

Little Leaguers Open Play; White Sox, Red Sox Get Wins

Little Leaguers of College Station kicked off their 1959 season Monday night and the Red Sox and White Sox became the first victors.

A&M Basketball Coach Bob Rodgers threw out the first ball to open the season.

In the opening game of a twin bill, the Red Sox slipped past the Senators behind the two-hit dealings of Randy Hall. In the nightcap, the White Sox dumped the Orioles in a close seven inning affair, 10-9.

Hall was the hero of the first tilt, setting down the first nine Senator batters on strikeouts. He finished the game with a total of 14 strikeouts.

Longview Tackle Signs With A&M

George Hogan, a 6-3, 235-pound all-district and honorable mention all-state tackle from Longview, signed a letter of intent Tuesday with Assistant Coach Elmer Smith of A&M.

Hogan was named most valuable player on last year's Longview High School eleven where he played under Catfish Smith. He will play for the North squad in the annual All-State football game between the North and the South in Fort Worth this August.

He is the 14th tackle signed by Jim Myers' coaching staff this spring. The Aggies have signed more tackles than anyone else.

Bowling Meetings Set for Next Week

An organizational meeting of all men interested in forming a male sanctioned bowling league will be held in the Memorial Student Center bowling alleys, Tuesday at 7 p.m. John Geiger, Bowling and Games Department, said yesterday.

Geiger also said that anyone interested in a mixed doubles bowling league should meet in the MSC bowling alleys next Wednesday at 7.

"Those interested in adult bowling instruction are urged to meet in the bowling alleys next Thursday afternoon at 2," Geiger added.

Hubert Hearne of the Red Sox shared the spotlight with Hall by hitting two homers over the left field wall. The Senator's Larry Coufal also hit a home run. Larry Godfrey started for the Senators but yielded to Russell Hanna in the second after being hit for three tallies in the first.

Errors marked the wild twilight game between the White Sox and Orioles. Both teams totaled 15 bobbles. The Sox scored one in the second, three in the third, two in the fifth and rallied for four tallies in the seventh to score the win.

The Orioles had a big fourth frame, sending ten men to the plate and notching six runs. Their other three tallies came in the

seventh inning when they sent nine sluggers to the plate. Relief hurler John Skrabanek picked up the win for the White Sox and Reliever Willie Edmonds was credited with the loss.

Duke Butler led the White Sox attack with two hits in three trips to the plate. John Perry was also two-for-three for the Orioles.

Kenagy to Debate On Aging Problems At National Meet

H. G. Kenagy, associate professor of business administration, A&M, will be one of the principals in a debate on retiring workers at a fixed rather than variable age, at the 11th National Conference on the Problems of Aging, to be held at the University of Michigan, June 22-24.

Prof. Kenagy is a member of the National Council on Aging and has been an active promoter of industry plans designed to help employees plan intelligently for their post retirement years. As a charter member of the Texas Society on Aging, he has been active in the affairs of that organization. At present he is serving on the Planning Committee.

Gov. G. Mennen Williams of Michigan, will preside over the debate, "Resolved: Compulsory Retirement at a Fixed Age Should be Abolished." Professor Kenagy will take the negative position.

Others who will participate in the debate are Dr. Clark Tibbitts, special staff on aging, U. S. Department of Health, Education and Welfare; Prof. Robert K. Burns, Industrial Relations Center, University of Chicago; W. Thomas Kelly of Towers, Perrin, Forster and Crosby, Inc., internationally known consultants on pension planning.

Disposal Method In Digestion Tanks Discovered Here

A practical way of safely disposing of supernatant liquid from sludge digestion tanks in sewage treatment has been discovered.

J. H. Sorrels and P. J. A. Zeller devised treatment for the liquid in experiments at the Texas Engineering Experiment Station. Their method utilizes the trickling filter. The supernatant results in digestion of sludge from treatment processes over long periods of time. Until now its disposal has presented a problem in sewage treatment operations due to its strength and nature.

Studies completed show that supernatant can be treated by trickling filters without dilution, at loadings comparable to those commonly used for sewage. Studies of trickling filter treatment with recirculation of effluent are under way. Results obtained thus far indicate that much higher loadings are possible.
