A utility knife, from five to six inches long, is a handy kitchen tool. Use it for cutting grapefruit in half, for example, when a paring knife would be too small.

## BRAVE WORDS

That's my daughter Ellen standing up there in her cap and gown. Valedictorian of her class! I'd be a strange mother if I didn't feel a lump in my throat, and a tremendous surge of pride.

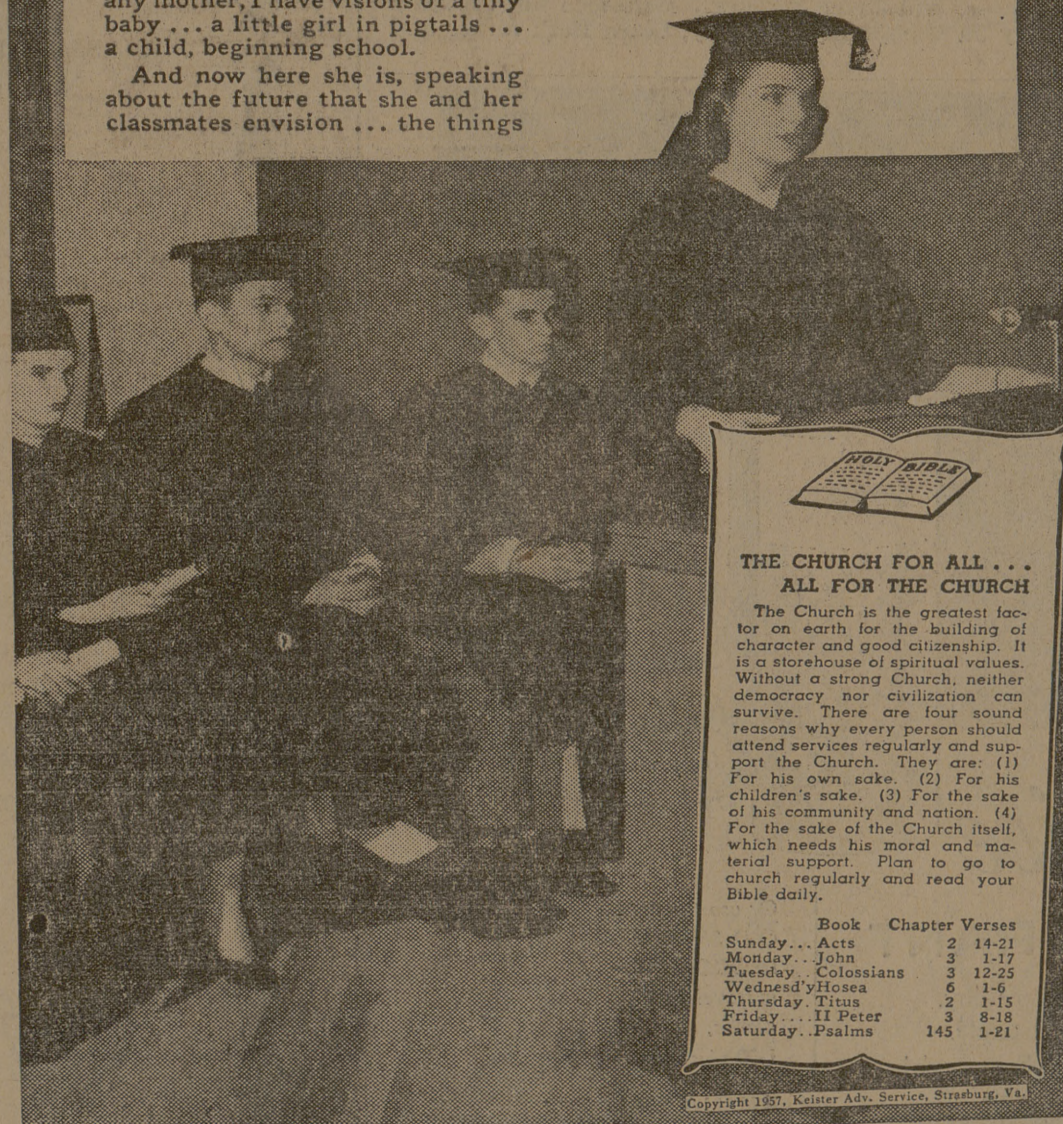

It just doesn't seem possible that my Ellen is grown-up. Like any mother, I have visions of a tiny baby... a little girl in pigtails... a child, beginning school.

And now here she is, speaking about the future that she and her classmates envision... the things

they are going to try to do... their hopes and dreams.

They are brave words, all of them... brave dreams. And like all parents, I pray that most of them will come true. But I know that in times of failure, my Ellen will have an added strength because of her Faith, and her devotion to the Church.

How glad, how thankful, I am for that!

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
