County Officer Conference Set For Feb. 24-27

The County Judges' and Commissioners' Conference, sponsored by the Agricultural Extension Service and the County Judges' and Commissioners' Association, will be held Feb. 24-27 in the Memorial Student Center.

The conference will present solutions to problems experienced by county judges and commissioners and will familiarize them with the many valuable sources of information available for their use, according to V. G. Young, state agricultural agent and coordinator for the Agricultural Extension Service.

Those attending the conference will be divided into a judges group and a commissioners group to discuss problems in their own field, and will be combined later for a discussion of common problems, Young said.

Landscape Course Underway in MSC

"Planting Design" and "Civic Responsibilities of Garden Clubs" are two of the topics that will be discussed in the Landscape Design Study Course now being held in the Memorial Student Center.

The course is mainly for members of garden clubs throughout Texas but is also open to the public. It will close Friday.

Mechanical Grade Processor

R. V. Hite, data processing supervisor for the college, and Mrs. Barbara Moore, recorder, insert grade reports into the IBM No. 407 Accounting Machine. The device, used for posting grades, should save the college approximately \$5,000 annually and equal the output of two people.

Registrar's Office Adds New Machine

By BOB EDGE
 Battalion Staff Writer

A significant improvement in the efficiency and amount of time required for the processing of students' records and fiscal department operations has been announced by Raymond V. Hite, data processing supervisor for the college.

Pistol Team Wins AF Academy Meet

The A&M pistol team shot a team total of 1,356 points to win the Air Force Academy pistol match last Saturday.

The hosting academy won second with 1,326 points. They were followed by the University of Wisconsin with a 1,131 team-total.

Aggies also took first and second place in individual scoring. Henry Gill shot a 285 out a possible 300 points to take first. Charles Benson was second with 276.

Other Aggies making the trip were Charles Bollfrass, team captain; Cyril Adams; James Wilson; and Tom Wilson.

S&S Club Pig Wins Third Place

A Poland China pig exhibited by the Saddle & Sirolo Club placed third in the open show competition last Monday at the San Antonio Livestock Exposition.

The club also exhibited a Duroc, which placed fourth, a Hampshire which also placed fourth and a Berkshire that came in seventh in the competition.

The pigs will be sold Friday and the proceeds will be used for various club activities including judging team trips, Little Southwestern Livestock Show awards and to purchase pigs to feed and exhibit next year, Martin Graham, club president, said.

This development is due mainly to the introduction of the IBM 407 accounting machine by the Registrar's Office. This workhorse, when fully developed, should save the college approximately \$5,000 annually and equal the output of two people, Hite said.

Introduced in September, the machine is presently being used to record the names, number of courses, hours credit and grades on each student's permanent record. This work, previously typewritten over a period of months through the semester and can now be done in one-eighth the time. It is also used in preparing such data as payroll checks and inventory records.

Students who entered A&M this year are having their records prepared by the new machine and in approximately four years all old-type records should be phased out, he said.

According to Hite, "The new machine makes possible improved procedures and form designs. It also has many new or improved features such as its speed."

Rented by the college at a cost of \$800 a month, the new accounting machine is only one part of the general program of the Registrar's Office for modernizing and improving the procedures related to students' records processing from admission to graduation.

Prior to installation of this new machine and process, a study was conducted by the college of similar operations in other colleges and universities, and it was found that approximately 20 of them were employing this method, said Hite.

Social Whirl

Aggie Wives Bridge Club will hold its regular meeting tonight in the Memorial Student Center. This is the last meeting for new members to join the beginner's classes.

Journalettes will meet tonight at the home of Jeanette Coston, 102-A Batts in Bryan.

At their last meeting plans were made to give curtains and art supplies to the College Station Community Kindergarten. They also decided to have a white elephant booth at the carnival sponsored by the Aggie Wives Council later in the spring.

Esther McNutt was chosen to represent the club in the Cotton Pageant which will be held on April 17.

Aggie Wives Council has announced that Mrs. Bennie Zinn will be its sponsor. Carolyn Thomas of the Business Administration Wives Club has been chosen parliamentarian for the spring semester.
