

**Battalion Visitors**

Visiting in The Battalion office yesterday were, left to right, Sandy Fenner, Shara Lynn Spradlin, Judy Marshall and Dolores Denny, all delegates to the High School Journalism Workshop. The girls are from Fort Worth where they attend Birdville High School.

## Four Lovely Visitors Enjoy Aggieland Trip

**EDITOR'S NOTE:**—The following article was written especially for The Battalion by Dolores Denny, Shara Lynn Spradlin, Judy Marshall and Sandy Fenner, four

girls attending the Journalism Conference now on the campus.

Coming to Aggieland was an exciting as well as an interesting trip for the students of Birdville High School in Fort Worth.

Upon arriving, we immediately began admiring the beautiful scenery and extremely luxurious Memorial Student Center.

Everyone then began the much-dreaded chore of unpacking and discovering the articles that had been left behind.

We then began touring the beautiful campus. Much to our surprise we found the Aggies very friendly, polite and very proud of their campus and institution.

Although most of us had only been here a day, we soon found ourselves being escorted onto a beautiful terrace at the Memorial Student Center for a dance, with music furnished by Johnny Lyons and the Nu-Notes.

As the days quickly pass, we feel more and more that our stay here has been both educational as well as entertaining.

## Johnson Attacks Reported Helpful

By TEX EASLEY

WASHINGTON (AP)—A west Texas attorney, here for a congressional hearing, says the attacks on Sen. Lyndon Johnson by Sen. William E. Proxmire (D-Wis.) and Democratic National Chairman Paul Butler have boomeranged.

"That's certainly been the result out in my part of the state," Lloyd Croslin of Lubbock, a former district attorney, said.

"Their attacks have widened the middle-of-the-road group which has long backed Lyndon."

Croslin, a secretary to Rep. George Mahon (D-Tex.) from 1935 to 1940 while studying law, testified before a house Interior subcommittee against a bill, that would destroy retroactively, priority rights on certain oil and gas leases in the public domain.

He appeared specifically on behalf of a client, Mrs. Christine Elliott of Shallowater, Tex., who had applied for an oil and gas lease on four sections in Lea County, N.M., and had been given notice that her offer had No. 1 priority.

Singing star of a local summer stock theater's production of "Show Boat" is a Texas actress, Marijane Maricle of Schulenburg.

Daughter of Mr. and Mrs. Ralph Maricle, she visited Capitol Hill and escorted by Rep. Clark Thompson of Galveston, went to Speaker Sam Rayburn's office to present the "Dean of Congress" with a small oak gavel. It was carved by her father.

A graduate of the University of Texas, Miss Maricle taught school in Corpus Christi in 1944 before going to New York to star in a number of Broadway plays. She attended public school in Wichita Falls and lived a while in Dallas.

### EXPLOSIVE TOBACCO

TULSA, Okla. (AP)—Jack Putnam, farm editor of the Tulsa World, fired up his pipe and it exploded. After the smoke cleared, he discovered the bowl blew up because a .22 caliber shell had rolled into it while the pipe was in his pocket.

## Aggieland Cadets Train for Progress

The Cadet Corps at Aggieland has taken on a new look.

The School of Military Science has made changes and progress is being made in the training of students to prepare them for the atomic and "jetomic" age.

The military training prepares the cadet for the future and provides him with a foundation for solving the complexities of life after graduation. The objective of the Corps of Cadets is fourfold:

a. To produce officers who have the qualities and attributes essential to their progressive and continued development as officers in a component of the Armed Forces of the United States of America.

b. To lay the foundation of intelligent citizenship for the cadet through a training program designed to be of benefit to him, to the State of Texas and to the nation whether in military or civilian life.

c. To provide strong training in basic principles of leadership including promptness, honesty, fairness, intelligence and common sense.

d. To develop a deep sense of responsibility, honor and integrity and to cultivate habits of cheerful obedience and precision in the maintenance of high standards of performance whatever the task.

The Army (ROTC) is teaching new pentomic army organization, operations and tactics. The latest developments in equipment that is not classified are used; new concepts in logistic support to fast moving tactical units, made possible by automatic data processing systems, developed under the supervision of the Army Signal Corps, new trainfire techniques, a method of improving marksmanship quicker and more effectively or realistically, are being taught.

The Department of Air Science is dedicated to training young men for the "jetomic" age. AFROTC cadets are given the latest up-to-date material; constant research is conducted by Headquarters, Air

The U. S. Army Transportation Corps has developed new types of swift, mobile, off-road transport for improved mobility in snow, marsh and desert.

Force, located at Maxwell Air Force Base, Ala., and the various college detachments. Cadets (freshman) are offered a comprehensive picture of the total American air power and the places of military forces as instruments of

national security; cadets (sophomore) become familiar with the elements of aerial warfare; cadets (junior) are given a comprehensive picture of the Air Force Base, its organization and distribution of responsibilities; during the sen-

ior year the preparation of a young man is concluded in a study of the principles of warfare and how they have evolved; his four years in the AFROTC program prepare him for a future career as an Air Force officer.
