Progress Is Our Most Important Product

GENERAL ELECTRIC

The achievements of 31-year-old Robert Wentorf speak well of his ability to make the most of the opportunities offered at General Electric. He recently
