

ALL WET
 SAN DIEGO, Calif. (AP)—The fire department said Paul Protzman ended up the heat in his apartment to dry some clothes. The heat ched off an automatic fire inkler. Protzman's clothes got wet again and the water leaked on through another apartment to a photography studio and a uty shop.

No waxed paper in the house to use for lining the bottom of a cake pan? Cut a piece of typewriter paper to fit the bottom of the pan and use it. Grease the pan before putting the paper in it.

France has a monument erected to the memory of Cpl. James B. Gresham, of Calhoun, Ky., and the first American soldier to be killed "facing the enemy" in World War I.

90th Division Celebrates Anniversary

90th Infantry (Army Reserve) Division units in 42 Texas cities observe the fortieth birthday of the division Sunday.

Governor Price Daniel has called attention to the division's anniversary by proclaiming 90th Infantry Division week in Texas.

The 90th was organized on August 25, 1917, at Camp Travis in San Antonio.

Originally composed of men from Texas and Oklahoma, the 90th saw combat in both world wars and collected eight campaign credits during fighting in Europe.

In 1947 the 90th became a reserve division. All of its members now come from Texas. The division's 100 units are scattered from Sherman to Brownsville and from Del Rio to Jasper.

Division headquarters are located in Austin.

Commander of the 90th is Major General Earl Rudder, Texas land commissioner. Assistant commander is a San Antonio insurance man, Brigadier General William J. Sutton. The artillery commander is Brigadier General Graber Kidwell, a Dallas engineer.

The 90th is one of ten reserve divisions throughout the United States scheduled by the Department of the Army to be increased to full strength.

Its red "T-O", which originally stood for "Texas Oklahoma" now symbolizes "Texas' Own".

100 Fish Have 'Opportunity' Aid

One hundred top high school graduates, needing a financial boost to attend college, will enroll at A&M in September as winners of four-year Opportunity Award scholarships.

Added to previous winners they will swell to 385 the total number of students who will attend the college next year on these awards.

The Opportunity Award plan combines a scholarship of \$250 to \$300 a year with part-time employment, so that those assisted can make most or all of their own way through college. It is financed by former students of the college, A&M clubs and other individuals, corporations and foundations.

Experiment Post Publishes Bulletin

The procedure for utilizing a basic equation to obtain the appropriate length and configuration of the buried coil in a heat pump installation employing the earth as a heat source and sink is described in a new publication of the Texas Engineering Experiment Station.

The publication is Bulletin No. 139 "The Design of a Heat Pump Buried Coil" by Donald M. Vestal Jr., and Billie J. Fluker.

Its contents also include definitions of the quantities of the equation and methods for their evaluation.

INFLATIONARY NOTE
 CORN, Okla. (AP)—Four-year-old Ernie Koop decided he'd venture downtown and took a handful of dimes his parents had been saving for him.
 When his parents finally found him, the dimes were gone. Ernie had been having the best fun putting them into penny weighing machine slots and other vending machines.

LIQUOR QUICKER
 CINCINNATI (AP)—A "high-ball" is a better remedy for nervous tension than the new tranquilizer drugs, a Cincinnati psychiatrist says.
 Dr. Warren Richards warns that self-medication with the new drugs can be harmful and asserts that a moderate amount of alcohol is preferable for temporary relief from nervous tension and anxiety.

Norway has only four colonies, two in the Arctic and one in the Antarctic. The fourth is tiny Bouvet Island in the south Atlantic Ocean.

How the Payroll Savings Plan can

Make your Labor Day holidays more enjoyable!

Why did you celebrate this Labor Day? Because of the good things your job makes possible for you and your family? Nice home? Car? All kinds of labor-saving appliances? We Americans have plenty of reasons!

One of the best of them is the Payroll Savings Plan your Government offers you. This plan makes saving for the things we really want easy.

You simply sign a card in the payroll office where you work. Sign up for the amount of money you want. Then that amount is set aside for you—automatically. When there's enough, a U.S. Savings Bond is bought in your name and given to you.

And now Savings Bonds are better than ever! Every Series E Savings Bond purchased since February 1, 1957 pays 3 1/4% interest when held to maturity. It pays higher interest, too, in the earlier years, and matures in only eight years and 11 months.

So there's an extra reason to sign up for the Payroll Savings Plan where you work now. Let higher-interest Savings Bonds work for you every day—including holidays!

PART OF EVERY AMERICAN'S SAVINGS BELONGS IN U. S. SAVINGS BONDS!

The U. S. Government does not pay for this advertisement. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
