

Job Calls

Friday
Tandy Leather Co. will interview BA, EDUCATION and I ED majors for positions in store management.

Civil Aeronautics Administration will interview CE and EE majors at BS level for positions in location of airport sites and in aircraft production and lighting systems.

First Copy Issued Of Walton's Paper

Walton Hall has published the first issue of its newspaper, "The Walton What-Not," according to Buddy Monaco, editor-in-chief.

Monaco, sophomore biology major from San Antonio, was chosen by the Walton Executive Council to head the publication, which will be published twice monthly.

"The function of this paper is to keep everyone in the dorm informed of its activities. This coverage will also include items of interest to the individuals and dorm as a whole," said Monaco.

Staff writers include Jim Bowen, Bill Ellis, Jack Bailey and Wynn Chapman.

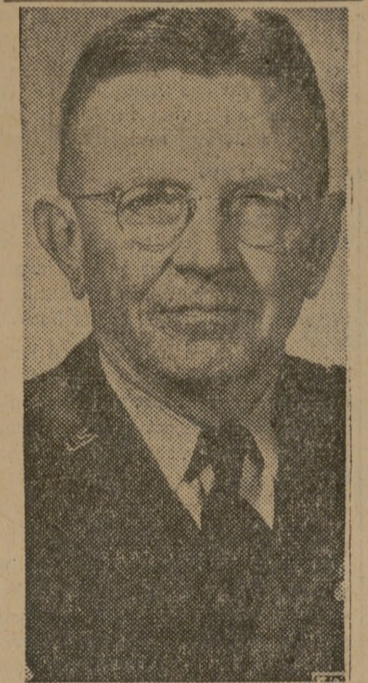

Mitchell Plans Dorm Newspaper

The Mitchell Hall Dormitory Council has appointed Sammy Joe Ferguson to take steps toward publishing a dorm paper.

The paper will be printed bi-monthly and will cover dorm news and topics of interest to dorm residents. It will place emphasis on intramurals and activities of the dorm council.

The first edition of the paper is scheduled for Nov. 13. It will feature a contest to select a name for the paper, a list of the dorm council members and a letter from Bill Thode, council president.

According to Ferguson, the biggest problem at present is the selection of an editor. The names of several men have been submitted for the job and they will be voted on at the next council meeting, Nov. 11.

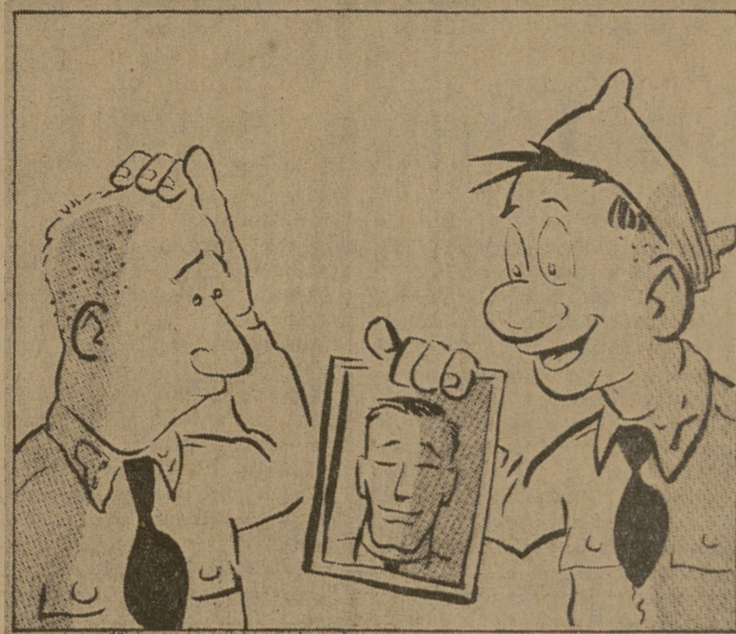

New Commander

Brig. Gen. Clayton Kerr, has been named to succeed Maj. Gen. Albert Sidney Johnson as commanding officer of the 49th Armored Division of the National Guard. Kerr was also promoted to major general. (AP Wirephoto)

TASPA Sets Meet Here Nov. 10 - 12

Ideas on various phases of student personnel programs will be exchanged when representatives of 30 to 40 colleges and universities gather on the campus, Nov. 10-12, in the Memorial Student Center.

Deans, counselors and guidance personnel will be here for the annual conference of the Texas Association of Student Personnel Administrators. B. A. Zinn, director of Student Personnel Services, is conference vice-president.

W. L. Penberthy, director of Student Activities, will give the welcome address at the general session on the morning of Nov. 11.

Dr. Arthur H. Moehlman, professor of history and philosophy, University of Texas, will address the conferees at the general session on the subject "Academic Trends in Higher Education."

E. T. Bowers, director of the Student Union, Sam Houston State College, will be the presiding chairman for a panel discussion on the relationships of the student union to the student personnel program. Panelists will be J. Wayne Stark, director of the MSC; Fred Bryson, director of the Student Union, Southern Methodist University; and Calvin Cleve Nolen, director of the Student Union, University of Texas.

Bizzell Hall Plans Wild Game Dinner

A wild game dinner for Bizzell Hall students will be held Jan. 8, 1959, Clarence Meeks, president of Bizzell Hall Dormitory Council said recently.

Deer, dove and other wild game will be brought in by Bizzell students and stored in Sbis Dining Hall's freezer until the day of the feed. Meeks said that an actual time and place for the feed has not been decided as yet.

Money for the dinner and other activities is included in a \$2 dormitory fee. The two dollars covers cost of campus chest, dormitory picture, donation to the janitor, wild game dinner and second semester party.

"The purpose of the dinner is to get a better relationship between the students of Bizzell," Meeks said.

Five winners of the McLennan Handicap at Hialeah Park have gone on to win the \$100,000 Widener at the Miami track. They are Many Stings, Armed, El Mono, Coaltown and Spartan Valor.

Air Force May Try Moon Shot Friday

WASHINGTON (AP) The Air Force may take its third potshot at the moon early Friday.

Like its two predecessors, the new lunar probe is designed to:

1. Measure variations in radiation along a 2 1/4-day journey toward the moon.

2. Provide data on the intensity and extent of magnetic fields of the earth and the moon.

3. Report the number of impacts with meteorites.

4. Scan the far side of the moon with a television image device and relay to earth impressions that would be converted into crude photographs.

Also like those in the most recently launched probe, the 25 pounds of instruments aboard the new space traveler will be thoroughly sterilized 24 hours before blastoff, against the extremely remote prospect that it might actually hit the moon.

Scientists have agreed to make every effort to avoid lunar contamination until after earthmen have had a chance to explore the moon's virgin surface.

The launching site is Cape Canaveral, Fla. There, another Thor-Vanguard combination lunar probe rocket is on its firing pad and at the ready.

And the calendar, inflexible guide for lunar firings, said the early morning hours of Friday would be the first period in this month suitable for a moon rocket launch.

If for one reason or another there is no firing then, similar favorable periods occur in the early morning hours of Saturday and Sunday.

Social Whirl

Aggie Wives Bridge Club will hold its regular business meeting tonight at 7:30 in the MSC. Hostesses will be Marge Blake and Alleene Groves for the regular group, Dorla Dittman and Jackie Dubois for the intermediates and Mona Jo Bice and Lela Porter for the beginners.

Chemistry Wives Club will meet Monday night at 8 at the home of Mrs. Isbell, 1106 Marsteller.

Journalism Wives Club will meet in the Anderson Room of the YMCA tonight at 7:30.

AFS Seniors to Get Brass Name Plates

The American Foundryman Society is making brass name plates for their graduating seniors.

The society presents the plaques in their last meeting in appreciation of the work by the seniors for the society.

The name plates are two inches high by 14 inches long.
