### A&M Newman Club Begins New Year With 'Red Mass'

The Newman Club of A&M will begin the new scholastic year by offering the annual 'Red Mass' in honor of the Holy Ghost in St. Mary's Chapel at 5:15 p. m. today.

The Mass takes its name from the color of the vestments which the priest wears. Red is symbolic of love and wisdom which are two of the attributes of the Holy Spirit. All Catholics are urged to attend. All students are invited.

A previous notice in The Battalion concerning the time of the Sunday services was in error. The correct time is 7, 8:30 and 10 a. m.

### Browsing Library Gets Shipment of New Records

New selections of 66 classical and semi-classical records arrived recently at the Memorial Student Center Browsing Library and more will be received in the next week.

### Courtesy Tickets Issued By Police

More than 400 courtesy tickets have been issued to students, employees, and faculty members since Saturday, Sept. 13, the first day of school, according to Fred Hickman, campus security officer.

The number of these courtesy tickets will diminish as the year progresses, he said. The money collected from traffic violations will be used for parking lot improvements.

Mrs. Mary Sue Ratcliff, librarian in the Browsing Library, said yesterday.

The orchestra selections contain symphonies of such composers as Dvorak (No. 5), Schubert (Nos. 8 and 15) and Tchaikovsky (Nos. 5 and 6). The overtures contain works of Weber as well as the Nutcracker Suite No. 1 by Tchaikovsky.

Beethoven's "Piano Concerto No. 5" and Brahms' "Violin Concerto" are recorded orchestrally with soloists.

The opera selections include some of the works of Verdi, as well as operatic arias of the famous tenor Caruso. Musical comedies such as "My Fair Lady" are also available.

Data of the library shows that approximately 150 students used the record rooms last week. Mrs. Ratcliff also says that the number tends to increase as the new students get accustomed to their scholastic routine and acquainted with the Browsing Library.

The Browsing Library offers records covering the field of music from classical to popular. From the files, it appears that the most requested records by the students frequenting the music rooms are in the popular field as Julie London's "Lonely Girl", Belafonte's "Calypso" and "Oklahoma" by Rodgers and Hammerstein.

### Church Aides To Be Honored By Methodists

The A&M Methodist Church will honor present and prospective workers in the area of religious education with a banquet at Del Marmol's at 7 Wednesday evening, announced J. T. Kent, chairman of the church commission on education.

Speaker for the occasion will be the Rev. Dr. Stanley E. Carter, pastor of First Methodist Church of Longview. Dr. Carter has long been interested in the field of religious education, having begun his ministry as educational assistant at First Methodist Church, Houston.

In 1956 he completed six years as superintendent of the Houston East District. In this position he helped strengthen the work of the church schools in the Houston area.

### Rains Slows Work On Parking Areas

Improvements on parking lots behind the Exchange Store, Law Hall and Puryear Hall have been delayed by the heavy rains which make it difficult to get the proper grade of gravel base.

The improvements began this summer in hopes of having them completed before September, said W. Howard Badgett, Physical Plants Manager.

The R. B. Butler Construction Co. of Bryan began work on the drainage of these lots. W. E. Knott Inc. added the gravel.

Funds for these improvements come from student fines collected throughout the year, Badgett said.

Gene Donovan, while battling W. F. Bailey, Jr. in a match at the Salt Lake Country Club, dazzled his opponent with a birdie, birdie, eagle finish on the 16th, 17th and 18th holes of the new course.

### Professor Given Research Grant

Dr. C. C. Doak, head of the Department of Biology, A&M announced recently that the Atomic Energy Commission has approved a \$14,500 research grant to Dr. Frederick H. Kasten, assistant professor in the department.

The new one-year grant provides for an expansion of a cancer research program which was started last year. It will supplement a previous three-year grant of \$25,000 from the National Cancer Institute.

Kasten spent six weeks this past summer as a research associate in the Department of Zoology at Columbia University. He had previous experience in the handling of radioisotopes in the summer of 1952 when he took the Basic Radioisotope Technique Course at the Oak Ridge Institute of Nuclear Studies.

Other laboratory personnel associated with the cancer studies include Mrs. Marie Hitchcock and Mrs. Vivian Burton. Miss Suzanne Ervin will also participate in the work, beginning October 15.
