## Instructs CS Engineer

# City Council Orders Paving Of City Streets

The College Station City Council last night passed an ordinance (No. 280) declaring that streets be paved and instructing the city engineer to prepare plans and specifications for the improvements.

The ordinance orders the improvement of certain portions of Walton Drive, Kyle Ave., and several other streets and places in the city.

## Panama Officials Observes Troops On San Blas Beach

PANAMA (AP)—The government claimed Monday that it had under observation an invasion force of 79 Cubans and one Panamanian who landed early Saturday on the desolate San Blas Peninsula.

Three of the four Panamanians with the original force of 86 had been drowned or captured. The party, including one woman, was said to be moving slowly along the eastern shoreline under the observation of air and sea forces. Joe D. Bazan, minister of government, said the National Guard is ready to demand that the invaders surrender.

National Guardsmen exchanged gunfire with an advance patrol of the invasion force along the beach and may have killed one man, National Guard headquarters reported later. The guardsmen suffered no casualties.

Three of the invaders, two Cubans and a Panamanian, already had been captured and brought to the capital. They were several miles in advance of the main party spotted at Santa Isabel on the coast, and were rounded up without resistance by a National Guard corporal and a posse.

The Panamanian prisoner, Guillermo Gonzales, told newsmen that "so far as I know," the invasion was plotted by Roberto Arias, prominent lawyer and diplomat who broke with the government a year ago.

## At CSC Banquet

# Leipper Tells Councilmen Of Importance of Science

By DAVE STOKER  
Battalion News Editor

The Civilian Student Body and the Corps of Cadets can and must work together to maintain A&M as the best technical and scientific college in the South and Southwest, Dr. Dale F. Leipper, said last night at the Civilian Student Council Banquet.

The banquet was held in the Assembly Room of the Memorial Student Center.

Guest speaker Leipper, head of the Department of Oceanography and Meteorology, told those present at the banquet that "we must build respect for technical things in order to keep abreast of the times."

Leipper pointed out that "it is not the lack of faults, but the abundance of power that makes an institution great." He said that A&M must select the areas that it can do its best work in, and reward scholastic ability more.

"We must work on recruiting and get the best students to come to A&M and make them feel welcome," he said.

Leipper also pointed out the good and bad aspects of A&M. As

long you stay in school that benefits a person. "In college," he said, "we must find what it is to obtain success." He said the student must benefit from his losses.

Bennie A. Zinn, Director of Student Personnel Services, presented a short talk at the banquet. He urged councilmen, especially those graduating in the spring, to talk about the finer aspects of A&M to attract students to attend the college.

Robert O. Murray Jr., Adviser to the Civilian Student Council, presented various awards and talked on the outstanding work of the Civilian Student Council.

A. M. Hoffpauir, Day Student representative to the Council, was presented the award for the outstanding Civilian Student Councilman of the year. The Apartment Council won the award for the best housing unit council of the year. Those councilmen serving a full year on the council were presented with keys by Murray.

Receiving keys were Tommy Beckett, president; Charles Graham, vice president; Fred Pendleton, secretary; Jack Little, parliamentarian.

Leipper said that it does not matter what you study nor how

long you stay in school that benefits a person. "In college," he said, "we must find what it is to obtain success." He said the student must benefit from his losses.

## E. D. Contest Scheduled for This Weekend

The annual A&M Engineering Drawing Contest, sponsored by the Department of Engineering Drawing will be held Saturday at 1 p.m., in Room 315 of the Engineering Building, Ralph H. Davey, assistant professor announced today.

The contest will consist of competition in four classes—working drawing, descriptive geometry problems, freehand lettering and freehand drawing. Any student recommended by a drawing instructor is eligible to enter the contest.

For the first time in a contest the new equipment of the Department, including drafting machines and low linoleum-topped drawing tables, will be used by the contestants.

Prizes will be awarded to first, second and third place winners in each class.

Complete rules for the contest are posted on the Department of Engineering Drawing bulletin boards and are available from any member of the department staff.

S. M. Cleland is chairman of the committee for the contest.

## MSC Opens '59-60 Room Reservations To Students May 1

Requests for Memorial Student Center guest room reservations for the football weekends, or any of the major event weekends, for the 1959-1960 school year will be accepted from students and former students during the month of May. Only one room per family can be reserved for each event.

Following the May 31 deadline, the drawing will be held to determine who will receive accommodations. After the drawing, notices will be mailed to each person submitting requests for guest room reservations indicating whether or not their names were drawn. The requests not drawn will be placed on the "waiting list," and those persons making the requests will be notified at least two weeks before the event should a room become available due to cancellation.

A deposit will be required of those persons receiving a reservation. Unless this deposit is received no later than two weeks prior to the event, an automatic cancellation will occur.

## MIT Dean To Give Speech Tonight

Dean John E. Burchard of the School of Humanities and Social Studies, Massachusetts Institute of Technology, will deliver an address tonight at 7:30 p.m. in the lecture room of the Biological Science Building.

"The State of Architecture in America," will be discussed by the dean. He is being brought here by the Division of Architecture in the guest lecture series.

Burchard is administratively responsible for the undergraduate and graduate work in economics, psychology, political science, international relations, labor relations, history, literature, philosophy, music and modern languages.

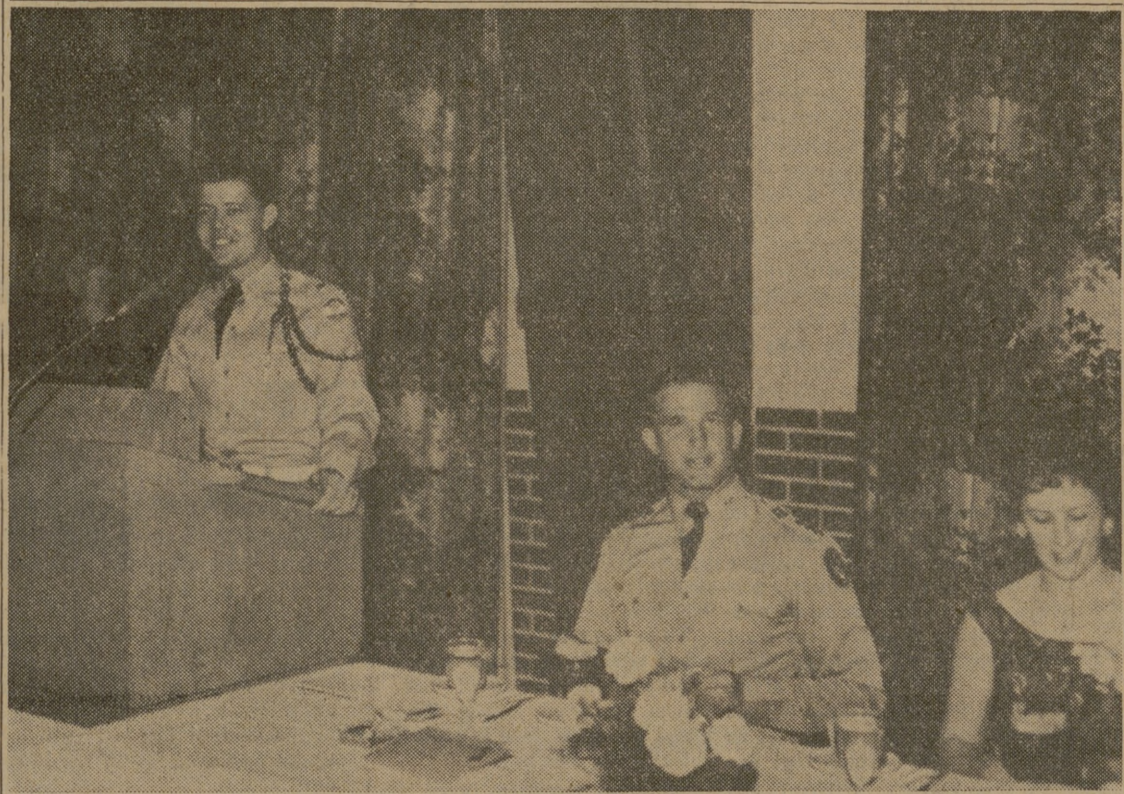

## Slide Rule Contest Winners Named

Winners of the Tau Beta Pi slide rule contest were awarded prizes totaling \$50 by Dean of Engineering Fred J. Benson Friday.

The contest was held March 20 to end a slide rule course taught by Tau Beta Pi.

The winners included William Davis, first place, \$25; James C. Carner second place, \$15, and William Osborne, third place, \$10.

## MSC Council, Directorate Present Awards at Banquet

The Memorial Student Center Council and Directorate presented 24 Appreciation Awards and 3 Distinguished Service Awards at the ninth annual MSC Council and Directorate Awards Banquet Friday night.

The meeting was the final meeting of the 1958-59 MSC Council and Directorate as new officers for the 1959-60 school year officially assumed their jobs at the banquet.

MSC Council President Ronald E. Buford outlined the future of the MSC program at the meeting.

Receiving Distinguished Service Awards were Buford; W. A. (Bill) Myers, SCONA IV Secre-

tariat chairman; and Hiram T. French, Council member and vice president of Region IX of the Association of College Unions.

Those receiving Appreciation Awards and the office they held in 1958-59 include:

Jerry Horn, Radio Committee Chairman; Wayne Schmidt, Camera Committee chairman; Thomas O. Lake Jr., Bowling Committee member; David Plylar, Film Committee chairman and Council member; George Stansell, Great Issues Committee chairman; John T. Vaughn Jr., Great Issues Committee arrangements head; Len J. Dorney, Great Issues Committee publicity director.

Dennis Ryan, Flying Kadets committee chairman; Archie M. Kahan, advisor to the Flying Kadets Committee; Gordon Reynolds, Recital Series Committee chairman; James R. Jones, Recital Ser-

ies Committee; Robert T. Pfeuffer, SCONA IV chairman; John H. Lindsey, SCONA IV Advisor; Charles H. Robison, SCONA IV Transportation Committee chairman; Frank Buchanan, SCONA IV vice chairman.

Hugh E. Wharton, president of the MSC Council and Directorate for the fall semester; H. C. Dillingham, retiring former student representative on the Council; W. R. Horsley, retiring faculty member on the Council; W. L. Truettner, retiring faculty member on the Council.

James E. Fallin, Music Committee chairman; Johnny Johnson, director of the Intercollegiate Talent Show and directorate assistant; Paul Kinnison Jr., Dance Committee chairman; Clyde Whitwell, directorate assistant and Dance Class co-chairman; and Don Zirkle, Browning Library Committee chairman.

## Lions Pick Officers At Secretary Fete

Twenty-six local secretaries were guests of the College Station Lions Club yesterday to hear one of their number give a secretary's eye-view report on boss-secretary relations.

Mrs. Lloyd (Beverly) Shelley, secretary to Dr. L. V. Patterson, vice president for agriculture, spoke to the club on "You and Your Secretary." The secretaries were honored in conjunction with National Secretaries Week, held last week. Mrs. Shelley is a member of the Bryan-College Station chapter of the National Secretaries Assn.

Also at the luncheon, Lions elected Archie I. Flowers president for the coming year. A full slate of officers was elected and they will take their new positions July 1.

Other officers elected are Donald W. Hood, first vice president; Charles V. Wooten, second vice president; M. L. (Red) Cashion, third vice president; Charles Cosler, secretary-treasurer; Lloyd

Shelley, assistant secretary-treasurer; Jim Killebrew, Lion tamer; James Gregory, assistant Lion tamer; Freddie Wolters, tail twister; Jim Denton, assistant tail twister; Phil Weihs, board of directors (one-year term); and Bill Adkins and Lacy McCall, board of directors (two-year terms).

Mrs. Shelley gave the Lions a capsule formula for getting the most efficient and reliable work from their secretaries.

"It is just as important that the employer be a good boss as it is for the employee to be a good secretary," she said. "If each knows what to expect from the other and that the other can be depended on, the work from that office will be much more efficient and pleasing to all concerned."

In closing she urged all "bosses" present to give aid and encouragement to furthering the professional education and improvement of their secretaries.

## Rent Increase Designed to Aid Room Fix-Ups

Allocation of \$100,000 for repair of college dormitories and acceptance of \$117,067 to support scholarships, fellowships and research within various parts of the A&M System highlighted business at the System's Board of Directors meeting Saturday.

The \$100,000 will be used to repair and improve dorms. The \$100,000 is expected to come from the added revenue derived from the raise in dorm room rents authorized by the board at its February meeting. The board raised the rent from \$12.50 to \$15 per month.

Because this money will not be available until after the completion of the 1959-60 school year, Vice President Earl Rudder asked the board to authorize the loaning of \$50,000 from the Dormitory Reserve account and \$50,000 from the Department of Athletics funds. The athletic funds will be repaid after the 1959-60 school year.

Money Allocation  
The money will be used to repair Milner, Leggett, Mitchell, Puryear, Bizzell and Walton Halls. New study tables and chairs will be placed in Dorm 1. New beds and bed springs will also be purchased, and 2,000 mattresses will be rebuilt.

Venetian blinds will be installed in Dorms 1, 3, 5, 7, 8, 9, 10, 11, and 17.

The funds accepted by the board included 14 scholarships amounting to \$6,450; 5 grants-in-aid totaling \$22,710; and 5 special gifts amounting to \$750.

TTI Gets \$3,552  
The Texas Transportation Institute received 75 gifts totalling \$3,552 in support of establishment of the MacDonald Chair of Transportation, a memorial to the late Thomas H. MacDonald, formerly chief of the U. S. Bureau of Public Roads, and a distinguished research figure of the TTI from 1954 to 1957.

Dr. C. H. Groneman was re-appointed chairman of the Athletic Council for 1959-60 school year.

Vice President for Agriculture R. E. Patterson outlined the work being done in the School of Agriculture to the board.

Vice President for Engineering John C. Calhoun Jr. also presented a report on the School of Engineering.

Both men stressed the need to secure and keep higher quality professors and researchers. They also pointed out the need to attain an academic atmosphere on the campus.

## Dulles Taken Off X-ray Treatment

WASHINGTON (AP) — John Foster Dulles, ill with cancer, is no longer getting X-ray treatments. He is receiving pain killers.

The State Department made this report Monday on its former secretary of state, saying that the "X-ray treatment to Mr. Dulles' neck is now completed without significant improvement in the discomfort as yet."

Radiation treatments of the abdominal area, where Dulles suffered cancer in 1956 and again this year, were ended March 18.

Dulles began receiving a series of low voltage X-rays in the lower part of the neck on April 14 after suffering pain which doctors said may have come from cancer in that area.
