

# Ag Aerial Attack Falls Short; Hogs Win 21-8

The Arkansas Razorbacks roared down from the hills Saturday night to convince the Aggies on Kyle Field by a 21-8 mark that a speedy running game is better than a passing attack when it comes to making touchdowns.

Arkansas made only 10 yards via the aerial route, but racked up 248 yards on the ground to win going away. The Cadets relied on the passing arms of tailbacks Charley Milstead and Ed Dudley, but their air game proved impotent time after time in the final 10 yards needed for a touchdown.

Opportunity knocked on the door for the Hogs in the opening minutes of the game when wingback Randy Sims fumbled away the ball on the Ag 10. The game was scarcely three minutes old when the visitors scored on Jim Moore's run around left end. Halfback Don Horton kicked the extra point to make the score 7-0.

A&M struck back after guard Allen Goehring recovered a fumble on his own 26. Milstead unlimbered his throwing arm and quickly moved the Cadets downfield to the Arkansas 16 before the Razorbacks held and forced Milstead to try a field goal. The attempt was wide and Arkansas took over on its own 20.

The Aggies finally scored in the fading minutes of the half after Dudley had taken over the tailbacking chores. The march covered 65 yards, capped by Dudley crashing over from the 2 to score. He passed to end Ralph Smith for

the extra points and the Aggies led at the half, 8-7.

Arkansas' Joe Alberty opened up the third quarter by taking the kickoff 77 yards to the Farmer's 16 yard line. Jim Mooty scored for Arkansas, and passed to Billy Tranum to make the score 15-8.

Milstead took charge of the Aggies again and moved the team down to the Razorback 15 before Alberty picked one of his passes out of the air and ended the threat.

Alberty was again the Hogs' big

gun in their final drive, racing the 22 yards to the Aggie 11. Several plays later he dived over from the one to put the Razorbacks far out front, 21-8.

The Aggies took to the air with desperation passes the last quarter, but Arkansas defended it with a three-man line to stop each new thrust and protect its lead.

## SWC Statistics

Tailback Charley Milstead and end John Tracey dominated the SWC's statistics this week despite a 21-8 loss to underdog Arkansas.

As a result of the Arkansas game, both athletes should be high in the national averages. Last week Milstead was third in the nation in total offense while Tracey

was sixth in the receiving department.

In the conference the blond tailback is way out front in total offense with 1,006 yards to his credit, 779 of them via the aerial route. Tracey is 166 yards ahead of his nearest competitor in pass receiving.

## Oliver Takes Over for Gay

Gale Oliver, 195-pound junior from Refugio, stepped into his new position of blocking back yesterday as Coach Jim Myers shifted his forces to offset Aggie injuries suffered in their 8-21 loss to the University of Arkansas Saturday.

Oliver is replacing Tri-Captain Dick Gay, who was disabled for the season against the Razorbacks. Gay, a senior, underwent surgery in Houston yesterday morning for torn ligaments in his knee.

Oliver started the season at center, playing that position on the

first team until he was sidelined by injuries. He has the necessary speed and blocking ability for the spot, and was a standout as linebacker before his injury. Other shifts in the lineup came when Don Smith suited out in pads for the first time since the Baylor game. He was earlier thought lost for the season. The senior is currently running end on the No. 2 team behind his sophomore brother, Ralph, and replaces Travis Nevill who will miss Saturday's game with Southern Methodist University due to a knee injury.

Engineers! Scientists!

**WE'RE LOOKING FORWARD TO MEETING YOU**

Last year we had the pleasure of meeting many engineering and science seniors during our visit to the campus. As a result of our discussions, a gratifying number chose to join our company. We'll be back next week, and this notice is your invitation to come in and see us.

If you're interested in joining a company that's a leader in fields-with-a-future, you'll be interested in the advantages Boeing can offer you. Boeing is in volume production of Bomarc, the nation's longest range defense missile, and is a prime contractor on Minuteman, an advanced solid-propellant intercontinental ballistic missile system. Boeing also holds a Phase I development contract for Dyna-Soar, a manned space vehicle that will orbit the earth and be capable of re-entry and normal landing.

Research projects at Boeing include celestial mechanics, hypersonics, energy conversion, solid state physics, nuclear and plasma physics, advanced propulsion systems, space flight, and the effects of high temperatures on structures and materials.

Boeing is also the nation's foremost designer and builder of multi-jet aircraft. Production includes eight-jet B-52 global bombers, KC-135 jet transport-tankers and America's first jet airliner, the famous Boeing 707.

Expanding programs at Boeing offer outstanding career opportunities to graduates in engineering, science, mathematics, physics and related fields. Boeing's continuing growth, in addition, offers promising opportunities for advancement.

We hope you'll arrange an interview through your Placement Office. We're looking forward to seeing you on...
