

Milstead, Tracey Top in Conference

The throwing arm of Charley Milstead took the Aggie tailback into the Southwest Conference lead today in total offense and passing while end John Tracey stepped into the leading receiver role.

Milstead is fifth in the rushing department with 223 yards and a 2.8-yard per carry average, and first in passing with 594 yards for a total yardage of 773.

Tracey jumped from third to first in the pass-catching statistics, hauling down 20 passes—the majority of them thrown by Milstead—for 254 yards.

Ag Weight Lifters Place Second

The A&M Weight Lifting Club scored 22 points Friday night in Houston to place second behind the 1957 collegiate weight lifting champs, Mike's Gym of Lafayette, La. Mike's Gym scored 29 points for their victory.

N. D. Tolleson and H. E. Heatherly were the Aggies outstanding weightmen, scoring A&M's only two firsts. Tolleson's victory came in the 180-pound class while Heatherly scored in the middle-heavyweight department.

Second place winners for the Cadets were Fred Rodriguez in the middleweight class, Gene Almy in the light-heavyweight class and Ron Harrod in the featherweight class.

Old Spice

Splash on Old Spice After Shave Lotion. Feel your face wake up and live! So good for your skin... so good for your ego. Brisk as an ocean breeze, Old Spice makes you feel like a new man. Confident. Assured. Relaxed. You know you're at your best when you top off your shave with Old Spice!

AFTER SHAVE LOTION by SHULTON

Lack Of Speed Fails To 'Slow' Ag Tailback

Leading the resurgence of Texas A&M is a fellow who might be termed "the slowest tailback in single wing football." But Charley Milstead gets there firstest with the mostest.

When Milstead ran 74 yards to a touchdown against Baylor last week it was as big a surprise as the Aggies' licking the Bears 33-27. However, Milstead had nine blockers ahead of him. They had to wait for him at times but he made it.

Couch Jim Myers has worked out a system of getting Milstead places despite his proclivity for traveling like cold molasses. And he also has some other backs who furnished the running threat necessary to make the single wing's passing game work.

Milstead is the passingest man in the Southwest Conference. He has thrown for 594 yards and run for 223 and that makes him the league's top total offense man by a big margin.

Milstead also returned to glory because of a little self-discipline. He fumbled away a touchdown against Texas Christian so he carried a football to class with him all last week. He didn't come close to bobbling one against Baylor.

ROBERT H. SWISHER, B.S.E.E., GROVE CITY COLLEGE, '54, SAYS:

"I like my job. Here's why."

"I'm a radio transmission engineer for Bell Telephone Company of Pennsylvania. My work is interesting and full of variety, and I get all the responsibility I can handle. Have a look at today's assignment, for example — and see for yourself."

"8:30 a.m. I'm at my desk applying a new method for overcoming interference on Pittsburgh's mobile radio channels. It involves operating inactive channels on reduced power."

"10:45 a.m. Before any modifications can be made, it's important that I check apparatus and wiring options. That's what I'm doing here at the Remote Control Terminal equipment."

"1:30 p.m. After lunch, I take a company car out to the transmitter tower site. Here I check wiring and explain our plan to one of our mobile radio maintenance men."

"3:15 p.m. I review my proposed modifications of auxiliary control circuits with Supervisor Sid Graul. Now I'll prepare work orders, and next week we'll make operational tests."

"Final phase. The operational test is made from an actual mobile radio unit. I'll make test calls and monitor the channels from various points within the Pittsburgh area."

"See what I mean? I really get to 'carry the ball.' Soon I'll be taking a special course in advanced electronics at Bell Labs—a great opportunity. As I said—I like my job!"

Like Bob Swisher, you may find a bright engineering future at Bell Telephone Companies. Talk with the Bell representative when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.
