(Continued from Page 1)

Treat all frame buildings for termites.
Set up a renovation plan.
Buy three new buses. Set up annual replacement plan.

Grounds

Prepare master plan of building sites, playgrounds, drainage, streets, and parking areas.
Improve grounds to reduce dust in elementary areas, and institute a continuing maintenance program.
Plan and carry out street, parking, and drainage improvements in co-operation with the City.

Provide parking areas for the high school auditorium.

Financial

Estimated total capital cost of program: \$540,000.

Can be carried by voting Senate Bill and by increasing valuations slightly.

Can be voted all at once or in increments. Committee will support either of several plans.

Necessary annual budget from local funds would be about \$196,000, compared to \$140,000 last year.

This amount would require a tax rate of \$1.90 on present valuations, a 36% increase.

The committee recommends an immediate increase to this rate.

Foundation Given \$17,000 Grant

The A&M Research Foundation has received a \$17,000 grant from the National Science Foundation to support research in the Department of Oceanography and Meteorology.

The grant will support a two-year study of the reef environments and the carbonate deposits of Campeche Bank for a better understanding of the relationship of the deposits, biology and the water mass.

Dr. R. G. Bader, associate professor of oceanography, is the principal investigator, and Brian Logan, a research scientist in the department, is the associate investigator.

During the course of the study, two or three trips a year will be made to the Campeche Bank off the coast of the Yucatan Peninsula.

P. L. Downs Jr. Ill in Hospital

P. L. Downs Jr., official greeter for the college, is ill and in St. Mary's Infirmary, Room 345, Galveston.

Downs has been in the hospital for about two weeks and is improving, Mrs. Downs says.

PLANE UMBRELLA

NEW YORK (AP)—The world's largest steel-ribbed umbrella will serve as a terminal for Pan American World Airways at New York International Airport.

Thirty-two rib girders will radiate from the center core of the umbrella-like structure, said Thomas R. Mullen, whose Lehigh Structural Steel Company of Allentown, Pa., will fabricate and erect the eight million dollar structure. The roof will be four acres in area.

Mullen said the largest of the girders will be 224 feet long and weight 75 tons.
