

Recent Tea Honors Officers Of Extension Service Club

A tea honoring the officers of the Extension Service Club was held Thursday afternoon in the assembly room of the Memorial Student Center.

Greeting guests were Mrs. Freeman Fuller and Mrs. Bob Griffin. Officers in the receiving line were Mrs. G. O. Hoffman, president; Mrs. Blueford Hancock, vice pres-

ident; Mrs. R. V. Thurmond, recording secretary; Mrs. A. B. Wooten, corresponding secretary; Mrs. Ted Trew, treasurer; Mrs. Harlan Smith, reporter, and Mrs. W. S. Allen, parliamentarian.

Representatives of local clubs also in the receiving line were Mrs. A. G. Nixon, Bryan Women's Club; Miss Jennie Oliver, Campus

Study Club, and Mrs. L. C. Bock, Beta Sigma Phi.

The table, arranged by Mrs. Fuller, followed the club's theme, "Take Time." Centering the arrangement of purple fruits and magnolia leaves was a German anniversary clock accented by wild mulberry stems and purple tapers in candelabra.

Presiding at the tea table were Mrs. M. T. Harrington, Mrs. D. W. Williams, Mrs. John E. Hutchison, and Mrs. Florence Low.

Hostesses were Mrs. Fuller, Mrs. Griffin and Mrs. Lee C. Coffey, assisted by Mrs. Reagan Brown, Mrs. E. Z. Beanblossom, and Mrs. Edwin Cooper.

Out-of-town guests were Miss Frances E. Faulkner of Washington, D. C., and Miss Jean Bird, New York City.

Wichita Falls Hosts Government Exams Set November 16

More than 2,500 students from 55 Baptist Student Union organizations at Texas colleges and universities including A&M are expected to attend the 38th Annual BSU convention Friday through Monday at the First Baptist Church of Wichita Falls, Cliff Harris, A&M BSU director, said yesterday.

Addresses by Dr. George Schweitzer, nuclear physicist, music by the state BSU choir and panel discussions on applied Christianity will be featured at the three day convention.

Dr. Roy O. McClain, pastor of the First Baptist Church in Atlanta, Ga., will deliver the convention's keynote speech.

"Christ in You, the Hope" is the convention theme, said Dr. W. F. Howard, student director for the Baptist Convention of Texas.

"Christ in the Concrete City," a religious play by Harry Thompson, is to be presented by the Hardin-Simmons University drama department at the opening session Friday night.

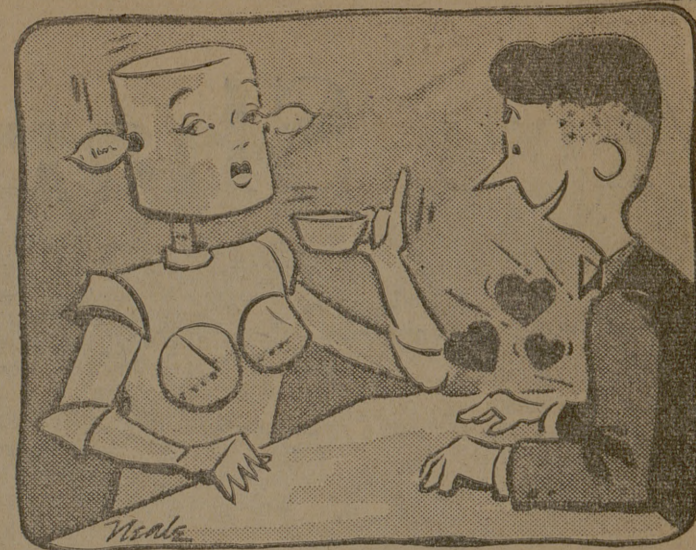

Government Exams Set November 16

Nov. 16 is the date of the first Federal-Service Entrance Examination open this year to both college juniors and seniors. Closing date for applications for the test is Oct. 31.

Purpose of the test is to help fill the government's yearly need for more young people of college caliber who can be placed in jobs at the entrance level and who have the potential to develop into the top managers, technicians, and specialists of the future.

The tests will be given at Bryan as well as other points throughout Texas.

More information can be obtained from the U. S. Civil Service Commission, Washington 25, D. C.

DO MECHANICAL BRAINS INTRIGUE YOU?

Do these intellectual ramps arouse your engineering instincts? Then why go on ogling? Especially if you're an electronics or mechanical major! Plan to enjoy the company of the best mechanical computers. Create your own electronic brains for missile guidance. Find out what's ahead at Chance Vought in this fast-growing field.

RLDS To Show Color Film, 'Other Sheep,' In College Chapel

A color film entitled "Other Sheep" will be shown at 8 p.m. Sunday in the A&M Interfaith Chapel, under the sponsorship of the College Station Reorganized Church of Jesus Christ of Latter Day Saints.

The film, produced by the Audio-Visual Department of the church, takes its thesis from a statement of Christ as recorded in John 10:16: "And other sheep I have, which are not of this fold; them also I must bring, and they shall hear my voice; and there shall be one fold, and one shepherd."

Among the features of the film, which is 23 minutes long, are scenes photographed in southern Mexico. Included are some of the structures of religious and cultural significance unearthed in recent archaeological explorations.

Among the traditions re-enacted by native Indians for this film are the Sacrament of the Lord's Supper and the rite of baptism.

While the film is being brought here by the RLDS church committee on ministry to college stu-

dents, the public, as well as students, is invited.

The minister to college students for the church in this area is R. L. Leutzinger, 511 Nagle, VI 6-5596.

Westminster Group To Hear Vincent

Westminster Foundation of the A&M Presbyterian Church will hear Joe Vincent speak on "The Managerial Revolution's Effect on Church and State" at its meeting at 7:15 Wednesday night.

Vincent, an insurance executive, is a lay leader in the First Presbyterian Church of Bryan.

All are invited to attend.

Social Whirl

Dames Club will hold a social meeting at 8 this evening in the south solarium of the YMCA.

A meeting has been planned by the A&M Garden Club for 2:30 p.m. Friday in the social room of the Memorial Student Center. Senior citizens and officers of the club will be honored.

Speaker for the afternoon will be Richard E. Wainerdi, associate professor of nuclear engineering.

Architecture Wives Society will hold its regular monthly meeting at 7:30 p.m. Wednesday in the south solarium of the YMCA.

WIRED FOR THIEVES

ALBUQUERQUE, N. M. (AP)—Any thief who tries to take the hubcaps from a car belonging to Eldo McLaughlin of Albuquerque is in for a surprise.

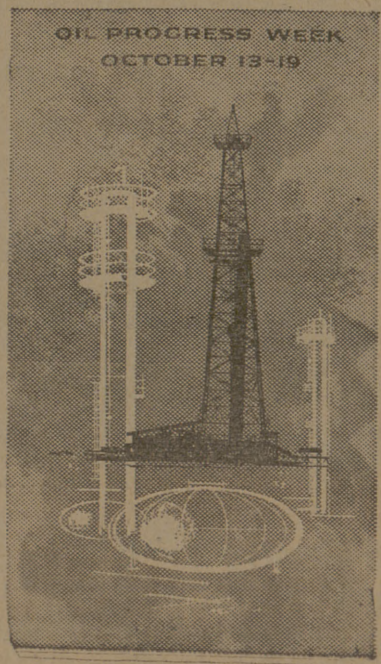

McLaughlin has not only wired his hubcaps with a stiff electrical jolt but has rigged a device to shock anyone who tries to open the doors, the hood or the trunk.

And if the circuit is interfered with at all, the horn begins to blow.

I did not whistle at her. I whistled because the dress she is wearing looks like it was cleaned by —

OIL PROGRESS WEEK OCTOBER 13-19

THE WONDROUS YEARS OF OUR TIME...

Man's use of petroleum — of oil and natural gas — began before the first records of history.

But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation systems that move oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry, Humble invites you to consider the variety and extent of oil's progress... Surely no other industry has contributed more to the making of modern America.
