

Wants to Make West Berlin a Free City

Khrushchev Requests Ike To Visit Russia For Talk

MOSCOW (AP) — Soviet Premier Nikita S. Khrushchev Thursday urged President Eisenhower to visit the Soviet Union and challenge the United States to participate in making West Berlin a free city under United Nations responsibility.

"Why should we preserve such a situation?" he asked. "Would it not be better to put out the fuse? It would be difficult to find another solution that would be in the interests of the two German states and at the same time would not be offensive or do damage to other interested powers. The conversion of West Berlin into a free city is such a solution."

The West has refused to consider this plan. But Khrushchev linked it to the whole situation concerning divided Germany. Doing away with this point of tension, he said, would ease East-West relations.

Khrushchev spoke with the knowledge that Britain's Prime Minister Harold Macmillan will visit here 16 days hence.

In urging Eisenhower to follow, the Soviet leader observed: "If the President should wish to come to our country he would be received with heartfelt hospitality both by our government and the Soviet people. He can take along anyone he likes. They will all be welcome guests."

"Let the President study a map of the Soviet Union and pick out the places in our country he would like to visit. Ours is a big country and there are many interesting places in it worth visiting and seeing. His visit would unquestionably be useful to both our countries and would surely be approved by the people of the U.S.A. and the Soviet Union," Khrushchev said.

"We are extending this invitation without insisting on reciprocity."

That remark seemed to reflect annoyance at news that Eisenhower had rejected the idea of a Khrushchev visit to the United States similar to the tour made recently by Soviet Dep. Premier Anastas I. Mikoyan.

Macmillan Seeks To Chill Cold War

LONDON (AP) — Prime Minister Harold Macmillan announced Thursday he is going to Moscow Feb. 21 for a visit that he hopes will take some chill out of the cold war. With the blessing of Britain's NATO allies, he expects to stay a week or 10 days.

"We and our allies may be better able than to judge what our policies and actions should be," he told the House of Commons.

"My principal purpose will be to try to dispel misconceptions and establish some basis for better understanding."

In Moscow, Soviet Premier Nikita Khrushchev expressed hope that President Eisenhower will also accept a Soviet invitation for a visit.

Macmillan, a shrewd salesman, will be speaking only for Britain in his contacts with Soviet leaders. But his mission to Moscow is a sort of scouting trip for all the allies.

Foreign Secretary Selwyn Lloyd

will accompany him.

The 64-year-old Macmillan made his announcement after two days of talks with U. S. Secretary of State John Foster Dulles in which new ideas on the Gergan issue were fully discussed.

Dulles described himself as very satisfied with the results. Then he flew on to Paris, where he will confer Friday with President Charles de Gaulle. Next will come weekend consultations in Bonn.

Macmillan emphasized his aim is to sound out the Kermlin's views on Western proposals for averting a hot war — not to conduct formal negotiations.

Afterward, he said he hoped to consult in Bonn, or Paris, or Washington.

SMU Back Coach Takes Arizona Job

TUCSON, Ariz. (AP)—Jim Larue, 34, backfield coach at Southern Methodist, was appointed head football coach at the University of Arizona yesterday.

Larue has been an assistant to SMU's Bill Meek at three different colleges.

Arizona had a 3-7 record in 1958. The new coach said it would take three to four years to bring winning football to Arizona.

Physicist Honored By Teachers Group

Dr. James G. Potter, head of the Department of Physics, has been honored by the American Association of Physics Teachers for distinguished service to the teaching of physics.

He was presented a distinguished service citation Jan. 30, at the Association's annual meeting in New York City.

Only two such awards were presented by the association. The other recipient was Dr. William C. Kelly, educational director of the American Institute of Physics, New York City.

Potter became head of the department in 1945, after leaving the Bell Telephone Research Laboratories where he was a research physicist. Prior to his wartime research position, he was head of the Physics Department at South Dakota School of Mines and Technology.

Hong Kong, a British dependency on the coast of China, is an island of 32 square miles with a population of one million.

Venetian Blinds, How Nice

R. P. (Rob) Coffman, executive officer of B Field Artillery, was mightily surprised when he unlocked his room when returning from the between semesters break. He saw a big change in his room—venetian blinds on both windows. Blinds were installed in every room of Dorms 6 and 12—one of a series of improvements made on the campus during the holidays. (See related story on page 1).

Aggies on Duty

Camper, '58

Army 2nd Lt. Raymond E. Camper Jr., whose parents live at 4912 Beech St., Bellaire, recently completed the officer leadership course at The Infantry School, Fort Benning, Ga. Instituted for officers who have not yet served with

troops, the 15-week course is designed to familiarize each new officer with the administrative and tactical responsibilities on an infantry unit commander. The 22-year-old officer entered the Army in October, 1958. He was graduated from Lamar High School in 1954 and from A&M in 1958.

*** Lyon, '58

Army 2nd Lt. William J. Lyon, 22, son of Mr. and Mrs. William E. Lyon, 1008 San Jacinto, Crockett, recently completed the officer leadership course at The Infantry School, Fort Benning, Ga. Lt. Lyon was graduated from Crockett High School in 1954 and A&M in 1958. He was employed by the Texas Highway Department, Lufkin, before entering the Army.

*** Anderson, '58

Army 2nd Lt. Lawrence D. Anderson, 23, son of Mr. and Mrs. Lawrence E. Anderson, 6503 Pettain Ave., Dallas, recently completed the officer leadership course at The Infantry School, Fort Benning, Ga. Lt. Anderson graduated from Woodrow Wilson High School in 1953 and A&M in 1958.

Buford to Preside Over Soil Savers

Ronald E. Buford, '59, agricultural economics major from Livingston, has been elected president of the recently organized Student Soil Conservation Club.

Other officers are Bobby Carlie, '59, agronomy major from Stanton, vice-president and program chairman; John A. Evans, '59, range management major from Woodville, secretary and reporter; and Allen A. Marburger, '60, agronomy major from Paige, treasurer and social chairman.

Calvin C. Boykin, an assistant professor in the Department of Agricultural Economics and Sociology, is the faculty advisor.

Purpose of the club is to keep students more closely informed of Soil Conservation Service operations and plans, to learn more servation and to interest students about soil, water and plant conservation in prospective employment.

BERNBURG WAS A GOOD BUY

OCEANPORT N. J. (AP)—Trainer William Hal Bishop has been keeping Bernburg eligible for some of Monmouth's stakes races. In six months under Bishop's care Bernburg has won \$44,334. Bernburg cost \$45,000. He is owned by Ed Holtzinger of Tampa, Fla.

BS CANDIDATES Choose employment or graduate study MS, PhD CANDIDATES Choose direct assignment ... As an RCA Engineer Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part time at the University of Pennsylvania or Rutgers University. Or, you may prefer a different path ahead... RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments. Experienced engineers and interested management guide your progress. You may receive assignments in design and development of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in Electron Tubes, Semiconductors and Components. MS, PhD Candidates are eligible for direct assignments in the above mentioned fields. There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus— Feb. 20 Right now, though, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a resume to: Mr. Robert Haklisch, Manager College Relations, Dept. CR-11 Radio Corporation of America Camden 2, New Jersey Tomorrow is here today at RCA RCA RADIO CORPORATION of AMERICA
