Survey Reveals Financing Trouble

An industrial economics survey conducted by Dr. Lewis E. Davids of the Texas Engineering Experiment Station here, has revealed that inappropriate and inadequate financing are the most frequent causes for the failure of newly established small manufacturing ventures in Texas.

The survey investigated financing techniques that small Texas manufacturers employed in establishing firms during the 1950's. Results of the survey show that about three-fourths of the capital is in the form of equity and one-fourth is debt. The debt is mostly due to banks and was acquired at an interest rate of 6 to 6½ percent. However, more recently financed companies are paying higher rates.

Shaped Like An Egg

Mysterious Object Prompting Worry

By The Associated Press

LEVELLAND, Tex.—The Level-land Eggnik, West Texas' big mystery that shuts off automobile motors and lights and scares people half to death, apparently is the roving kind.
So far the eggnik—some call it the whatnik—has been reported as far north as Chicago, as far south as the North Central Gulf of Mexico, as far west as New Mexico, and as far east as Virginia.

The object first was reported in this area Sunday. Several reliable witnesses said it was about 200 feet long, shaped like an egg, glowed in various colors, settled on fields and roadways, and took off in a rush of wind.

Several persons said their automobile motors died and their car lights were extinguished when the eggnik appeared.
A new account today said a mysterious object somewhat resembling the eggnik was seen last Oct. 24 near Paducah, Tex., east of here.

This account came from a long-time physician, Dr. J. S. Stanley of Matador.
He said he saw the object about 8:30 a.m. five miles west of Paducah. Dr. Stanley said the object was cigar shaped, gray in color, with cross members near each end. He said it was about a mile south of the highway, about 1,000 feet high. Dr. Stanley said he watched it several minutes, and it appeared to be stationary.

Mrs. Grady Fennell, who was tending her ill baby about 2 a.m. last Sunday at Plainview, Tex., said she heard something that sounded like a big wind. Her story, told today, was that the room lighted brightly, and when she went to the window, she saw a great bright light disappearing to the Northwest.

Other sightings of a mysterious object were made in Chicago by two military patrols at White Sands Proving Grounds in New Mexico, and a woman in Virginia.

'Racket' Brewing In New Car Sales

WASHINGTON—(AP)—The president of the National Automobile Dealers Assn. charged yesterday that auto manufacturers are granting new car dealerships to "fast operators" and shady sellers.

The auto distribution industry is in danger of becoming a "racket" requiring unwelcome federal controls to police it, said Frederick M. Sutter of Columbus, Ind.

Sutter asked the 800 finance company officials at a convention to assist NADA's effort to "clean up" the auto sales industry.

"Many of our finest dealers are disgusted and determined to get out," Sutter said.

"In many cases they are 'locked in' and cannot get out without terrific cost because adequate capital is not available" for others to take over their dealerships.

Witnesses said it was about 200 feet long, shaped like an egg, glowed in various colors, settled on fields and roadways, and took off in a rush of wind.

Several persons said their automobile motors died and their car lights were extinguished when the eggnik appeared.

A new account today said a mysterious object somewhat resembling the eggnik was seen last Oct. 24 near Paducah, Tex., east of here.

This account came from a long-time physician, Dr. J. S. Stanley of Matador. He said he saw the object about 8:30 a.m. five miles west of Paducah.

Mrs. Grady Fennell, who was tending her ill baby about 2 a.m. last Sunday at Plainview, Tex., said she heard something that sounded like a big wind.

Other sightings of a mysterious object were made in Chicago by two military patrols at White Sands Proving Grounds in New Mexico, and a woman in Virginia.

Social Whirl
