Carmen McRae

Hi-Lo's, Ted Heath Group Appear Here Tuesday Night

Carmen McRae, the girl with "the haunt in her voice," will appear with the Ted Heath Orchestra and the Hi-Lo's when they come to Town Hall Tuesday night at 8.

Carol Channing, who was touring with "Gentlemen Prefer Blondes," once told Miss McRae she had a "haunt" in her voice and the expression is now the favorite description of the shapely Jamaican singer.

Her hit records include "Whatever Lola Wants", "Oooh", "Baby

It's Cold Outside" and "Happy To Make Your Acquaintance", a duet with Sammy Davis Jr.

Ted Heath and his orchestra were here last year and made a big hit with the Aggies. Heath and his group, from England, play American jazz the way American's apparently like it. He played to capacity crowds all over the United States at almost every appearance.

"Heath and his musicians displayed versatility not too often found in American Jazz or swing outfits," the San Antonio Light said.

"The band is clean-sounding with sharp brass and a pounding rhythm section, indicating that the British need feel inferior no longer to American bands", the Houston Post stated last year.

Heath has also won the honor of playing for the Queen of England twice in the last two years.

Also appearing with the Heath group is the Hi-Lo's, a quartet with about the same tastes in music as displayed by the Four Freshmen.

The Hi-Lo's combination of voices has made television appearances on the Red Skelton and Ray Bolger shows and the Colgate Comedy Hour.

They also worked with Judy Garland when she was on a recent concert tour.

US Organizing Counter Plan For Sputnik

NEW YORK, (AP)—A new "Manhattan Project" is being organized as the U. S. answer to Russia satellite and missile progress, the New York World-Telegram and Sun said today.

The newspaper quoted an unnamed top industrialist as saying: "Such a plan has been in the drawing-board stage for some time.

"Now it is being pushed with great speed because of Russia's Sputnik, her gains in the inter-continental ballistics missile field generally and her constant threats of aggression in various parts of the world."

Top industry executives and scientists reportedly are being canvassed quietly on their concepts of how it should be set up, what its short- and long-range goals should be and the kind of man who should head it.

The newspaper said Defense Department officials lean to the belief that the project would prove most effective if headed by a "strong executive" with a technological grasp of the problems concerned—rather than a "government man" with limited scientific experience.

Who's What From The First Regiment

By GENE FUDGE

The First Regiment had four companies in the top ten for the Baylor march-in. In the overall standing four are also in the top ten and six are in the top twenty.

"A" Engineers is contributing toward the Aggie football team in the form of a student trainer, (fish) Herbert Campbell. Also, they have a man on the fish football squad. He is (fish) Harve Chappell, from Albuquerque, N.M.

"B" and "C" Armor are planned well represented in the after-the-game affair on the TCU Corps Trip, judging from some of the souvenirs still visible.

"A" Transportation comes in first in many of the Wednesday night pass-bys, and came in tenth in the Baylor march-in. They would like to reverse the results, however.

"B" and "C" Armor are planning an "All-Jock" party in Houston for the Corps trip. If the affair turns out as successful as the ones in the past, Houston is due for a blast.

"B" Infantry is also making plans for a party in Houston. "B" is in fourth place in the Corps now, so they should be entitled to it.

"C" Infantry, second in the Corps, had a "function" at the clay pits last Friday. For them, Saturday was official "OH! My aching head day."

"E" Infantry took the spotlight in intramurals last week, winning every game they played. They are also planning a company party in Houston. The party may slow down their intramural winning for the week following.

Operation Flick Begins Series Here Saturday

"Operation Flick," the showing of war films sponsored by the Signal Corps, opens its annual season Saturday night.

The films will be shown in the Ballroom of the Memorial Student Center and will start at 6:30 p. m. Admission is free.

This week we will show "Nurnberg War Trials," said Chuck Garcia, senior in charge. These films reveal the inhuman massacres by the Nazis in World War II and are actual captured films. You would have to see them to believe them, he said.

Following Nurnberg War Trials, the Signal Corps will show "Traditions and Achievements of the Army," "The Price of Liberty" (WACS), "New Weapons and Equipment for the Army," and "Air Force Screen Magazine."

"Nurnberg War Trials" will be shown again after all the others have been shown," Garcia said. "This will probably be around 9 o'clock."

Bob Edmunds, is head projectionist, Albert Swarts and Doyle Nichols are assistants.

"We are going to try to have 'Operation Flick' every week whenever possible," Garcia said.

FOX TRAP
CHESTER, Va. (AP)—The Rev. Roy Everett Jr. heard a commotion outside the basement door of Providence Methodist Church. He opened it and in dashed a red fox, who was trapped by closing the doors to a hall.

Hunters arrived and put the fox in a bag.

The pastor remarked that they ought to contribute five dollars for his building fund—and he got it the next Sunday in an envelope marked "fox money".

COOPERATION PAYS ON THE PARTY LINE, TOO

The rewards for helping Mother with her cake are pleasant. And so are the rewards for extending courtesy and cooperation on the party line.

When everyone uses the line sharingly everyone gets better service. And by giving up the line immediately in an emergency and replacing the receiver properly, you help yourself to a bigger share of that better service.

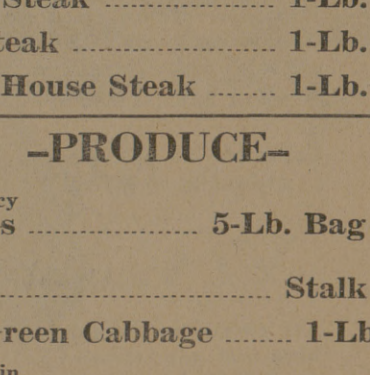

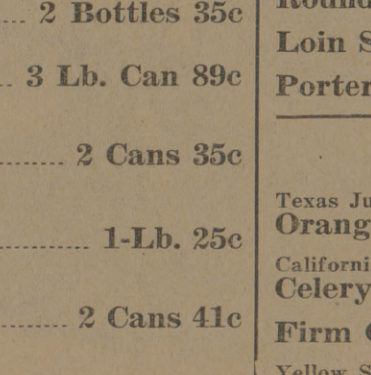

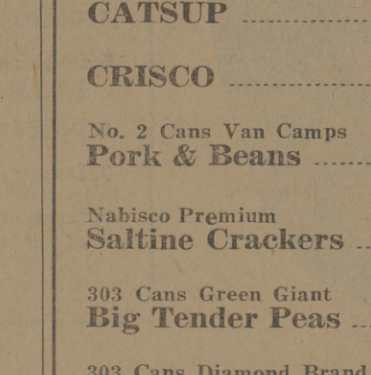

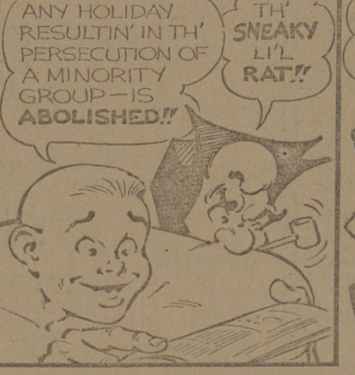

It's a fact that courtesy and cooperation will help to make your party line telephone even more useful.

I did not whistle at her. I whistled because the dress she is wearing looks like it was cleaned by —
