COLLEGE STATION, TEXAS, WEDNESDAY, OCTOBER 16, 1957

Price Five Cents

Who's Who Nominations Begin Today

Forms for nominating students for the Who's Who list of American colleges and universities may be obtained from the Commandant's office, the housing office, Student Activities office and the Main Desk of the MSC today through November 7.

These forms must be filled out and returned to any one of the places where the forms were obtained by Monday, October 28.

A committee of five cadets will be appointed by Lt. Col. Taylor Wilkins to assist in screening nominees in the Corps. Five civilian students will also be appointed by Bennie Zinn, head of the Department of Student Affairs, to screen nominees from civilian ranks.

Student members of the Who's Who selection committee will assist these committees during the screening process. The committees will screen nominees to 68 candidates, divided between Corps and Civilian students on a proportionate basis.

Final selection of 34 students will be made in the early part of December.

In order to be eligible for selection, a man must be an academic senior and be expecting to receive his degree no later than June, 1958.

He must have a grade point ratio of 1.5 or better, be active in student activities, show qualities of leadership as indicated by positions held in student organizations and be popular with fellow students.

A student may be considered for Who's Who one time only, and must be nominated by himself, another student or a member of the staff.

Faculty Fellowship Meets In Chapel

Faculty Christian Fellowship met for the first time yesterday at 6:50 in the Interfaith Chapel and had a short devotional program.

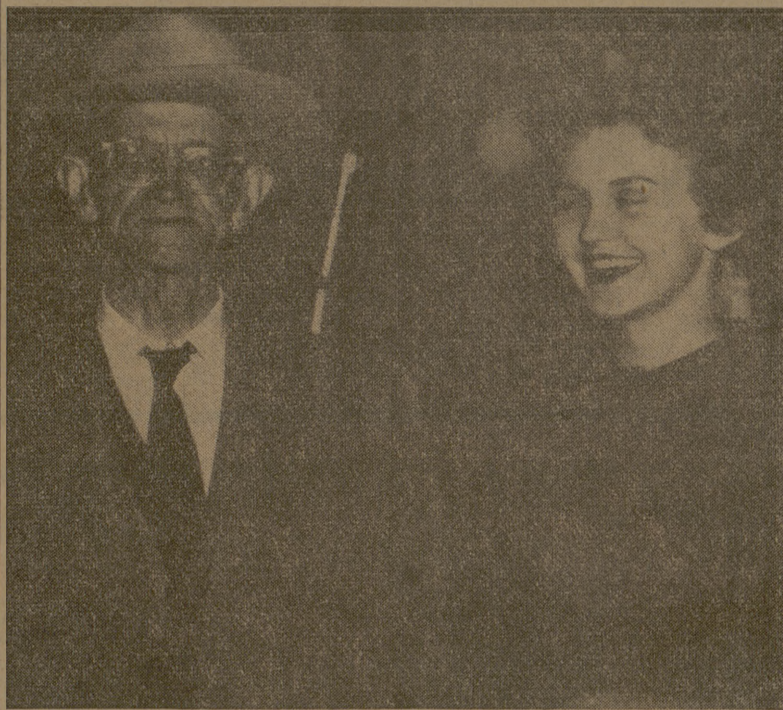

The Faculty Christian Fellowship is a growing movement on college campuses to unite faculty members into regularly meeting devotional groups. Only the interest of individual faculty members keeps the movement going once it has begun on a campus.

Dean Robert Kamm presided at the first meeting and presented a short devotional. He told of his personal experiences with the Faculty Christian Fellowship at Drake University before he came to A&M.

Second Payment Due

Second installment payments are now payable in the Fiscal Office and must be paid by Oct. 22 to avoid tardy penalties.

Amount of the payment is \$56.20. Without board, payments are \$15.70.

Pinky Greet's Sweetheart

Aggie Sweetheart Nancy Norton was introduced to A&M at the yell practice last night in the Grove. She and her fellow students invited the Aggies to the annual Tessie dance in Denton Friday night.

Community Chest Seeks \$14,950

A&M College-College Station Community Chest for 1957-58 set this year's goal at \$14,950 at the drive budget hearing Monday night and yesterday afternoon in the Memorial Student Center.

The Community Chest Drive is scheduled for Oct. 29 through Nov. 12.

Co-chairmen for the 1957-58 drive are Richard Vrooman and L. E. McCall. Other officers are secretary, Bob Shrode; treasurer, Ray Hite; assistant treasurer, Reed McDonald; publicity chairman, Jack Tippit and assistant publicity chairman, Loyd Keel.

By contributing to the Community Chest, citizens may make their entire year's charity contributions at one time and it will be distributed by the chest to needy and worthy organizations or services, Shrode said. The bulk of the chest

Gansky Elected Ag Council Head

Danny Gansky, senior dairy science major from Schulenburg, was elected chairman of the Agriculture Student Council Monday night at the council's first meeting.

Other officers elected were Jim Dixon, senior rural sociology major from Friona, vice chairman; James Traweek, senior dairy science major from Dublin, secretary; Carlton E. Gipson, agronomy major, treasurer and Ken Denmark, junior rural sociology major from Maxwell, reporter.

Elected to serve on the Inter-council were Richard Pigg, animal husbandry major; Kendrick A. Holleman, poultry science major and Stanley Keese, animal husbandry major.

goes directly to local causes, he added.

Budget hearing allocations are as follows:

Agency or Service	Allocation
Texas United Defense Fund	\$ 250
United Service Organization	500
Salvation Army	1,000
Brazos County Crippled Children's Therapy Center	750
Gonzales Warm Springs Foundation	300
College Station Youth Facilities Council	500
College Station YMCA	500
College Station Recreation Council	1,000
College Station Community House, Inc.	1,000
Brazos County Youth Development Counseling Service	600
Brazos County Hospital Fund	300
Girl Scouts	3,000
Boy Scouts	2,250
American Red Cross	2,000
College Station Local Chest Charity Fund	1,000
Total	\$14,950

Houston Public Schools Ordered To Integrate

HOUSTON, Tex., (AP)—Federal Dist. Court Judge Ben C. Connally yesterday ordered the Houston public schools to integrate "after

Local Moonwatchers Observe Red Satellite Here Friday Morning

Little Rock Bill Used Against Segregationists

LITTLE ROCK, Ark., (AP)—A new city law aimed at the National Assn. for the Advancement of Colored People was invoked by Mayor Woodrow Wilson Mann against three pro-segregationist groups yesterday.

Mann has been one of the most outspoken critics of Gov. Orval Faubus in the latter's feud with the federal government over the Little Rock school integration situation.

Monday the City Council passed an ordinance to require that certain organizations submit detailed information on contributions and expenditures, membership and other matters.

The organizations were not named, but it was generally accepted that the ordinance was directed at the NAACP.

Yesterday Mann ordered the NAACP, the Capital Citizens Council and the Freedom Fund and the League of Central High Mothers—the latter three segregationist groups—to submit the data required by the ordinance. The law specifies that the information must be filed within 15 days after notice.

Mrs. L. C. Bates, president of the Arkansas chapter of the NAACP, said the organization's legal research committee would study the ordinance and recommend "what we should do."

Atty. Amis Guthridge said the Citizens Council "has nothing to hide" and added that if the group comes under the ordinance its terms would be complied with. He said the same view would hold for the Freedom Fund, for which he also is attorney.

Sputnik Visible Only At Sunrise

By JIM NEIGHBORS

Operation Moon Watch swings into action Friday morning in College Station to observe the passage of Sputnik as it wings its way over Texas at a height of 560 miles.

Jack Kent, director of the local unit of moon watch, plans to have his teams out in full force to scan the skies and track the path of the Russian-built satellite.

According to the Naval Research Lab in Washington, D. C., Sputnik should pass over A&M early Friday morning. However, the moonwatch team will be on duty from 4 a. m. until sunrise as the satellite is only visible during sunrises and sunsets.

In charge of the overall program is the Smithsonian Astrophysical Observatory of Harvard University in Cambridge, Mass. They are coordinating all the data gathered by the 100 moonwatch units in the United States.

The teams are having difficulty tracking the satellite because the stations were originally set up to observe Vanguard. This is the code name for the U. S. satellite, which will be launched in December.

Vanguard will travel in an area between plus 40° and minus 40° latitude and will follow the path of the equator. Sputnik, however, travels in an orbit of 65° latitude, thus making it a complex problem for the teams to spot the satellite.

Traveling around the Earth 15 times in 24 hours, the Russian miniature moon advances 27.2° in every 24 hour period. This is due to the earth's rotation and as a result, the satellite travels from northwest to southeast as it passes over College Station the first time and goes just the opposite direction on its next trip overhead.

According to Kent, the U. S. is most interested in tracking the satellite. To aid in the tracking, A&M's contribution includes more than three teams of moonwatchers.

Each team consists of 16 telescopes. (See SPUTNIK, Page 2)

Russia Gives 'Blessing' To Egypt's Troops

LONDON (AP)—Soviet Russia gave its blessing last night to the landing of Egyptian troops in Syria. And it sought to capitalize politically on world concern over the middle East crisis.

Communist party boss Nikita Khrushchev made a bid to enlist West European socialist parties into a popular front with the Communists, warning that they are in serious danger of being dragged into war. But the non-Communist Socialist reaction was cold.

Dep. Premier A. I. Mikoyan put the stamp of approval on President Nasser's movement of some Egyptian troops described by a Cairo military spokesman as armor-equipped infantry and artillery units to leftist-ruled, Soviet-supplied Syria.

"It's a good thing," Mikoyan told newsmen at an Afghanistan Embassy reception in Moscow. "They are brother nations and it's a case of one brother coming to the assistance of another brother who feels himself in difficulties."

Some confusion was evident in the Arab sphere.

While Syria's acting Foreign Minister Khalil Kallas was telling 70 foreign diplomats in Damascus that Turkey intends to "launch a premeditated action against Syria," an Egyptian Embassy spokesman in Ankara, Turkey, said "Israel is the only country which might attack Syria."

Church Circle For Ag Wives In 16th Year

Aggie Wives Circle of the A&M Methodist Church opened its 16th year of activity Monday night with a meeting at the church.

The Rev. James B. Argue addressed the group on "The Women's Society of Christian Service or Never Underestimate the Power of a Woman." He was introduced by Mrs. Ben Milam, circle chairman.

Mrs. Don Royal gave the devotions.

Following the program, plans were made for the studies to be made by the circle this year. A committee was appointed to plan the annual Christmas party for international students unable to go home.

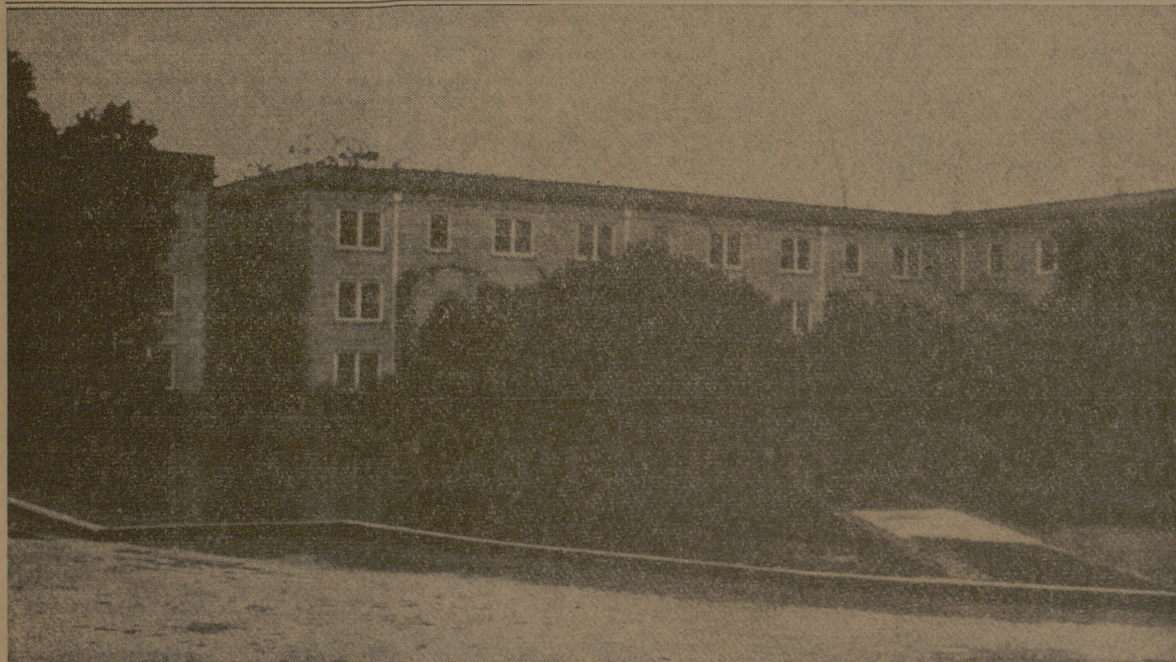

Weather Today

East and south Texas can expect more cloudy skies with showers and local thunderstorms today and tonight, the college weather station reported today.

The weather here results from a broad, persistent southerly current of moist, unstable air associated with a low pressure area to the west.

During the 24-hour period ending at 8 a. m., 2:15 inches of rainfall were recorded here. The relative humidity at 8 o'clock was 95 per cent and the temperature, 66 degrees.

Yesterday's high was 72 degrees at 9 a. m., and the low, 61 degrees at 4:15 a. m.

Rain Floods Campus

Rain drenched the Aggie campus Monday and Tuesday for the second time this fall. 6 p. m., as an example of just how much it had rained.
