

AAUW Hears Talk On Role Of Women In Economic Advance

Women have an important part to play in the economic progress of under-developed countries, Jack D. Gray, coordinator of foreign programs of the A&M System, told the October meeting of the American Association of University Women.

Gray, who served from 1952 to 1956 as extension and development advisor to the government of West Bengal, India, stated that one of the biggest problems in India is production of food.

He showed a number of slides illustrating the use of primitive means of producing staple crops

and added that where food production has been high, the means of transportation have not been equal to the task of effective distribution.

However, he emphasized that great technological advances are being made, with industrial development doubling since the war.

He pointed out that the women of India have become leaders in the great community development which is taking place.

 Mass will be celebrated at 5:15 tonight, followed by Rosary and Benediction at 7:15.

FIRST BAPTIST CHURCH
 Mid-week prayer meeting is set for 7:30 tonight.

Tea Given Friday For Senior Citizens

College Station senior citizens were honored Friday afternoon at a "Golden Age" tea given by the A&M Garden Club.

Highlight of the afternoon was a talk on the nuclear research being conducted in College Station by Richard E. Wainerd, associate professor of nuclear engineering and coordinator of the atomic research and reactor program at A&M.

The meeting was opened with an invocation by Mrs. Ran Boswell and a greeting from the president, Mrs. Tom Taylor.

After a report by Mrs. Taylor on the fall meeting of the Texas Garden Clubs, Mrs. D. W. Williams introduced the honor guests of the afternoon.

As the names were called, Candy Garner, daughter of Mrs. Ed Garner and president of the Junior Club, presented each guest with a small golden fan.

Honored were the Mesdames D.

Seoates, Ernest Langford, F. R. Brison, W. C. Adams, F. L. Thomas, J. S. Mogford, C. H. Winkler, T. O. Walton, Irene Claghorn, Grace Gilmore, G. S. Fraps, H. L. Hunt, R. J. Dunn, Elna Hine, C. W. Varner and Joe Faulk.

Mrs. Robert L. Smith Jr. sang "If There Is Someone Lovelier Than You," accompanied at the piano by Mrs. A. B. Medlen.

Coffee and cakes were offered during the social hour which followed, with Mrs. Dona Carnes pouring from a silver urn.

The table of the month had a striking arrangement of yellow zinnia and candle flowers, by Mrs. Guy Franceschini and Mrs. C. C. Doak.

Hostesses were Mrs. E. L. Angell, chairman, Mrs. Fred Farrar and Mrs. Barlow Irvin.

Next meeting of the club, Nov. 8, will be on "Chrysanthemums and Their Culture."

Social Whirl

New officers of the Chemical Engineering Wives Club are Shirley Christopher, president; Melba Anderson, vice president; Lucy Rosewell, secretary-treasurer; Margaret Sullivan, historian and reporter, and Margaret Fallins, Aggie Wives Council representative.

FACTS YOU SHOULD KNOW ABOUT IBM

IBM is the consistent leader in perhaps the one "unlimited" field in electronics—digital computer development, manufacture and sales. This leadership is based on a 43-year record of steady achievement and growth.

A variety of challenging career opportunities exist and open up continually at IBM. Company policy and company growth assure that individual merit is quickly recognized, and then translated into positions of increased responsibility. Financial rewards are excellent.

Your progress is under constant review. The IBM "small-team" work system is one reason

why individual contributions to a project become known . . . and are rewarded.

Company-sponsored educational programs are among the most advanced in American business today. IBM needs well-qualified seniors and graduate students who will find their future practically "unlimited" in the development, manufacture and sales of electronic computers.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 cities throughout the U. S.
