## Health Checkup Helps Ready Child For Good School Year

By DOROTHY V. WHIPPLE, M.D.

Even during the long summer holiday it's not a bad idea to look ahead to the opening of school next fall. What can you do during the summer that will give your child a better year in school? How about your child's health? Don't wait until a week before school to get that pre-school checkup with your doctor. Get it in the summer so that you will have time to correct anything that is not just as it should be—time to use the summer vacation to improve your youngster's health. Our aim is buoyant health, and nothing short of this should satisfy us. What are the signs of really

A-1 health? A healthy child stands up straight, has good color, plays with vigor and enthusiasm, sleeps with the utter abandon of childhood. Most of the time he is pleasant and agreeable to live with. A child should have red lips and pink fingernails. Some children will have rosy cheeks, but many healthy children do not have much color in their faces. This is an individual matter and you cannot change it by pouring in vitamins and iron. A good red color to the mucous membranes is evidence of rich healthy blood. A tanned skin looks well on a child but do not confuse

a tan with the rosy look of health. Anemic children sunburn and tan just the same as healthy children. If your child's color is not as good as it should be, be sure to ask your doctor to do a blood test. Find out how low the hemoglobin is and what should be done to improve it. It may be that your child needs some improvement in his diet. He may need more protein, more of the foods rich in iron and vitamins. Maybe he needs a tonic for a while. On the other hand it may be that your child needs more sleep and rest or perhaps it's more exercise he needs.

*Away from it all*

Would you like to be able to go to a retreat like this when you are worried—a place where you could be alone with your thoughts—a place where you could untangle your problems?

If you would, then you are like most people. Everyone needs a retreat, at moments. And everyone has one! It isn't a mountain cabin or a seaside cottage—but it is a place far better suited to prayer and contemplation, a place to sort out old errors and make new resolutions. It is your church.

Let your church be your sanctuary. Go to it when you are troubled. You will find within its walls your moment of peace, and you will walk out into the street again far better able to make the most of your life.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor in the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
