

## Reception Held At VP's Home

Vice President and Mrs. Earl Rudder held a reception at their home last night from 8 to 10 p.m. for over 200 foreign and exchange students.

The reception was sponsored by the Campus Study Club, American Association of University Women and the Pan American Round Table.

Receiving the guests were Vice President and Mrs. Rudder; Mrs. Art Adamson, director Pan American Round Table; Mrs. John Ashton, chairman of the international relations group of the Campus Study Group; and Mrs. Iola B. Head, chairman of the international relations group of the American Association of University Women.

The program was devoted to music with Mrs. Joe Barron and Mr. Mitchell, singing; Mrs. A. B. Medlen, piano; and Mrs. John W. Hill, violin.

## Minister Talks On Importance Of Church Life

"We don't know enough about the church as we actually think we do," the Rev. Kenneth W. Copeland told Aggies attending the A&M Wesley Foundation's first meeting of the school year last night.

Rev. Copeland, pastor of the Travis Park Methodist Church in San Antonio and the Foundation's first annual speaker, discussed "The Calling of the Church."

Before an overflow of students, he stressed seriously the importance of God, Jesus Christ and the individual in the church.

"There never has been such a thing as a 'man-made' church," Rev. Copeland said. "Only God can make a church—not your parents, preachers or bishops, but God. Individuals may drop out of the church, but the church lives."

According to Rev. Copeland, "Jesus Christ is the foundation on which our churches stand and can only be built on Jesus Christ." He then said the church was founded on a question and an answer when God asked Peter, "Whom say ye am I?" and Peter said, "Thou art Christ, the son of God."

Rev. Copeland said that people who fail to believe Christ is the son of God, cannot be Christians. "The church is built on Christ but grows through its people," he said. "Because of the churches, students are as much a part of the kingdom of God away from home as well as at home. Students must think of themselves as a part of the church at home or a part of every Christian around the world. The student is not separated from his church at home. What he says or does is a reflection on his church."

## Adams Resignation Denied by Hagerty

NEWPORT, R.I.—The White House denied anew Wednesday that Sherman Adams has resigned, and press secretary James C. Hagerty said he knows of no plans for the top presidential aide either to quit or be fired.

These new denials came amid a growing "Adams-must-go" clamor from many Republicans along with published reports that a resignation is imminent.

Adams has been under fire for accepting costly favors from Boston industrialist Bernard Goldfine. He has denied doing any improper favors for Goldfine in return, but a number of GOP candidates say they fear their chances in the November election will be hurt if he stays in the White House.

On tiny Fair Isle in the North Sea the flocks of sheep graze on the grassy top of Sheeø Rock which is accessible only from the sea. By means of chafis, men climb the bare face of the rock, and lower bags of wool and young lambs to waiting boats.

Cooking terms: Ever see the lower-case initials "f. g." in a recipe? They stand for "a few grains."

## Clyde Beatty Circus To Appear in Bryan

The largest tented show on the road today will appear in Bryan Monday as the Bryan Kiwanis Club sponsors the Clyde Beatty Circus for an afternoon and evening performance.

It will be held on the American Legion Fair Grounds on Highway 21, east of Bryan. The afternoon show will begin at 3 p.m. and the night performance at 8 p.m.

The show features Clyde Beatty, wild animal trainer; Hugo Zaccini, the human projectile; and a wide assortment of trapeze, high-wire, animal and clown acts, said Gus Lampe, '50, president of the Bryan club.

Tickets are on sale at Black's Pharmacy at East Gate in College Station and at Jarrott's Pharmacy in Bryan. Advance ticket price is \$1.25 for adults and 90 cents for children below high school age.

Price of adult tickets at the box office will be \$1.50. Half of the proceeds on advanced ticket sales will go to the Kiwanis club to be

used in promoting the underprivileged children program in this area.

The circus is scheduled to arrive by rail Sunday and set up equipment Sunday afternoon and Monday morning.

"We can promise a clean program free from gambling games and gimmicks and suitable for the whole family," Lampe said.

Topping tip: When you want a crusty topping on macaroni and cheese or a similar baked dish, you'll find ¼ cup tiny fresh bread cubes mixed with a couple of tablespoons of melted butter or margarine will be fine for a 1½-quart casserole that's about 7½ inches wide and 2½ inches deep.

The largest travelling crane in the world is in the Chastang hydro-power station south of Paris. It is 66 feet wide and weighs 446 tons.

Rudder Meets Jordanian

Vice President Earl Rudder and S. Hussein, a student from Jordan, hold a conversation at a reception in Rudder's home last night. Over 200 students attended the meeting.

## DOHERTY--

(Continued from Page 1)  
Doherty pointed out that the legislature will be somewhat hampered in that it must find an additional \$130,000,000 to balance its planned almost \$1,600,000,000 budget.

"It's a mistake for the people of Texas to skimp on the teaching of the young people in this state," Doherty said.

**Nuclear Research Center**  
The planned \$2,000,000 nuclear research center was pointed out by the Houston business and civic leader as another step being taken by A&M in its program to boost technical instruction, especially on the graduate level. Figures show A&M to be devoting 53 per cent of its teaching efforts to technical courses while the nearest state-supported school is the University of Texas with 33 per cent, he said.

"The nuclear age is upon us," Doherty said in giving the purpose of the center. "It is our responsibility to provide the equipment and trained personnel to take over nuclear industries when they come to Texas."

While on this topic, he attributed some of the shortage in teaching and equipment funds to how funds are allotted.

### Fund Distribution

Funds are distributed on the basis of semester hours taught and it's obvious that it costs more to teach a technical subject than a liberal arts course, he said. "Plans are being formulated to change the basis for the distribution which will give schools offering technical courses more money."

"Colleges and universities are faced with a two-fold responsibility—to educate the masses to raise the general level of education and to provide the equipment and instructors for students capable of graduate-level work," said Doherty.

## Russians to Resume Nuclear Testing Soon

LONDON—UP—Radio Moscow said Wednesday the Russians probably will be forced to resume nuclear weapons tests. It declared, "The Western Powers are simply forcing the Soviet Union to take back its word."

The Soviet Union pledged in March to suspend hydrogen and atomic weapons tests, the English-language broadcast said, "and no one is yet able to accuse the So-

## Mike Maher Named AIEE Chairman

Michael G. Maher was named chairman of the American Institute of Electrical Engineers—Institute of Radio Engineers at the first meeting of the year Monday night.

Other officers are: Dan L. Giles, vice chairman; John C. Gregson, treasurer; Kenneth I. Dicke, secretary IRE; Jim Rector, junior representative to English Council; Roy G. Courim, secretary AIEE; Roger Boyd, program chairman; and Ralph A. Smith, membership chairman.

The AIEE-IRE will have a fall open house next Tuesday.

viet Union of not keeping its word."

"What is very important to emphasize is that the Soviet Union cannot remain indifferent very long to continuing nuclear tests carried out by the Western Powers.

"Leaders of the Soviet Union showed definite courage in halting experiments and we hoped the United States and Britain would follow the Soviet example.

"But there is a limit to our patience."

It continued: "If Britain and the U.S.A. continue to perfect nuclear weapons by means of text explosions, the Soviet Union also probably will be forced in the final analysis to resume tests.

"The Western Powers are simply forcing the Soviet Union to take back its word."

Both the United States and Britain have conducted nuclear tests in the Pacific this summer.

The Moscow pronouncement came in a broadcast discussion on "current topics" devoted to the agenda of the 13th U.N. General Assembly.

## Announcing the Fall Schedule of the CREATIVE ARTS COMMITTEE

### Memorial Student Center

David L. Atteberry, Chairman  
Emalita Newton Terry, Advisor

### FREE ART INSTRUCTION FOR STUDENT MEMBERS!

All interested persons in the College Station-Bryan area are cordially invited to become Associate Members and receive competent instruction for a small fee. No affiliation with the College necessary.

### INSTRUCTION OFFERED IN:

#### CRAFT

Mrs. Emalita Terry, Instructor  
Pencil Oil  
Charcoal Ink  
Conti Crayon Pastel Oil Chalks  
Watercolor Casein  
and others

#### ART

Mrs. Edra Davidson, Instr.  
Leather Ceramics  
Metal Lapidary  
Copper Enameling  
Silversmithing  
New Interior Design Class

#### SCULPTURE

Josef Tompa, Instructor  
CAST STONE CLAY

### CLASSES TO BEGIN THE WEEK OF SEPTEMBER 22.

FIRST GENERAL MEETING TUESDAY, SEPTEMBER 23, 7:30 p.m. in the Art Studio, third floor of the MSC. OPEN TO EVERYONE.

Register early in all Creative Arts classes for preference in work periods. Contact instructors in the Art and Craft studios in the MSC for further information. Phone VI 6-5721, Ext. 114 or Ext. 108.
