

# Mustangs Seek 2nd Upset

By GARY ROLLINS

Southern Methodist's upset-minded Mustangs invade Kyle Field tomorrow night at 8 to contest the defending SWC champion Texas Aggies.

The Ponies hit their peak last week staging a major upset of the Texas Longhorns. At this time, the Mustangs have a 1-1 record in conference play, losing only to the Rice Owls.

Bill Meek's Mustangs opened the season with a bang by downing California's Golden Bears and tying awesome Georgia Tech, 9-0. They have suffered one inter-sectional defeat to the University of Missouri.

The Cadets are riding high, ranked at the top of the national ratings. Their winning streak was extended to 17 last Saturday when they downed Arkansas in a battle-royal in Fayetteville, 7-6.

Both teams will be at near full strength for the clash, with the Aggies' Darrel Brown still on the doubtful list.

The Pony line is young and fast. They are not as beefy as the Aggies forward wall, but have plenty of speed. In Coach Paul Bryant's

estimation, "They're big enough."

Actually the small, quick line is characteristic of Bill Meek's teams. The heaviest man in the Pony line is Lee Yokum, the right tackle who tips the scales at 214 pounds. He was able to shed a few excess pounds at the beginning of the season, reaching a good "playing weight" against Texas last week.

Guard Gary Weber is the tiniest in the line, weighing a mere 189 pounds; only one pound less than the other guard Tom Koenig. Center Raleigh Harvey also weights 190.

The Mustangs were elated with the "coming around" of sophomore quarterback Don Meredith, who staged a one-man show in the defeat of

the Texas Longhorns last week.

At the beginning of the season, Meek mourned the lack of a good signal-caller, but they seem to have found one in Meredith. He's 6-3, 180 and was the outstanding freshman player in the conference last year. So great is his promise that he has been compared with Larry Isbell in his early playing days at Baylor.

To quote from a news source, "Meredith is cool and calculating—the type of quarterback who looks right at you and then runs at you. He runs the position with non-chalance and insolence."

For the last three weeks, the Aggies have stuffed their efforts into one short burst of power—

which has proven sufficient to win. However, last week against SMU, Texas contributed 100 per cent effort for one quarter and lost to the Ponies, who played the

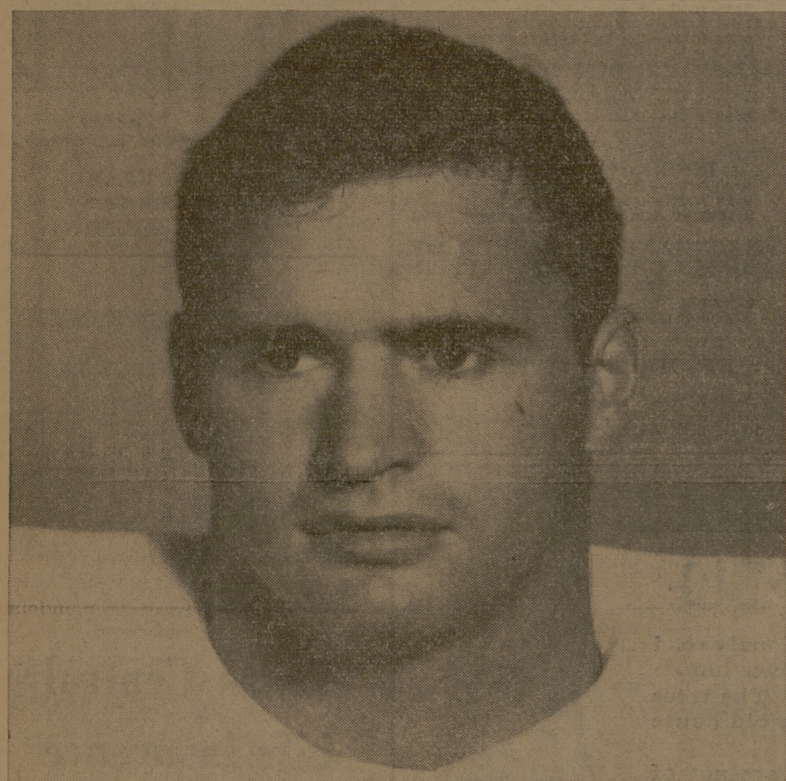

other three quarters with enough authority to win.

The old axiom will always hold true, "The team wanting this game the most will win."

Tom Koenig

Koenig, 190-pound SMU junior from Dallas, played more than any other sophomore last year. He was the number one Mustang in unassisted tackles with a total of 23 and second in total tackles accredited with 72.

Kentucky's Gentleman Jim

Jim Stanley, 6-1, 200-pounder, starting left guard from Lynch, Kentucky, has been an outstanding performer all season in the nation's best line. Stanley, first switched to left tackle behind Charley Krueger, has been returned to his old slot, much to his appreciation.

When George Sisler batted .407 for the 1920 St. Louis Browns, he hit .448 during the last month of the season.

### Roger: Future Mining Engineer?

You'd like Roger. He's bright and friendly—and you ought to see him build things in the backyard, fix things around the house.

He can grow up to become a great engineer, a great help to his country... if he gets the education he deserves. But in too many communities the Rogers aren't getting it. Classrooms are overcrowded... schoolbooks are much too old... teachers are overworked and underpaid.

Let's be sure this doesn't happen to the children in our schools. Join with other good citizens to back up our School Board, attend PTA meetings and school conferences.

For a free booklet telling you more about the important part you can play, write to: Better Schools, 9 East 40th Street, New York 16, N. Y.

We must have first-rate schools

## Let's take a walk around the Around-the-world car!

### THERE'S NOTHING NEWER IN THE WORLD OF STYLE

On its precedent-shattering "shakedown cruise" around the world... Ford's new, dramatic styling turned heads from Paris to Pakistan. From its new Streamline roof right down to its new Safety-Twin headlights and Honeycomb grille, the new Ford was approved by everyone... from natives to famous stylists!

### NEW MAGIC-CIRCLE STEERING\*

You'll steer almost as easy as pointing with this new Ford steering design. Instead of conventional gearing... new recirculating-ball mechanism transmits steering effort with minimum friction. Results: Smoother all-over steering. And how!

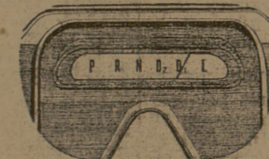

### NEW FORD-AIRE SUSPENSION\*

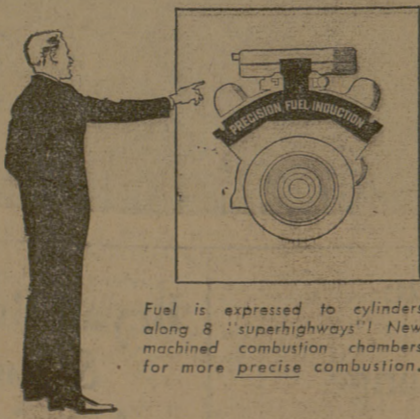

Cushions of air "soak up" the bumps. And you ride "on the level." It's like riding over waves, instead of up and down on them.

### NEW CRUISE-O-MATIC DRIVE\*

... a new kind of automatic driving for every situation. You get your choice of spirited, lively getaways or more gentle, sure-footed starts for slippery roads or loose gravel.

Teamed with the new Interceptor V-8, it can give you up to 15% better mileage!

### UP TO 15% GAS SAVINGS WITH PRECISION FUEL INDUCTION AND CRUISE-O-MATIC DRIVE

Now fuel-air mixture is expressed directly along eight "superhighways" to new machined combustion chambers. Result? More precise combustion and more "GO" for your dough. Teamed with new Cruise-O-Matic Drive, this new V-8 can give you up to 15% better gas mileage!

Fuel is expressed to cylinders along 8 "superhighways"! New machined combustion chambers for more precise combustion.

\*Optional at extra cost

### YOU'RE AHEAD ALL THE WAY

In addition to the news items on this page, the 58 Ford features advances galore in the new "Inner Ford"... new luxury staterooms with excitingly new fabrics... item after item to prove there's nothing newer than Ford for 58. Come in and see!
