

### O&M Department Receives Grants

Grants totalling \$95,000 have been received for research studies in the Department of Oceanography and Meteorology, Dr. Dale F. Leipper, head of the department, has announced.

The research will be conducted by Dr. Basil W. Wilson, associate professor of oceanography. Funds for the studies will be administered through the A&M Research Foundation.

A grant of \$15,000 from the David Taylor Model Basin of the U.S. Navy Department is for a one-year analytical study of the response to wind, wave, surge and current actions of ships moored in deep water.

Wilson has received \$20,000 from the Engineering Foundation of New York, the Humble Oil and Refining Company, the Magnolia Petroleum Company and the Office of Naval Research for a one-year study on the application of graphical techniques for forecasting waves generated in moving wind systems over deep and shallow water.

### Wesley Foundation To Begin New Plan

The A&M Wesley Foundation will inaugurate a new program idea, Wednesday night at 7:15.

Different interest groups will be formed by the students as they arrive at the foundation. These groups may discuss anything from "What is the Christian View of Race Relations?" to "Can a Christian be involved in Politics?" They may also form activity groups: drama, singing, community social action etc.

All interested persons are cordially invited to attend.

### Water Seminar Scheduled Here

The 41st annual Short School of the Texas Water and Sewage Works Assn. will be held March 1-8.

Eight hundred or more operators of water plants and sewage plants, city engineers, water superintendents, sewage superintendents and sales engineers are expected to attend the conference.

Fred J. Benson, dean of the School of Engineering, will give the welcome address at the opening general session at 9:30 a.m. March 2. J. E. Williams of San Angelo, president of the Texas Water and Sewage Works Assn., will preside.

The banquet speaker will be Louis E. Throgmorton, vice president and director of public services, Republic National Insurance Co., Dallas. His topic will be "America Suits Me."

Other speakers will include Dr. Henry A. Holle, State Commissioner of Health, Austin; L. F. Warwick, U. S. Public Health Service, Washington, D. C.; Ralph Fuhrman, executive secretary, Federation of Sewage and Industrial Wastes Assn., Washington, D. C.; and Hayse Black, Robert A. Taft Sanitary Engineering Center, U. S. Public Health Service, Cincinnati, Ohio.

The short school is sponsored annually by the State Department of Health, the Southwest Section, American Water Works Assn., the State Board for Vocational Education and A&M.

Joe Sorrels, professor of sanitary engineering, is in charge of arrangements.

Japan's toy industry finds its largest market in the United States.

### Consolidated Mother's, Dad's Club Plan for Annual Community Supper

The Mother's and Dad's Club of A&M Consolidated School are making plans for the annual community supper on Thursday, March 5, in the A&M Consolidated School Gymnasium.

The supper will be the chief event planned in connection with Texas Public School Week, March 2-6.

Co-chairman for the supper are Mrs. T. O. Walton Jr. and Mrs. James Dozier. They have named the following committees to aid them: Tickets, Mrs. Monk Vance; Publicity, Mrs. Dick Hervey; Treasurer, Neal Randolph; Potato Chips and Relishes, Mrs. Don Dale and Mrs. J. W. O'Brien; Cole Slaw, Mrs. Barney Welch and Mrs. John Sperry; Desserts, Mrs. John Riggs and Mrs. John Bogard; and Rolls, Mrs. John Quisenberry.

### AEC Film Shown In MSC Tonight

An Atomic Energy Commission film entitled "Research into Controlled Fusion" will be shown by the A&M Physics Club in Room 323 of the Physics Building tonight at 7:30.

The film, open to the public, will last about 40 minutes. It shows all the current research programs to harness the energy of the hydrogen bomb. The methods being attempted in laboratories throughout the country are described.

The National Bureau of Standards has said that a wood siding of white keeps a house cooler.

White paint, it reports, gives more protection against the sun than aluminum, colored paints and other surfaces.

### Meats Class Makes One-Day Field Trip

The Animal Husbandry 307 meats class took a one-day field trip to the Houston Packing Company February 17.

Nineteen students and Dr. G. T. King, assistant professor, observed the complete packing house operation from the purchasing of livestock in the stockyards to the finished products ready for distribution to consumer outlets.

The use of the most modern equipment along with that which has been used for fifty years in the meat packing industry was observed.

Seen also was the actual buying of the livestock; the methods of slaughtering cattle and hogs; the cutting of pork and the cutting and boning of beef; and the curing, smoking, slicing and packaging of bacon and ham.

The processing of by-products was also observed by the class. These included the manufacturing of bone meal and the curing and shipment of hides.

The National Bureau of Standards has said that a wood siding of white keeps a house cooler. White paint, it reports, gives more protection against the sun than aluminum, colored paints and other surfaces.

### Highway Problems To Be Discussed

Design, construction and maintenance problems facing highway engineers in today's accelerated highway construction program will be discussed at the 33rd annual Highway Short Course March 10-12.

Highway engineers and other interested persons—about 800 total—are expected to attend the short course which is sponsored by the Department of Civil Engineering and the Texas Transportation Institute in cooperation with the Texas Highway Department.

Vice President Earl Rudder will welcome the conferees at the opening general session at 9:30 a.m. March 10.

Principal conference speaker will be H. B. Zachry, president of the H. B. Zachry Co., San Antonio, and a member of the A&M board of directors.

Other speakers will include State Highway Engineer D. C. Greer and members of the State Highway Commission.

The short course in the Memorial Student Center will include conferences on highway design and traffic control, management, pavement and construction operations, structures and hydraulics, right of way, maintenance operations and urban highway planning and design.

The section on urban planning and design was just added this year and will be of particular interest to city engineering personnel.

Charles J. Keese, professor of highway and traffic engineering, Department of Civil Engineering, and research engineer, Transportation Institute, is general chairman of the conference.

Conference program coordinators are Keese; Charles Pinnell, assistant research engineer; C. V. Wootan, associate research economist; B. M. Galloway, associate research engineer; T. J. Jones Jr., associate research engineer; W. G. Adkins, associate research economist; and W. R. McCasland, research assistant. All of the coordinators are from the Texas Transportation Institute.

Between 1948 and 1956 the output per man increased by two-fifths on British farms.

They said it couldn't be done...  
They said nobody could do it...  
but —  
L&M is Low in tar with More taste to it

Don't settle for one without the other!

"L&M is kindest to your taste because L&M combines the two essentials of modern smoking," says TV's Jack Lescoulie. LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar. MORE TASTE: L&M's rich mixture of slow-burning tobaccos brings you more exciting flavor than any other cigarette.

**LIVE MODERN... CHANGE TO MODERN L&M**

By Charles M. Schulz

**PEANUTS**

YOU KNOW WHAT I HATE TO HEAR?  
I HATE TO HEAR SOMEONE SAY "GO ON HOME!" THAT REALLY GETS ME!  
THE ONE THAT GETS ME IS "YOU'RE TOO YOUNG!" THAT JUST INFURIATES ME!  
THEY'RE BOTH WRONG. THE MOST OBNOXIOUS PHRASE OF ALL IS, "HERE, KITTY KITTY!"

Jane sees Tom. Tom can skip. Jane can skip.  
Rex sees Jane and Tom. Rex runs to Jane and Tom.  
HOW DO YOU LIKE IT SO FAR?  
GREAT! GREAT! DON'T STOP NOW!  
I'M GLAD YOU LIKE IT. LATER ON THE SUSPENSE BECOMES ALMOST UNBEARABLE!
