THE BATTALION

Go To Church
Tonight

Number 40: Volume 57

Published Daily on the Texas A&M College Campus
COLLEGE STATION, TEXAS, WEDNESDAY, OCTOBER 30, 1957

Price Five Cents

Vehicle of Death

This Dodge pickup was a vehicle of death for Corps freshman William Sidney Rogers, who was killed in a head-on collision last night. A Battalion staff writer holds the door open to allow a better look at the steering column, which was pushed almost to the truck's ceiling.

Corps Freshman Dies In Head-On Collision

Food and Fun Slated For CHS Band Carnival

Fun, frolic, good food and a good time is promised by Consolidated High School Band Boosters to anyone attending the CHS Band Carnival Saturday night.

Band Boosters are sponsoring the event to raise money for new uniforms, instruments and band activities. The carnival begins at 5:30 on the high school campus. Bill Gard is chairman of the affair.

"The old country store, fish pond, snake show, pony rides, spook walk and dunking stool are only some of the major attractions planned for the carnival," said Gard.

"For a reasonable price, carnival comers can enjoy a meal of hot dogs, hamburgers, homemade cakes and pies, ice cream and soft drinks," Mrs. K. R. Bailey, chairman of the food committee adds.

The 57-member band is active throughout the year both in marching and concerts. Robert Boone is band director at CHS, having held this post for the past six years.

Boone gives credit for the band's success to support from the parents, such as their staging the carnival.

Leaves School, Enroute Home

A Corps freshman on his way home after resigning from school was killed last night in a head-on collision on Texas Avenue.

Killed almost instantly when his pickup collided with a 1957 Dodge Coronet was William Sidney Rogers, of Trinidad. Also killed in the accident was the driver of the other car, Connor O. Armstrong, 44, from Giddings.

The accident occurred at 8:30 just south of Del Marmols. Investigating officers from the Bryan Police Department attributed at least part of the blame for the accident to the new center stripe markings dividing the recently widened street. They found no skid marks to indicate either car had attempted to avert the accident. There were no eye witnesses.

Rogers completed withdrawal from the college only hours before the accident. He said he was leaving because he was dissatisfied with architecture and planned to join the Navy. Among his personal belongings was a Navy enlistment brochure and a ticket to Chicago for an audition with the Navy Band.

Armstrong, a truck driver for Southern Pacific Transport Co., had recently received a three year safe driving award.

Both of the vehicles were estimated to be total losses.

Silver Taps for Rogers will be held tonight at 10:30.

Sophomores Face Charges In Cadet Court

Four sophomores faced Group B Cadet Court last night on charges of violating college regulations pertaining to physical hazing.

Accused of violating Article 44a of College Regulations and Article 12e of Articles of the Cadet Corps are Thomas R. Hamilton and Milford M. Reid, "B" AAA, and Floyd H. Christian and Ingle C. Trimble, "C" Engineers.

Final decision on the case will not be known until the court's opinion has been studied and approved by the commandant.

Both articles charged as being violated prohibit physical hazing or submission to physical hazing in any form. College regulations indicate discipline could result in dismissal or suspension from the college.

CS Lion's Club Sets Plans For Ag Blood Drive

College Station Lions Club members voted unanimously Monday to sponsor bringing a blood-mobile to the campus from the Wadley Research Foundation, of Dallas, Nov. 12 to collect 300 pints of blood for hemophilia patients.

Lions will supply \$100 to bring the mobile unit to the campus in cooperation with the Student Senate, which will line up donors. Aggies are relied upon to do most of the contributing.

Hemophilia is commonly known as free bleeding, and the charity is a very worthwhile cause, Charlie Haas, Lion president told the organization Monday at their luncheon meeting.

Haas also told the Lions that \$250 had been given to the Brazos County Crippled Children's Clinic on behalf of their group.

The Lions made final arrangements for sponsoring several booths at the Consolidated High School Band Carnival Saturday night at CHS. The club will have several booths and games to help raise money for the band.

Other Lion activities over the past week included purchasing five capons at the Bryan PFA Livestock auction last Tuesday. The capons are frozen and will be used as prizes or raffled off in future Lion activities.

'Too Many Tickets' Campus Cops Say

Aggies are receiving far too many parking fines this semester, Fred Hickman, head of Campus Security, said yesterday.

Hickman said there was no way of telling how many fines had been given, but 2,008 had been paid already this semester. Fines that have been paid average about \$2 a piece.

"We were hoping the number of tickets given would drop this year," Hickman stated, "but instead they have increased."

Since school started \$3,584 has been collected from numerous parking violations.

NOISE PLEASE

LOS ANGELES (AP)—Architect Richard J. Neutra says school libraries should take down their "Quiet" signs and—

Provide television coverage of current events.

Install news teletypes and stock market ticker tapes.

Set up outdoor reading rooms and informal lounges.

Neutra made the suggestions to the University of Southern California's Library School.

Number One Team Slot Makes Aggies Feel Great

It feels great to be Number One team in the nation, seems to be the consensus of most Aggies on the day after their team was voted into first place by the Associated Press weekly poll.

Most of the Aggies interviewed yesterday by a Battalion reporter said they felt that A&M has the number one team and should wind

up the season as national champions.

Thomas A. Player, freshman Aeronautical Engineering major from Houston, believes the team is capable of doing that.

"I think we can go all the way with the kind of team we have if the Twelfth Man stays behind them," said Player.

Whether we can retain that top spot or not for very long depends a great deal on what Oklahoma can do in their remaining games, is another prevailing opinion.

Norman Crocker, senior Education major from Hull, commented, "If we keep winning and Oklahoma keeps playing close games or loses, we should stay in first place. But if Oklahoma starts winning their games by lopsided scores they'll remain first."

William S. Oliver, freshman Mechanical Engineering major from Houston, said, "I believe Oklahoma will lose and we'll win the rest of our games."

There was a dissenter to this opinion, however.

Joe Middleton, sophomore Architecture major from Shreveport, La., observed, "It would be hard to say that we're the number one team in capabilities. The only real test of whether we're number one or not would be a game with Oklahoma."

Charles Brod, junior Mechanical Engineering major from San Benito had this comment, "If we can play at top strength the rest of the season as we did against Baylor, we should be able to keep our first place rating."

Flu Back Again, Hits Civilians

Flu, for the second time this year is making an unwanted visit to the A&M campus.

The flu bug seems to have sneaked into College View and the Civilian dormitories, especially Mitchell, according to a report from Dr. C. R. Lyons, College Hospital supervisor, last night.

Dr. Lyons said there is no immediate crisis and no serious problem has developed, although the hospital now has more than twice the normal number of patients due to the new virus attack.

He said the outbreak does not seem to be affecting the Corps this time. Although there are a lot of coughs among Corps students, he said it is no worse than could be expected following the previous flu epidemic which swept the Corps.

"The present outbreak is definitely on the upswing," Dr. Lyons said, "but we are not becoming too concerned over it yet."

Most of the College View students are remaining in bed and letting their wives care for them, he said. They also receive treatment from college doctors who visit the reported cases.

Civilian students, as a whole, escaped the epidemic which swept the Corps about a month ago, overflowing the hospital and sending

many cadets to bed in their dormitories. The first outbreak saw almost 2,000 Aggies in bed at one time with the virus.

Senior AF Cadets Paychecks Arrive

Checks for senior Air Force cadets under contract may be picked up in the record section of the Trigon starting today.

Announcements will be made in the Air Force classes on the length of time the checks will be available at A&M. If not picked up in the specified time the checks will be sent to the student's home address.

Checks for junior cadets under contract will be available at a later date.

Club Pictures Due For '58 Aggieland

Campus organizations may schedule pictures for the club section of the Aggieland '58 in the Office of Student Publications, ground floor of the YMCA, any time between now and December 13.

Clubs are urged to have their pictures made in locations significant to their activities.

Angelaire's Play For Next Town Hall

Five beauties playing five harps will appear on the Town Hall stage tomorrow night at 8. Known as the Angelaire's the five attractive girls will play classical and semi-classical music for the entertainment of the Aggies.

The lasses' are destined to charm the Aggies with their fast moving fingers hitting the harp strings with an angelic touch.

Proclaimed from coast to coast for their charm with the harps which gives "the tonal effects of one giant harp" making the performance "not only beautiful but exciting... an emotional experience we feel sure the audience will long remember", said the Connersville (Indiana) News-Examiner.

They have appeared on television's "The Ed Sullivan Show" and "The Steve Allen show."

Two of the girls are native Texans one being a University of Texas graduate and the other a past musician with the Texas All-State Orchestra.

Songs like "Black Magic"; "Hal-

Chest Talk Given To Luncheoners

"Do We Really Like The American Way," was the topic of a talk for the Community Chest drive made by Mrs. Marie Heritage to the College Station Kiwanis Club yesterday.

Mrs. Heritage spoke to the luncheoners for the last time yesterday ending a four year public service in the Bryan-College Station area, the club president, John Longley, said.

She urged everyone to take an active part in "giving from the heart and not the pocketbook" to the Community Chest in "true American spirit."

Before the meeting was over Mrs. Heritage had slipped out to help lead the van which was to take her back to New York.

Her husband has been stationed at Bryan Air Force Base for the last four years.

lelujah", from "Hit the Deck" and "Holiday for Strings" will be played at the performance.

"Perfect timing and coordination—soloist capacities in each of the five performers" are just two comments about the five harpists.

Admission to the performance will be by Town Hall season ticket or \$2 for general admission, \$2.50 for reserved and \$1 for high school and younger seating.

A&S Dean Names SCONA Delegates

A&M's delegates to SCONA III were announced last week by W. H. Delaplane, dean of the School of Arts and Sciences.

Selected to attend the conference were Robert L. Hudson, senior education major from College Station; James F. Dempsey Jr., senior history major from Fort Worth; George N. Ragsdale, senior engineering major from Memphis, Tenn.; John W. Warner, senior journalism major from Pampa; Joe David Ross, fifth year veterinary medicine major from Sonora; Charles T. Tucker, senior chemistry and math major from San Antonio and Don R. Cloud, junior economics major from Kerens.

Hart Hall Council Chooses Officers

Hart Hall council officers for 1957-58 have been elected, it was announced yesterday.

Bob Ring was elected president, Roger Shandley, vice-president; Bob Jones, secretary and Louis Conant, treasurer.

Other new council members include Walter F. Hartman and Phil McEvoy, freshman representative; Bob Singletary, sophomore representative; Fred Hartman, Hart Hall Civilian Student Council; Eugene Buie, dormitory chaplain and Wayne Schmidt, housemaster.

Queen Picked At CHS Homecoming

This weekend is homecoming for Consolidated High School as the CHS tigers play host to Cypress-Fairbanks in their second district game Friday night.

Highlights of the homecoming weekend include the crowning of a homecoming queen, a television interview and a bonfire and yell practice.

To kick-off homecoming festivities, CHS cheerleaders and homecoming queen candidates will be interviewed on KBTX-TV, in Bryan, Wednesday at 2:30 p. m. Then Thursday night at the school the bonfire and yell practice begin at

6. Friday night at 8 the Tigers meet Cypress-Fairbanks on Tiger Field. The homecoming queen will be announced and crowned at the game's halftime show.

At the Thursday yell practice, talks will be given by Margaret Weedon, yell leader of the class of '53, Garland Andrews, a last year's football co-captain, and CHS coach Dick Gardemal.

Friday night's halftime ceremony, will see the homecoming queen and two princesses introduced. The selections are being made by "penny voting" for two candidates from each of the four high school classes.

Candidates for queen are Ann Cleland and Millie Caughlin, senior; Pat Jackson and Margaret Huff, junior; Nancy Rae and Marilyn McElroy, sophomore, and Suzanne Sorenson and Sue Ross, freshman.

Jars will be placed in stores throughout the community with each candidate's name on her jar. All money dropped into the jars will count one vote for each penny. The girl receiving the largest number of votes will be named queen and the two runners up named princesses.

Weather Today

College Station can expect partly cloudy skies and slowly rising temperatures through tomorrow, according to the college weather station.

The mercury dipped to a low of 58 degrees at 5 this morning. Yesterday's high was 72 degrees at 3:45 p. m.

The 8 a. m. temperature reading was 62 degrees, and the relative humidity, 86 per cent.
