

Strike Warned At Huge Missile Testing Center

BROWNSVILLE, Tex., (AP)—The board of a union which has threatened to put pickets around a guided missile testing center yesterday offered to submit their case to a Senate investigating committee.

In a telegram to Senate Majority Leader Lyndon Johnson (D-Tex.) the union leaders said, "We would welcome an opportunity to present the facts in the dispute which threatens a strike against Pan American World Airways at the guided missile testing center at Cape Canaveral, Fla."

The board, representing some 7,000 clerical workers of Pan American including about 1,000 employed at the missile center, has authorized its executive committee to set a strike date after Nov. 23.

Walter T. Coleman, general chairman of the union, said the telegram to Johnson was unanimously endorsed by the 14-man board.

The telegram said the union would like to present their side of the case "to the Senate Armed Services Committee which is investigating the lag in the U. S. guided missile program since we know the complete record will show that the union has done everything over a four-year period to avoid a strike."

Coleman said the board had seen newspaper stories that Johnson planned to have the Senate committee investigate the lag in the missile program.

"If he's going to investigate why the program is lagging, he might as well look at why the program may all of a sudden stop," Coleman said.

Trade Students Visit Aggeland Render Praise

Fourteen young men from eight Latin American countries representing the International Farm Youth Exchange, toured the campus yesterday.

Friday the youths, who have been in the United States to study the country and its people, complete their visit which has covered a period of six months.

The group seemed impressed by A&M in their one day visit, and some stated that they would like to come to A&M to further their education.

IFYE, sponsored by the Olin Mathieson Chemical Corporation, is dedicated to the belief that understanding people is the foundation of world peace. The project is to help rural youths better understand the problems and attitudes of rural people in other parts of the world.

Geologists To Hear Diamond Expert

Mrs. Gladys B. Hannaford, a recognized diamond authority and a trained speaker with broad professional experience, will speak to the Geology Club in the Memorial Student Center, Tuesday, Nov. 12 at 7:45 p.m.

Mrs. Hannaford, who has delivered lectures to colleges across the country, has visited diamond localities of South Africa and plans to present slides and films depicting her experiences. She will also show glass models of famous diamonds and present other interesting illustrations.

Mrs. Hannaford's lectures have been received enthusiastically by men's and women's clubs in New York, Boston, Cleveland, Dallas and many other cities.

Soviets Taunt U.S. For Losing Race

By The Associated Press

MOSCOW, Nov. 6 (AP)—Nikita Khrushchev and Mao Tze-tung, the two top men in world communism, made a double-barreled attack today on the United States gibing at its lag on launching Sputniks and accusing it of plotting trouble all over the world.

Khrushchev, the Soviet party boss, and Mao, the master of Red China, spoke from the same platform before 17,000 delegates here from 60 nations to mark the 40th anniversary of the Bolshevik Revolution.

Both predicted an inevitable victory of communism over capital-

ism. Both proclaimed a desire for world peace.

Khrushchev proposed a world summit conference to rule out the possibility of another big war. He said the enormous devastation of such a war would be the death of capitalism and he made a plea for an understanding especially with the United States on disarmament.

He predicted the Soviet Union would beat the United States at its own game and surpass it in industrial production in 15 years. He again charged that the United States was inciting Turkey and Israel to attack Syria.

Mao, who received a huge ovation, praised Soviet "firsts," including the earth satellites, and hailed as wise the political measures of the Soviet Communist party from the de-Stalinization program down to the ouster of Marshal Georgi Zhukov.

Khrushchev's three-hour speech was filled with taunts at the United States.

The launching of Sputnik I and of Sputnik II, he said, "struck fear and confusion into the camp of the enemies of communism."

"Our Sputniks are going around and around the world waiting for the American Sputniks to come up and join them."

And now, he added, the Americans are pretending they never were in a race with the Soviet Union.

"A new war would produce enormous devastation," he said later. "We are convinced that as a result of a new war, the capitalist order will perish. However, we Communists are not striving to victory by such a path."

SAC Zeroed In On Big Soviet Targets

PINECASTLE AIR FORCE BASE, Fla., (AP)—The Strategic Air Command said today its crews know exactly — or almost exactly — what every potential target in Russia would look like.

That is, they know how it would look as viewed by radar from a bomber eight or nine miles up.

Some of the secrecy about the constantly improving atomic bombing capability of the Air Force was stripped away at SAC's annual bombing, navigation and reconnaissance competition conducted here and at Carswell Air Force Base, Tex., during the past six days.

Another disclosure was that the SAC does most of its bombing by offset-by deliberately aiming at a point a known distance away from the target.

At a ceremony here this afternoon, Lt. Gen. Francis Griswold, deputy commander of SAC presented 21 trophies to the winners among the 90 crews from 45 wings — tops among all the bomber crews in SAC and the British Royal Air Force — that took part.

Crew members talked in guarded terms about the offset bombing technique, and more freely about radar studies of possible targets in Russia. They were able to talk on the basis of recent declassification of some of this information.

Presumably the material has been made public not only because it probably already has become known to the Communists but because the United States wants the Soviets to know for sure that armed aggression by the Reds would bring swift nuclear retaliation.

Ags Attend 'Y' Sectional Retreat

"This Year's Leaders, YOU" was the topic of the YMCA-YWCA South Texas sectional retreat attended by 34 Aggies last weekend at Camp Holden, Tex.

The retreat was attended by 70 representatives from Sam Houston State Teachers College, Prairie View A&M College, Southwestern University and Texas A&M.

Leaders for the retreat from A&M were Terry Spencer, sectional co-chairman; David Bagley, regional co-chairman; and Curtis Schulze, YMCA president. The main speaker was Dr. Lee Phillip, Dean of the Chapel at Prairie View A&M.

Half of Troops To be Pulled From Arkansas

LITTLE ROCK, Ark., (AP)—The Army announced yesterday it would remove half of the federal troops and National Guardsmen enforcing school intergration here.

The announcement came a few hours after Little Rock voters had narrowly rejected a pro-segregation city government.

There was no indication that the voting influenced the Army's decision to make its second troop reduction but it was announced just a few hours after a moderate group known as the Good Government Committee candidates won control of the city government.

The Army said its decision to pull out about 275 of its 500 regulars and defederalize about 900 of 1,800 National Guardsmen will be carried out forthwith because of "the steady improvement in community stability noted currently in Little Rock."

An Army spokesman said he expected that the regular troop reduction would be effected before the end of this week.

Gov. Orval Faubus who maintains Little Rock will remain "an occupied city as long as one federal soldier remains" commented:

"They ought to go ahead and remove the rest of them. I think they would have long before now if they had had a graceful way to do it."

Integration at Central High School, which exploded with violence that reverberated internationally, is now in its seventh week but quiet.

At the height of the integration turmoil, the Army had well over 1,000 regular troops of the 101st Airborne Division from Ft. Campbell, Ky., and federalized 10,500 Arkansas National Guardsmen.

The regular Army force was halved Oct. 14 after the integration process became routine at Central High School. A systematic reduction of the guardsmen was started simultaneously.

A half-cup of leftover cooked green peas makes a fine addition for creamed chipped beef.

180 At Electrical Metermen's Meet

A crowd of 180 persons is attending the electrical metermen's short course being held in the Memorial Student Center this week.

Norman F. Rode of the Electrical Engineering Department is serving as chairman. The course will last through Friday.
