

Spring Sports Day Set

The "T" Association has announced its plans for the coming Sports Day activities to be held April 26.

Among the activities will be a golf match presenting A&M's Bobby Nichols, a water polo game by Coach Art Adamson's water polo team, and a baseball game between A&M's unbeaten club and the T.C.U. team.

Highlighting the days activities

will be the first public appearance of the new single-wing Aggie football team. All contests will be held in the afternoon except for the football game which will be held that night.

Tickets for Sports Day go on sale after the Easter Holidays. The price of a ticket for all the activities will be \$1. Student activity cards will not admit a student. Tickets may be purchased from any member of the "T" Association.

Texas Relays Attracting Host of 'Record Breakers'

The perennially record-busting Texas Relays open Friday with an army of more than 1,200 athletes who wondered yesterday if they would have to compete with rain along with classy competition.

Five national collegiate event winners and several stars of the 1956 Olympic Games are in Austin for one of the nation's earliest outdoor track and field carnivals.

The weather forecast said occasional showers would move in from West Texas during the day with temperatures nearly 70.

Bobby Morrow, the almost-unbeatable sprinter from Abilene Christian who won three gold medals at the Melbourne world meet, is again the standout attraction from the 1,223 entries. Morrow will have a chance to flick his heels in the special 440 and

880-yard relays but apparently will skip the 100-yard invitational because of a strained groin muscle.

Other headliners include the 400-meter hurdles champion from Ohio State, Glenn Davis; Kansas' Al Oerter, Olympic discus champion and relays record-holder, and Eddie Southern of Texas, runner-up to Davis and co-holder of the world record time.

National collegiate champions include California's Don Bowden, lanky pre-law student who is the only American to break the 4-minute mile, in the 880-yard run; John Fromm, Pacific Lutheran, who set a NCAA javelin record here last June; Don Stewart, SMU, in the high jump; Oerter in the discus, and Morrow in both the 100 and 220-yard dashes.

Kansas, Texas and Oklahoma

will bring the best balanced squads to the relays in the university-college division. There is no team championship awarded on a point system although an outstanding performer is selected.

Two preliminary events will be held Friday morning and remaining trials in the afternoon. Seventeen championship events will be staged Friday night and 23 more on Saturday afternoon.

Other of the nation's best athletes selected for the 1957 Collegiate Honor Roll to compete include Orlando Hazley, Oklahoma State sprinter; Gary Parr, Oklahoma, in the 440; Joe Villareal, Texas junior miler; Jerry McNeal, Kansas, two-miler stars who will concentrate on the relays; Keith Gardner, Nebraska hurdler; Churck Cobb, Stanford hurdler; Larry Cowart, Baylor shot putter; and Phil Delavan, Iowa State shot putter.

Examination Shows Basilio's Eyeball Free Of Damage

Carmen Basilio escaped any injury to his eyeball or retina, examination of the dethroned middleweight champion's puffed left eye disclosed Thursday.

However, four lacerations in Basilio's left eyelid required 12 stitches, it was reported at Chicago's Wesley Memorial Hospital.

Dr. Richard A. Perritt, Chicago eye specialist, said Basilio will need about a week to recover and that the rugged battler could fight again as soon as he feels strong enough.

RICHARD MONTMEAT is a 1947 Industrial Design Graduate of Pratt Institute, Brooklyn, New York. He joined General Electric's Television Receiver Department in 1948.

"A company that plans far ahead gives me the chance to work out my future"

"Pleasing design is no accident," says 32-year-old TV set designer Richard Montmeat. "It takes creative planning. At General Electric, we're constantly developing new product designs — including some for products which won't be on the market for several years. Ever since joining General Electric, I've had the opportunity and challenge of working toward the designs of the future. As I see it, a company which plans ahead gives me the chance to work out my own future, too."

The creative accomplishments of Richard Montmeat have already brought him widespread recognition. He was awarded design patents in 1950 and 1955; he won the Industrial Designers Institute Award in 1955; and his design for the 1958 General Electric 17-inch portable television receiver was se-

lected for showing in an international design exposition in Milan, Italy.

Progress in pleasing design — making appliances more enjoyable to own and use — is an important factor in our nation's growing use of electricity and in our constantly rising level of living. Planning now to satisfy future customers is important not only to the continued growth of the electrical industry, but to individual progress as well. Opportunity for long-range planning is part of the climate for self-development which is provided for General Electric's more than 29,000 college-graduate employees.

Progress Is Our Most Important Product

Aggie Fencers Place Twelfth In Nation

The Texas Aggie fencing team, in its first competition this season, faced the top fencing teams in the nation last weekend in Lubbock and managed to finish in a tie for 12th place. There were upwards of thirty schools competing, including Columbia, Cornell, Harvard and others.

Columbia captured the three-weapon crown of the 61st Inter-collegiate Fencing Association a few days ago, and reigned supreme at the NCAA contest held in Texas for the first time in the history of the event.

Though the Aggie fencing team was entering competition for the first time since the Southwest Conference discontinued fencing as a sport, they were able to tie with Texas Tech in the best Southwest Conference showing to date.

Last year, the Red Raiders placed 16th, which was the best accomplishment until this past weekend. Other SWC schools entering competition were Rice, Texas Christian and the University of Texas.

Joe Spurlock, sophomore from Fort Worth placed tenth in the foil in his first competition. Spur-

lock is a member of "A" Chemical.

Joe Elliott, a Tyler junior civilian student, placed 12th while Len Layne, a junior in "A" Infantry from Dallas placed 17th.

The good showing of the Southwest Conference schools might bring about a reconsideration on the part of the conference on classifying fencing as a sport.

Longhorns Blast Hapless Froggies With 13-Hit Attack

Texas' noisy bats continued to boom out yesterday as the Longhorns pounded out 13 hits to take an 8-4 Southwest Conference victory from TCU.

The Longhorns, who had 46 hits for 41 runs in their last three outings, scored seven runs off nine hits, a walk and one error in the first three innings while chasing Frog starter Darrell Read. They scored another run off reliever Ken Wineburg in the fourth.

George Myers went all the way to gain his second league triumph, yielding a walk, two singles and a double to L. B. Childs for three runs in the fourth and two singles and a sacrifice fly for the fourth TCU tally in the seventh.

The victory was Texas' third in league play without a loss. TCU, who tackles the Longhorns again today has lost all three of its starts.

Max Alvis and Jerry Good led Texas' attack with three hits apiece, including a double for each.

"Jockey brand underwear made me a brighter star!"

"You can't play Cyrano if you wear baggy underwear!" the drama coach told me. That was the day I bought my first pair of Jockey briefs. Quel fit! Quel comfort! I looked better and, amazingly, even my superb acting improved. Jockey briefs had made a dramatic change in my career!

"Now I get all the starring roles, thanks to comfortable Jockey brand underwear. And I wouldn't think of accepting a substitute. You see, only genuine Jockey brand briefs are tailored from 13 separate, individually shaped pieces. That is the reason they give you such a smooth, comfortable fit!"

Jockey briefs are the most copied underwear in the world. Be sure you get genuine Jockey brand—they're tailored to fit.
