

Cop Respect To Increase With Higher Fines

Higher fines for traffic violations are partially intended to increase respect for campus police, said Fred Hickman, Chief of Campus Security.

Hickman gave this as one reason in explaining why higher fees will be charged for registration and reinstatement for cars next year.

Registration fee will be nearly 10 times higher than the 25 cent fee charged this year. Traffic fines will be doubled—\$2 instead of \$1. Registration fee will be \$2 for students.

Decreasing the number of violations is another reason Hickman gave for the hike in fines.

Faculty members will be charged only \$1 for registration and the initial fee will cover the car as long as it is operated on the campus.

Fines for moving violations will be \$3, instead of the \$2 fine assessed this year.

Fines will have to be paid within 72 hours next year or a delinquent fine of \$5 will be added. Appeals must be made within the same period, also. Same appeal system will be used. Chief Hickman said this year, under the \$1 fine-per-violation system about \$10,000 was collected by his department.

"This money can be well spent in the improvement of present parking facilities, but we have other revenue sources for this project—specifically, the new registration fee, of which \$1.50 will be used for this purpose.

Hickman went on to say that neither his officers, nor any police force, can expect 100 per cent efficiency in catching violators. He also pointed out that many students are loading up their cars with students and driving to class, splitting up the fine if they are caught.

"One dollar split four or five ways doesn't amount to very much—in fact, parking in most cities is higher. However, not many students are willing to pay \$1 a piece or more for the privilege of parking in faculty lots during the day," Hickman said.

He also mentioned that a report of all traffic violations occurring on the campus are sent to the Department of Military Sciences to be included in the permanent 201 file of cadets involved, as has been done in the past.

CORRECTION

In the May 16 edition of the Battalion it was stated that the registration fee for cars next year would be \$2. The fee will be \$2 per semester.

COL. HOMER GARRISON, director of Texas Department of Public Safety, is shown (right) after presenting Jim Bower, 1957 editor of The Battalion, with a \$500 check for winning first place with the 1957 safety edition. He presented the check at the annual student publications banquet.

60 Candidates Vie For Student Senate

Fifty-nine cadets and one civilian are running for Student Senate committee positions tomorrow at the senate election.

School of Engineering Candidates

Running for the senior representative from the School of Engineering are Lonnie R. Jameson, Rayford G. Anthony, James L. Hudson, Lamar Smith, Curtis Sinclair, Wells and Donald D. Dunlap.

Trying for junior representative are Robert P. Marshall Jr., John H. Partridge, George W. Truesdale, R. F. Turner, Calvin D. Campbell, Tommie E. Lohman, Charles H. Robison, Larry Urban, Thomas E. Reddin and C. A. Williams.

Trying for the sophomore slot from the School of Engineering are Charles Ammerman, Frank B. Buchanan, Thomas E. Downs, John T. Jaekle, Bruce Keith, Walter C. Miller, Allen N. Burns, John Smith, Herbert Burling, James B. Greer, Bill Jobe, and Marvin J. Schneider.

School of Veterinary Medicine Candidates

Senior candidates for the School of Veterinary Medicine are William C. Wafer and Robert A. Lee.

Running for the junior veterinary medicine slot are Vannis Redman and Norman B. Guilloud.

Lloyd B. Sells is running unopposed for the sophomore position on the Student Senate.

School of Arts and Sciences Candidates

Vieing for senior councilman post on the senate are David M. Cox,

Don R. Fisher, J. Frank Knotts, John M. Long, David W. McLain, Bobby Melson, Robert D. Purrington, John Warner, John Avant and Thomas N. Crocker.

Junior representative candidates are Joe Buser, Ross Hutchison, W. D. McNeill, Bill Markillie, Alford T. Hearne, Clarence Sanders, Dick Noack and William A. Myers.

Harley H. McAdams is running for the sophomore position unopposed.

School of Agriculture Candidates

Senior senate candidates are Merrill Adamcik, Jim Dixon, Billy J. Jones, Kenneth Lee McKinney, Curtis Schrlize, and Sidney Kunz.

Ronnie E. Buford is running for junior representative and Billy J. Barfield is running for sophomore representative, both unopposed.

Election Commission

Running for the senior post in the election commission are Lonnie R. Jameson, Don R. Fisher, Kenneth L. McKinney, Hugh Wharton, Richard H. McGlaun, Roy Bennett Davis, Vidal Flores, Jerry D. Gleason (See CANDIDATES, Page 2)

Seniors Eligible For Fee Refund

Graduating seniors, who live in dormitories, may get a refund on their board, room rent and laundry for the last week of school by calling at the Cashier's window of the Fiscal Department in Richard Coke Building.

Faculty Body Favors Present Corps Plan

'Ike' Says Cut In Foreign Aid Reckless Now

WASHINGTON, (AP)—President Eisenhower told the American public last night reduction of his \$3,865,000,000 foreign aid program would be "a reckless gamble" which could lead to loss of peace and freedom.

In a speech prepared for delivery by nationwide television and radio, Eisenhower declared anew that "the cost of peace is high" in this atomic age.

"Yet the price of war is higher and is paid in different coin—with the lives of our youth and the devastation of our cities," Eisenhower said.

Obviously hitting at members of Congress who want to cut the foreign aid program, the President then went on to say:

"The road to this disaster could easily be paved with the good intentions of those blindly striving to save the money that must be spent as the price of peace."

Eisenhower, speaking from his White House office, added that "to try to save money at the risk of such damage" to the mutual security program "is neither conservative nor constructive." Then he declared:

"It is reckless. It could mean the loss of peace. It could mean the loss of freedom. It could mean the loss of both."

"I know that you would not wish your government to take such a reckless gamble."

Eisenhower's TV-radio talk was his second appeal of the day in behalf of his foreign aid program, already scaled down from the administration's original figure of \$4,400,000,000.

Sounding the same theme he did in his message to Congress, Eisenhower pictured the foreign aid program as "the most concrete and practical way collective effort and collective security serve our national good."

Weather Today

SCATTERED SHOWERS
Partly cloudy skies with scattered thundershowers are predicted for today. Mid-morning temperature was 85. High yesterday, 87 degrees. Low last night, 76.

Board of Directors Request Opinion

By JOE TINDEL

Academic Council members yesterday voted 49 to 1 in favor of continuing non-compulsory Corps at A&M in the future.

The vote came after President D. W. Williams asked for the Council's opinion to submit to the Board of Directors.

Board members had asked Williams to get the faculty body's opinion for them to use in deciding for or against a two-year compulsory Corps.

Williams would not tell of the Council's action because he said he believed it to be only for the Board to hear. Council secretary, H. L. Heaton said he was not prepared to tell the Council's decision because he had not compiled the minutes.

Six Vanity Fair Beauties Voted Friday Night

Six girls were selected last Friday night to represent the class of '57 on six full pages in the AggieLand '57's Vanity Fair.

The six girls were picked from 12 girls that had been chosen to represent the class as its Vanity Fair. The remaining six will be placed on two pages in the yearbook.

Winning the full pages in the yearbook were Sandra Dale Cartwright, Ann Gordan, Bettye Moers, Marietta Pratt, Jeanene Stein and Mildred White.

These girls were picked at the Student Publications Banquet Friday night. Selection was made by the audience when the beauties paraded past the audience and onto the stage.

All twelve of the girls had previously been chosen by the section editors of the AggieLand '57 out of over 100 entries.

Ecumenical Group Schedules Meeting

The Ecumenical Student Christian Conference planning committee will meet at 5 p. m. Friday at the YMCA. All churches are invited to send two voting delegates and as many other representatives as they wish, according to the Rev. Charles G. Workman, sponsor.

Signing Ends For Summer Dorm Rooms

Today is the last day students may reserve the room in which they now live for first semester of summer school, according to Chief of Housing, Harry Boyer.

In order to reserve the rooms they now occupy and avoid the rush on registration day, Monday, June 3, all dormitory students may reserve rooms after paying all fees at the Fiscal Office in the Administration Building.

Korean veterans planning to attend summer school are asked to report to the Veteran's Advisor's Office and sign enrollment papers.

Bizzell, Law, Puryear, Leggett and Ramps A, B, C, D, and E of Hart will be used during the summer sessions. Students living in these dormitories may reserve the rooms they now occupy until 5 p. m. today.

Students who wish to reserve any other room may do so by 5 p. m. today by presenting a signed room change slip from the Housemaster of the new dormitory concerned.

All other students may register for rooms on a first come first served basis from 8 a. m. tomorrow until noon Saturday, June 1.

All students, including those living in College Apartments, who do not plan to live in dormitories during summer school must secure Day Student Permits from the Housing Office before paying fees.

FSA Awards \$5,000 to Outstanding Professors

Five faculty members received appreciation awards of \$1,000 each from the Association of Former Students at ceremonies in Guion Hall yesterday.

Three of the awards were for "distinguished achievement in teaching," one for "distinguished achievement in individual student relations" and one for "distinguished achievement in the field of research."

Norman F. Rode, professor of

electrical engineering; C. B. Godbey, head of the Genetics Department; and Charles LaMotte, professor of biology, won the teaching awards. Thomas Edison McAfee, professor of agronomy, won the student relations award and Sewell H. Hopkins, professor of biology, won the research award.

E. H. Freeman, of Shreveport, La., president of the Former Students Association, presented the awards at the special ceremonies.

Nominations for the awards were made by students and faculty members; selections were made by a faculty committee. President D. W. Williams presided at the presentation.

Rode received a Bachelor of Science degree in mechanical engineering and electrical engineering from Clemson College in 1919 and his Master's in EE here at A&M in 1929. He also holds an honorary EE degree from Clemson College, awarded him in 1939.

Rode became an instructor in the Electrical Engineering Department here in 1922 and reached the position of professor in 1930. He is vice president of the American Institute of Electrical Engineers, representing the Seventh District. During WW II he served in the Navy as lieutenant commander and still holds the rank of commander in the reserve. He is in charge of the Naval Research Unit here.

Rode took an active part in the development and building of the analog computer and has been active in the supervision of Ph. D. degrees for many candidates.

Godbey holds a Bachelor of Science degree in agriculture from

the University of Kentucky, received in 1925 and a Master's from A&M, in 1926. He also did graduate study at Iowa State College in the summer of 1930.

Godbey became assistant professor of genetics here in 1926 and rose to the head of the department in 1946.

Besides being active on numerous committees, Godbey has served on the Graduate Council, Curriculum Committee, Memorial Student Cen-

ter Board, Committee on the Development of Teaching Personnel and has been a member of the Texas Seed and Plant Board and the State Board of Examiners for Teaching Education.

LaMotte holds Bachelor's and Master's degrees from Texas University 1929, and received his Ph.D. from the University of Illinois in 1937.

LaMotte became a temporary professor of biology here in 1930 and rose to professor in 1939. For several summers of the past few years he has demonstrated his teaching skills as a professor in state teachers colleges, where he taught other professors his techniques.

Active in many local civic organizations, LaMotte is associated with student clubs in the field of biology and is sponsor for the local chapter of the Collegiate Academy of Sciences.

McAfee received both his Bachelor and Master's degree from Oklahoma A&M, 1939 and 1940, and his Ph. D. here in 1953.

McAfee became an agronomy instructor here in 1939 and recently was named to a full professor's

position. He has received numerous awards and special recognition for his diligence and outstanding teaching methods.

During WWII, McAfee was engaged in research on the Guayule Rubber Project for the U. S. government and also served in the army during the latter part of the war.

Hopkins, who is a native of Virginia, holds a Bachelor of Science degree from William and Mary,

1927; a Masters from the University of Illinois, 1929, and his Ph. D. from Illinois in 1933.

Hopkins became an instructor of biology here in 1935, and reached the title of professor in 1947. He came to A&M from a research project with the U. S. Bureau of Animal Industry and has been active in both research and teaching since that time. He was designated as one of the outstanding men on the "Oyster Project."
