

**BY GUM**  
DAYTON, Ohio (AP)—A raid on a king-size cookie jar by a gang of 30 hungry boys didn't quite come off. Police said the boys broke into the Sunshine Biscuit Co. and hauled away three large boxes of what they thought were cookies. The boxes, however, contained gummed labels.

**WEATHERMAN DUNKED**  
CHARLESTON, S.C. (AP)—John A. Cummings, meteorologist in charge of the U.S. Weather Bureau station here, was observed hurrying to an airport parking lot. It had just rained heavily. The streets were wet. So was Cummings' convertible automobile. The top was down.

## Western Dependence Cut By 'A' Weapons, Dulles Says

By THOMAS P. WHITNEY  
NEW YORK, (AP)—Secretary of State Dulles said in a magazine article made public last night that

development of tactical nuclear weapons may reduce Western dependence on all out American nuclear retaliatory power for deterrence of limited Communist aggression.

Writing in Foreign Affairs Dulles suggested the threat of brush fire wars could be met on the spot—with the aid of prospective new weapons that would have reduced lethal fallout—without threatening the whole world with a nuclear holocaust.

His idea is that the availability of such weapons around the rim of the Communist bloc may in coming years so block Red hopes for a successful limited war with conventional weapons that the threat of massive nuclear retaliation would be unnecessary.

"The resourcefulness of those who serve our nation in the field of science and weapon engineering now shows that it is possible to alter the character of nuclear weapons," Dulles wrote. "It now seems that their use need not entail vast destruction and wide spread harm to humanity. Recent tests point to the possibility of possessing nuclear weapons the destructiveness and radiation effects of which can be confined substantially to predetermined targets.

"In the future it may thus be feasible to place less reliance upon deterrence of vast retaliatory power. It may be possible to defend countries by nuclear weapons so mobile, or so placed, as to make military invasion with conventional

forces a hazardous attempt. For example, terrain is often such that invasion routes can be decisively dominated by nuclear artillery.

"Thus it may be that by the 1960 decade the nations which are around the Sino Soviet perimeter can possess an effective defense against full scale conventional attack and thus confront any aggressor with the choice between failing or himself initiating nuclear war against the defending country.

Thus the tables may be turned in the sense that, instead of those who are nonaggressive having to rely upon all out nuclear retaliatory power for their protection, would be aggressors will be unable to count on a successful conventional aggression, but must themselves weigh the consequences of invoking nuclear war."

Dulles charged the Soviet Union is trying to prevent development of "clean" and tactical nuclear weapons.

"They seem to prefer that nuclear weapons be only the 'horror' type of weapons," he wrote. "They apparently calculated that humanitarian instincts will present us from using such weapons."

### Communist Paper Reduces Volume

NEW YORK, Sept. 18 — (AP)—The Communist newspaper, the Daily Worker, long in dire financial straits, announced yesterday the paper's size will be cut in half and publication limited to five days a week.

"Frankly, we have reached bottom," the 33 year old newspaper said in a front page editorial. Its daily circulation is believed less than 10,000.

### Italian Styles For Autumn Vary Widely

FLORENCE (AP)—Italian fashions for fall are as different as the designers who make them.

Practically every current silhouette is seen in the collections in Florence and Rome—the barrel skirt, the sack silhouette, the unbelted waistline, the uneven hemline, the shorter hemline, the longer hemline, the floating draperies, the tight pants, the big-collared sweaters, the egg-shaped coats, the panels, the tunics.

One thing stands out, and that is the fondness of many designers for stripes in beautiful and original fabrics.

In fact, the excitement of Italian fashions stems principally from the magnificent and unusual array of fabrics, from silks rich enough for an empress to wools soft enough for a baby.

### Bridge Club Schedules First Fall Meeting Tonight

First fall meeting of the Aggie Wives Bridge Club will be held at 7:30 this evening in the Memorial Student Center. All interested in bridge are invited regardless of skill, as there are intermediate and advanced groups as well as classes for beginners taught by faculty wives. Mrs. Angell, sponsor, has stated that after the third meeting classes will be closed to any new beginners.

Hostesses for the regular group this evening will be Buzzy Thiede and Billie Holder, and for the intermediate group, Jeannette Gummelt, Mary Young and Betty Gibbel.

Marinate cube steaks in a mixture of soy sauce, cooking sherry and crushed garlic; add a little sugar. Drain and cook quickly in a little peanut oil or butter in a skillet.
