

Art for Aggies' Sake

BY WELTON JONES

The lay-off of this column last Friday, about which no announcement appeared, was due, as once before, to the football Corps trip to Houston. It was thought that many of this column's readers would be gone by Friday afternoon.

DRAMA — C. K. Esten and Dr. Sam Southwell, co-producers-directors of the Aggie Player's forthcoming Shakespeare effort, Macbeth, have announced the principal members of the cast for the show, which will run for five performances in February.

At least two roles, that of Macbeth, the ambitious Scottish king, and Macduff, a nobleman, will be double-cast. Toby Hughes and Henry Lytle will play the title role and Jim Best and Don Deming will be seen as Macduff.

Florence Delaplane, the wife of Arts and Sciences Dean W. H. Delaplane, will take the part of Lady Macbeth. David Dannebaum will play Malcolm, son of the slain King Duncan, played by Konrad Losin. Harry Gooding and Welton Jones will be seen as Ross and Banquo, respectively.

Cast as witches are Dorothy Ashworth, Zulin Pinero and Sophie Boettcher. Jeanette Grover will be Hecate, queen of the witches. Other casting is now being completed, Esten said.

L. R. Killion will be stage manager and Bob Wench is in charge of lights for the performance, which is to rely heavily on lights. The production is now in rehearsal and the directors plan to have one full-scale rehearsal before Thanksgiving.

The play is scheduled for only night performances at this time, Esten said, but the Memorial Student Center Ballroom will be available for afternoon matinees if necessary. Plans for some special showings are now being discussed with local public school

officials, he said.
PAINTING — Replacing the one-man sculpture show of Charles Umlauf in the Memorial Student Center today is a dual show by two local artists of note. They are, of course, the charming and talented MSC Art Director, Mrs. Emalita Newton Terry and Joseph Donaldson Jr., of the Architecture Department.

The fifty pictures range widely in subject, style and medium. Mrs. Terry is mainly represented by her prize winning water color landscapes and seascapes, with some purely esthetic work that seems to soar above having a mere meaning or theme.

Donaldson spent some years in the Virgin Islands and the more exotic parts of our U. S. Southern coast, and the influences are obvious here. Sometimes his solemn faces staring out of orgies of color seem to almost get out of hand.

Media represented include casine, oil, water color, various types of drawing and "mixed media."

The full show, which is to run until Christmas, will be reviewed more fully by this column at a later date.

LITTLE MAN ON CAMPUS

By Dick Bisher

Man to Man

BY JOE TINDEL

Quite unusual for bonfire week, the sun was shining brightly yesterday but to see the looks on most Aggies faces it could have been a cold, rainy day.

However most of the dejection over being outscored at Houston Saturday was lived a bit by the presence of quite a number of the fair sex.

Here for the Texas Junior College Press Association convention, the feminine forms spread rays of hope all over the MSC.

Hardly before we can get a chance to get over the stunning blow from Rice, the fighting Aggie team and the 12th Man will face that ever-dangerous bunch from the University of Texas.

It's not hard for most of us to remember 1955, when the lowly teasips blasted us on Kyle Field and knocked the Aggies out of the championship picture.

This year's Longhorns are much improved from that team and, fired up to enormous proportions, they will be even tougher this year.

We know the team can come back to top form for the game but it will also be every student's job to make the 12th Man the best it's been this year.

Be careful while working on the bonfire! Let's make it not only the biggest bonfire in the world but also the safest.

3-Corps Honor Code

Articles IV, V Explained

(Editor's Note: This is the third in a series of articles giving the proponents' interpretation of the Corps Honor code.)

Interpretation of Article IV—The use of technicalities and/or evasive statements in order to shield guilt or defeat the ends of justice is nearly self-explanatory.

A man living under the code is proud that when he says something it is the truth and he will have no justifiable occasion to ever use technicalities or evasive statements. An example would be:

A second classman is reported being seen non-reg at the show at 2030 hours. He submits an explanation stating the report is believed to be incorrect and that he was not at the movie at 2030 hours. Later investigation proved he left the show at 2025. Therefore in the second classman's report, he used a technicality trying to shield his guilt.

Interpretation of Article V—While living under any system of rules and regulations, there will always be those very few individuals who think they must find an easy way through life by lying, cheating and stealing.

They will be few and far between, but these people will have to be found. Since the Honor Code belongs to the Corps, it is the responsibility of the Corps to protect it.

When any individual violates the code, he has 24 hours to turn himself in. If, at the end of this period, he has not done so, then anyone who knows of the violation is honor bound to turn in the individual involved.

This could easily be one of the hardest phases of the Honor Code to follow, if it were the purpose of the code to punish. The purpose of the code is to train men. It is not something to be used as a tool against the Corps.

In a true honor system all men will be motivated to live by the code and any person that refuses will not only be hurting himself but also the Corps. The Honor Code is for the benefit of the

Corps and those individuals within the Corps. In order for it to be effective any person that refuses to follow it must be punished.

By turning in someone when they violate the Honor Code, you are doing more for him than he has done for you or the Corps. By not turning him in for an honor violation, you have violated the code just as much as the individual who committed the act. There is no place in the Corps of Cadets for a man who must lie, cheat or steal.

Under our code, every man is responsible for his own personal honor; therefore, if a member of

the Corps of Cadets sees anyone violating the principles of the Honor Code, in order to protect his own personal honor, he must turn that individual in.

Job Interviews

The following interviews will be held in the Placement office:

Wednesday

White Sands Proving Ground, New Mexico, interviews mechanical, electrical, industrial, civil and electrical engineering, physics and mathematics majors at all degree levels. They also interview juniors in above majors for summer employment.

Colgate-Palmolive Company, Kansas City, Mo., interviews chemical, electrical, industrial and mechanical engineering majors for jobs in engineering and factory management.

Halliburton Oil Well Cementing

Company, Duncan, Okla., interviews mechanical, electrical and petroleum engineering, physics and chemistry majors for opportunities in mechanical research and development, chemical laboratories, equipment design, tool development, electronics research and field engineering.

Tandy Leather Company, Fort Worth, interviews business administration, economics and agricultural economics majors for jobs as store manager trainees.

Prudential Insurance Company of America interviews business administration, economics, agricultural economics, English, history and mathematics majors.

Men in the know know true from false

College grads employed in science earn more than the grads in Government service.

☐ TRUE ☐ FALSE

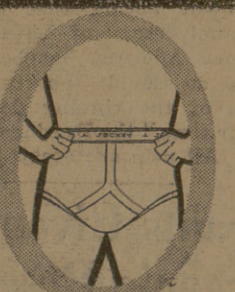

False. Surveys show that 38% of the grads in Government work were in the \$5,000 and above range; only 26% of those in science shared this income status. At \$7,500 and above, Government employed grads scored 2 to 1 over scientists.

Over 75% of U.S. college grads enter professions or reach top management in business.

☐ TRUE ☐ FALSE

True. In fact the percentage is closer to 84%! Census reports indicate that employment with the greatest prestige and income is overwhelmingly held by college grads. Some men without a college education make the grade, almost all college grads do.

Jockey brand briefs are tailored from 13 separate pieces.

☐ TRUE ☐ FALSE

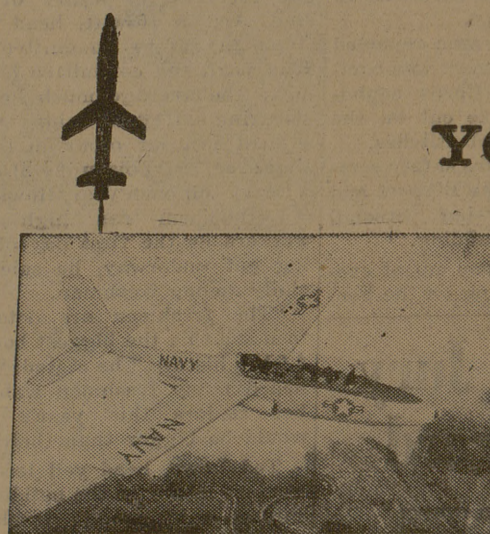

True. Only Jockey brand briefs are scientifically designed and tailored to fit the male figure trimly and comfortably. 13 separate pieces are expertly sewn together to achieve this perfect fit.

HERE'S YOUR CHANCE

to get the full story of
engineering opportunities
in America's most
dynamic industry...
aviation!

Temco Aircraft Corporation — one of the fastest-growing organizations in the industry — is sending an engineering representative to your campus to discuss with you personally the exciting Temco story of outstanding opportunities for young engineers.

WHAT'S YOUR SPECIAL INTEREST?

Right now, Temco offers immediate opportunities to creative young engineers in a wide range of design and development activities including trainer, utility and reconnaissance-type aircraft; high speed drones; guided missiles; and airborne electronic systems. Research and development programs are continuously being conducted both under contract to the armed services and as private ventures financed entirely by Temco.

Today, more than 150 different specialized skills are represented in the many groups that make up Temco's engineering department. Included in this list are specialists in such advanced activities as nuclear engineering, operations research, electronics guidance and thermodynamics.

Make your appointment now to meet the Temco representative. He'll tell you why the best opportunities in aviation engineering are at Temco!

THE BATTALION

The Editorial Policy of The Battalion
Represents the Views of the Student Editors

The Battalion, daily newspaper of the Agricultural and Mechanical College of Texas and the City of College Station, is published by students in the Office of Student Publications as a non-profit educational service. The Director of Student Publications is Ross Strader. The governing body of all student publications of the A. & M. College of Texas is the Student Publications Board. Faculty members are Dr. Carroll D. Lavery, Chairman; Prof. Donald D. Burchard, Prof. Robert M. Stevenson and Mr. Bonnie Zinn. Student members are W. T. Williams, John Avant and Billy W. Luby. Ex-officio members are Mr. Charles Roeder, and Ross Strader, Secretary. The Battalion is published four times a week during the regular school year and once a week during the summer and vacation and examination periods. Days of publication are Tuesday through Friday for the regular school year and on Thursday during the summer terms and during examination and vacation periods. Subscription rates are \$3.50 per semester, \$6.00 per school year, \$6.50 per full year or \$1.00 per month. Advertising rates furnished on request.

Entered as second-class matter at Post Office at College Station, Texas, under the Act of Congress of March 3, 1879.
