**Fifth Range Camp Opens at Junction**

The fifth annual Range Camp sponsored by the Texas Section of the American Society of Range Management will be held at the A&M Adjunct at Junction this coming week.

B. J. Ragsdale, extension assistant range specialist, said the purpose of the camp is to teach outstanding FFA and 4-H boys from over the state good range management practices. This will be done by lectures, field demonstrations and field trips to outstanding ranches.

Thirty-two boys, sponsored by home-town organizations, will attend the camp. Experienced men from the department of range management, Texas A&M; Soil Conservation Service; vocational agriculture; and Texas Agricultural Experiment Station and Extension Service will make up the staff.

**ROPE THAT DEER**

LINCOLN, Neb. (AP)—It may never catch on as a deer-hunting tactic but John Scott, poultry farmer near Lincoln, captured a full grown mule deer with a lariat.

After lassoing the animal which had wandered onto his farm, Scott and a companion threw the deer to the ground and tied it up in the manner of a calf ready for branding. In short order, the deer became the newest addition to a Lincoln zoo.

**Walter H. Thames Joins Faculty Here**

Dr. Walter H. Thames Jr. has joined the instructional and research staff of the Department of Plant Physiology and Pathology as an associate professor, Dr. G. M. Watkins, dean of the School of Agriculture, has announced.

A native of Georgia, Thames attended Emory University and Georgia Tech prior to World War II. From 1940 to 1946 he served in the U. S. Navy as a gunnery officer and now holds the rank of Commander in the U. S. Naval Reserve.

After the war, Thames entered the University of Florida where he received his B. S. degree in entomology with high honors in 1947.

The following year he received his M. S. degree from the University of Florida and then joined the staff of the Florida Everglades Station at Belle Glade for research on nematodes and soil insects.

In February, 1955, he went to the University of Florida on a nematology research fellowship and joined the teaching and research staff of the university in 1957. He received his Ph.D. in soil microbiology (nematology) from the university of Florida in June, 1959.

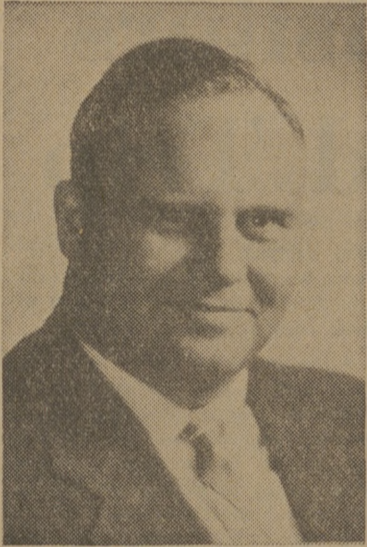

Thames is a member of several

honorary and professional societies, including Phi Kappa Phi, Alpha Zeta, Phi Sigma, Gamma Sigma Delta, Society of Systematic Zoologists, American Association for the Advancement of Science, Entomological Society of America and the Helminthological Society of Washington.

During the 1958-59 academic year, he was the recipient of the graduate award for outstanding research from the University of Florida Chapter of Phi Sigma.

He is the author of a number of scientific papers on soil pathogens, principally nematodes (microscopic worms causing untold damage to crops and ornamental plants.)

Dr. and Mrs. Thames and their two daughters, Margaret, 14, and Joann, 9, will reside at 105 Kyle, College Station.

Dr. Walter H. Thames

**Ph.D. Requirement Quizes Announced**

Examinations for meeting the foreign language requirement for the Ph. D. degree will be given Friday, Aug. 28, at 7 a.m. and 10 a.m. in Room 129 of the Academic Building, J. J. Woolket, head of the Department of Modern Languages, said.

Students not enrolled in Language 402 and 404 wishing to take this examination should leave the material over which they wish to be examined with the secretary in the Department of Modern Languages not later than 5 p.m. Wednesday, Aug. 26.

**EVERY MAN COUNTS**

NASHVILLE, Tenn. (AP)—Methodist Bishop Roy H. Short, urging fuller Christian service by laymen, said: "Every church member has some particular talent which may be put to use for the edifying of the church and the building of the Kingdom. This includes not only the 10-talent man but the two-talent man and even the one-talent man."

**Young Moderns Parents Pose Problems for Younger Set**

By VIVIAN BROWN  
AP Newsfeature Writer

"MY PARENTS are going to Europe for a couple of months, and I am staying home," writes a 17-year-old boy. "They have given me permission to have mixed parties while they are away. My steady girl says she will not visit my house while my parents are away. She thinks my parents are out of order and says her parents would be shocked at the idea. I told her my parents had confidence in me, and that she should see it that way. Don't you think she is showing a lack of trust in me?"

The question is not that your parents have confidence in you, and that therefore the girl should, but rather that the other parents do not have confidence in you perhaps, in a situation such as you suggest. Therefore, the girl has reasonable doubts. Even in this day of relaxed discipline, it is considered bad taste for a girl to be alone with a boy in such a situation though others of her age are present. Perhaps she and her parents could be appeased by the presence of a chaperone, and if you object to that, they are justified in their criticism.

**Formal Dance**

"My parents have invited my boy friend to a dance at a club. My father says the boy should wear formal clothes. The boy says he does not have a tuxedo, and will not borrow one as he prefers to wear a dark suit. I am wearing a formal evening gown. Should I try to persuade my father to agree that my date would be properly attired in the dark suit?" That's a letter from a 16-year-old girl.

As a member of a club, your father is committed to observing the rules, so if he suggests formal attire, it must be the order for that evening. If the boy stubbornly refused to go along with the idea, you should get another date. Discuss the situation with your father, however. Many clubs are not strict about such matters, and your father may have mentioned formal attire without considering the young man's wardrobe. Some young men have a definite dislike of formal clothes being foisted on them, and often it is bashfulness that keeps them from climbing into these duds. Once he has been seasoned, the social bit comes easier to a young fellow.

**Love or Grades?**

"My father is a college professor. I attend the school where he teaches and we live near the university. I have an attractive boyfriend, although I am overweight and not very pretty. We have a hobby of photography. This boy was in one of my father's classes last year, and my father did give him some special attention. I have not heard from him since school was out, and my girl friend says he was only interested in my father's tutoring, and that I will not hear from him until next fall, if then."

I would not worry about what the friend thinks. Your guess is as good as hers in this case, and she is being very unkind to make such comments. If the boy does communicate with you, don't remind him of the lapse. It could be that this boy does consider you a good friend, and has no serious intentions.

**TELEPHONE TRANSACTION**

GEORGETOWN, Ky. (AP)—David Gregory and his younger brother, Charles picked more strawberries than their mother wanted. They tried to sell the extra berries without success.

David then started calling friends by telephone. No sales. Then Charles took the phone. "I'll sell them," he said. Charles dialed the operator. "Wanta buy some strawberries?" he asked. The operator turned him over to the chief operator. Charles repeated his question.

"Sure," the chief operator said, "I'll take six boxes."

The two boys sold six boxes of berries to the chief operator and seven more to other telephone employees.

**CAW! CAW!**

ELIZABETH, N. J. (AP)—John Schnellbacher has something to crow about—crows. He's raising five of them in his house.

John, 31, a former New Paltz, N. Y., farm boy, found the birds after mama bird had deserted them. He's been feeding them on milk, bread, hard boiled eggs and chopped meat.
